PARK'S ILLUSTRATED FLOWER BOOK

OF
CHOICE
DEPENDABLE
SEEDS
SEASON of 1932

GREENWOOD, SOUTH CAROLINA

All of Park's seeds are 5 cts. a Packet, and all are Guaranteed.

The Finest Known Giant Sweet Peas

HERE are the finest Sweet Peas known, selected recently by the Floral Committee of the National Sweet Pea Society from the hundreds of kinds cultivated. None are better.

They are the cream of all, huge in size, finest in color, perfect in form, mostly four or five flowers on each stem; absolutely the best. Each variety 5cts., oz. 15cts., 1-4lb. 50cts.

My seeds are all of the new crop, and from the best Sweet Pea Specialists. They will be found to be of prime vitality and true to name.

AVALANCHE, very large, glistening pure white, excellent.
BONFIRE, soft pink, white wings, large, waved, handsome.
FORTUNE, rich dark blue, bright and solid, large, frilled.
GLENEAGLES, very large, lavender-blue, deep frilled.
GRENADIER, deep cerise, large, handsomely frilled, fine.
HUNTSMAN, rich and beautiful shade of scarlet, beautiful.
MARY PICKFORD, dainty soft pink, suffused salmon; frilled.
MRS. A. SEARLES, rich cerise pink, large; frilled; a prize sort.
OLYMPIA, deep rich purple, large, exquisite form; beautiful.

PICTURE, largest flowers, pink, suffused apricot; splendid.
PINKIE, beautiful rose-pink, large, frilled, handsome.
SUNSET, a rich mingling of rose, amber and gold; excellent.
SUPREME, soft clear pink, very large, splendid; one of the best.
TANGERINE IMPROVED, large, brilliant tangerine-orange.
THE PRINCE, bright clear crimson, solid color; gorgeous.
WARRIOR, large, finely frilled, deep maroon; very choice.
WEMBLY, lavender, suffused plumbago-blue; charming.
WHAT JOY, primrose, shaded cream, large; much admired.

Complete Special Mixture, Finest Blend of Giant Spencers, including seeds of the above, packet 5cts., ounce 10cts., fourth pound 35cts., pound \$1.30.

GEO. W. PARK, Prop'r., Greenwood, South Carolina

INDEX also GERMINATION TABLE

WHEN sowing divide the packages and sow at different times. Note the time, and give good care until the plants have had time to appear. Figures here indicate pages, and letters indicate as per key the time needed for germination. Do not condemn seeds until you have given them at least two or three trials. Those marked **z** will often lie dormant for a year or more.

Time of germination varies considerably, according to conditions. If the soil is too dry the seeds will not start; if too wet they will often rot, especially if the temperature is warm. Some seeds, especially of shrubs and trees, will lie in the ground for one, two or more years before germinating. Adulmia, Dictamnus, Primula vulgaris, English Violets and many other perennials will often lie dormant for two years or longer. I have known fresh seeds of shrubs to lie dormant for four years, then come up thick in the row. Most of the seeds I offer, however, will germinate promptly, and bloom the same season in which they are sown.

As a rule, give c and ch the sound of k. G is generally hard, as in get. Such words as Zinnia and Gilia, ending in ia are pronounced Zin'-ne-a, Gil'-e-a, not Zin'-ya or Gil'-ya. Correct pronunciation sometimes varies as, for instance, Gla-di'-o-lus and Glad-i'-o-lus.

Please hand extra copies of my Flower Book to flower-loving friends. Thanks.

SOME PRACTICAL REMARKS

ONCE more, dear friends (I say friends for all my patrons seem as such) we have, by the kindness of Providence, reached another milestone along life's journey, and it registers "1932." How swiftly the years pass. To me it appears even but a short time since, as a youth at the old homestead, I began to cultivate flowers for the love of them, and later (in 1868), in a modest way, I began to save and sell their seeds. But two generations of my dear flower-loving people have since been pleasurably served with their flower needs, and now, in the vigor of ripe manhood, why should I not, by Divine favor serve the third generation more generously, more faithfully and more satisfactorily than the other two? Echo answers "why?", and I assure you it will be my ambition and earnest endeavor to do so. I love my work, and am never so happy as when meeting the wants of my patron-friends. Thus employed life speeds pleasantly on as though charmed by the sweet tones of a silver bell. The many delightful letters I receive urge me to renewed energy. So I do my best, and can truthfully say that the pleasure and satisfaction of my friends are more to me than their money.

Right here I wish to heartily thank you, my friends one and all for your liberal favors of the past season. Many of you spoke to others of my satisfactory seeds and service; also sent in club orders, while others sent names of flower-loving friends to whom I gladly sent Flower Books. I need not say these favors were fully appreciated. It was due to them that my business doubled during 1931, and with the help of my loyal patrons I hope to redouble it this season. I have now a better equipment and a more efficient organization than in the past. I shall continue to sell new-crop, dependable seeds of the best possible quality at "hard times" prices. So I bespeak the continued favors of my esteemed friends, optimistic of my enlarged future trade.

Further Remarks. My Friends, the seeds I offer of both Flowers and Vegetables are all new and sparkle with vitality, while I can assure you they are of the best quality. Those I do not grow are obtained of the new crop, fresh from old reliable growers who know their business--men who rogue their beds and improve their products by careful selection. My seeds are thus not the hap-hazard product of careless and inexperienced growers. I challenge a comparison with seeds of any other seedsman, regardless of cost or claim. You will also find my packets often more liberal in size than the higher-priced packets of my competitors. Since early boyhood, when I first began my business, my motto has been "Big sales and small profits", and I have never profited. I have always given full value for money received.

"How can you sell first-class seeds at such low prices?" This is a question often asked, I gladly explain: First, I am a practical printer and own a well equipped office, where all of my publications are issued under my personal supervision at nominal cost. Second, I avoid the use of fanciful colored pictures, which doubles the over-head expenses and necessitates doubling the price of the seed-packets. Third, the over-head expenses are further curtailed by my situation where property taxes are light and labor less expensive. I can therefore afford to profitably sell costly seeds at prices that would bankrupt the city seedsman with his enormous rents and extravagant expenses. Please tell your friends of my establishment, of its economic facilities, of the high quality and low prices of my seeds and if possible get up a \$2.00 club order, thus getting the seeds at 4cts. a packet. Such a club can be readily obtained among your friends at 5cts. a packet, thus allowing you 10 packets for your trouble. If you cannot find time to get up a club kindly send me a list of five or six names of flower-loving or seed-buying friends to whom I may mail my Flower Books. Your favors will be much appreciated.

This Flower Book is different from other Lists. It is unassuming and issued for real information to flower lovers in selecting the choicest flowers for their various needs. I do not care to boost the sale of flowers under "home-made names, using over-drawn descriptions and gaudy colored pictures to demand fancy prices. I have but one price, 1 packet 5 cts., 22 packets \$1.00, 50 packets \$2.00. You can get any seeds offered in this Catalogue for 5 cents. I shall appreciate the efforts of my friends in soliciting orders from others in the community. If possible get some neighbors to club with you and get a \$2.00 order. You will thus get 10 extra packets, which will justify your efforts. Additional Catalogues will be sent to any neighbor or friend who would be interested in getting first-class seeds at 5 cts. a packet. And when ordering why not give the names and addresses of a few friends who are in the habit of buying seeds.

Keep this Catalogue for reference. Hang it on a nail in a convenient place. You will be surprised how often you will want to use it. Here are some of its good points: First, It offers many things you cannot get from other seedsmen. Second, seeds are offered under these heads: A. those that bloom the first season; B. those that bloom the second season. C. those that grow and bloom in pots, summer and winter. Third. The time of germination of the seeds, the height of the plants and the pronunciation of the names are all given. These you will often have occasion to refer to.

Please Note: It will pay you to read this entire Catalogue over carefully once or twice, then string it and hang up where you can find it when wanted. It offers and briefly describes the largest collection of seeds in the United States, and at prices that are available to all who love and cultivate flowers. It teems with information that is found in no other catalogue. It is humble in appearance, but what it lacks in gaudy colored plates is made up in the quality of the seeds offered and the price at which they are sold.

Terms of Sale. Price 1 packet 5 cts. 22 pks. \$1.00, 50 packets \$2.00, by mail, post-paid, guaranteed to reach you. If lost in transit I will refill the order. If mistakes are made I will gladly correct them. If seeds fail I will replace them. (See terms in Cultural hints sent with seeds.) I aim to treat you just as though you were personally present, and I am always ready to do more than justice and fair dealing demand. I want your continued patronage and I hope you will tell your friends and neighbors of my prompt and faithful service, and thus help me to enlarge my trade in your community. Why not get up a club? If you order \$2.00 you will get my seeds as 4 cts. a packet. Can anyone ask for more? Catalogues mailed free. Please give names of those who habitually buy seeds.

Saponaria Vaccaria, 2 ft. This is a beautiful annual, useful for pots in the conservatory, for beds in summer, and for cut flowers. It is popular in the markets of Paris. Its glistening pink and white flowers in light graceful sprays are produced in wonderful profusion; charming for vases; insures a continuous display. Packet 5 cts. **Saponaria Ocymoides**, 1 ft., is a hardy perennial, bearing its exquisite flowers in showy clusters at Decoration day. It is then a sheet of rich colors, thus fine for cemetery planting. Easily grown. Pkt. 5 cts. See page 17.

Linaria Cymbalaria. If you want a beautiful basket plant for sun or shade get *Linaria Cymbalaria*. Its graceful sprays of lovely green, studded with little lilac blooms makes a picture of exquisite beauty. It is also excellent to shield a bed of Roses or Gladiolus from the hot summer sun. It is a hardy perennial of easy culture, and holds its place when once started. Another called *Globosa* is superb for carpet, bedding, as every plant becomes a globe of rich bloom, and is desirable because thriving in either sun or shade. Don't omit these *Linarias*. pkt. 5 cts. See page 12.

A BEAUTIFUL BOUQUET ONLY 50cts.

- | | |
|--|--|
| 1 Godetia , splendid rich-colored easily-grown annuals for beds and bouquets; finest mixed. | 7 Pansy Mette's New Bedding , hardy, compact, very floriferous; splendid colors and markings. |
| 2 Petunia Double Lilliput , grown by Benary; from selected pot plants, finest mixture. 40 seeds. | 8 Convolvulus Minor , very bright, beautiful, free-blooming annuals of many rich colors. |
| 3 Molucella, Shell Flower , flowers white in veined bell-like shells; handsome; hardy. | 9 Sweet Alyssum , everblooming, masses of fragrant clusters from early spring till winter. |
| 4 Double Balsam, Benary's New Scarlet Striped ; beautiful as a Carnation; Camellia-flowered. | 10 Ipomea Hederacea , an elegant vine with showy pretty flowers and Ivy-like foliage; fine. |
| 5 Picotee , the loveliest of all Pinks; Vilmorin's extra double; richly scented; beautiful; fine. | 11 Gypsophila Elegans , masses of lovely flrs, charming in beds and bouquets; white, pink, red. |
| 6 Phlox Drummondii , everblooming, large-flowered; all the fine new and old colors; extra choice. | 12 Ornamental Grasses , mixture of the most graceful and beautiful for beds and bouquets. |

These 12 liberal packets all for 50cts; sure to grow and delight you. Still More. Order two lots, \$1.00, and a packet of the Tomato Tree, bearing sweet-scented flowers and delicious scarlet fruits. Or send for 4 lots, \$2.00 and get Tomato Tree and a packet of Bodger's New Golden Gleam Fragrant Double Nasturtiums, free. Tell your friends. Get up a club.

Some Good Things Briefly Described

THE following four pages contain brief descriptions of some good flowers of which I offer choice seeds, and I will here repeat that all of my seeds are dependable in vitality and quality. I do not deal in cheap or old seeds. With all seed packages I send explicit directions for sowing and caring for the little plants, and if you fail I want to know it. My sincere interest is in the happy success of every patron. Your success is my success and your pleasure my pleasure. Season of 1932. **GEO. W. PARK.**

Primroses. Dear Mr. Park: I am delighted with the seeds purchased of you. My *Primula Obconica* and Chinese *Primroses* are wonderful, and much admired. Grace Coyle, Johnson Co., Mo., Mar. 11, 1931

Oriental Poppies. Dear Mr. Park: I now have nearly all of your Oriental Poppies. I have beautiful scarlet ones bought of you 18 years ago, and I often count 50 blooms on one clump, all at one time. They make a glorious display. Clara Martin, Lackawana Co., Pa., Apr. 3, 1931

Antirrhinum. Dear Mr. Park: I have found your seeds of the best, and certainly appreciate the pleasure I get from such lovely flowers.

AGERATUM Capella, 8 inches; new, free-blooming; clusters of rosy-chamois flowers throughout the season.

ALYSSUM Little Dorrit 4 in. A greatly improved compact sort; plants bushy and literally smothered with sweet white clusters; a gem for edgings, beds or pots.

AGROSTEMMA Walkeri, 2 ft. A new hybrid bearing large brilliant rosy-purple flowers; showy garden plant.

ALONZOA, 1 ft. A rare but beautiful easily-grown flower for beds or pots; white, rose, vermillion, scarlet and chamois all mixed.

AMARANTHUS Abyssinicus, 5 ft. A giant love-lies-bleeding; bears drooping chenille-like tassels often two feet long, rich dark red; showy in groups and as single specimens; likes sun.

AMARANTHUS, Molten Fire, 2 ft. The brightest of foliage plants for beds or pots; every leaf and stem is rich carmine-red; new and exceeding attractive.

ANTHEMIS Kelwayi, 2 ft. White and yellow Daisy-like flowers freely produced throughout the season; showy in beds and good for cutting; hardy perennial.

ANTIRRHINUM Kelway's Volcano, 2 ft. This is a wonderful Snapdragon developed by Kelway, who says it is "the finest on the market." It is the most brilliant of all Antirrhinums—a rich flaming scarlet, glowing like fire in the sunlight. It delights all who see it, and cannot be too highly recommended.

ANTIRRHINUM Goliath, 2 ft. Massive flowers on giant spikes; salmon-rose and orange shaded to pale apricot; a fine novelty.

ANTIRRHINUM New Rock Hybrids, 8 in. These are a cross be-

tween *A. Glutinosum* and *A. Majus*; fine for the rockery. For the Glorious Majestic Snapdragon see page 2 of Flower Aid.

ANTIRRHINUM Fairy Tale, 2 ft. new; dense, terminal erect racemes of giant flowers over two inches in diameter; upper lip salmon-rose, lower lip golden yellow with whitish tube; very showy and beautiful.

AGERATUM Frazeri, 1 ft. free-blooming everblooming; big clusters; fine for beds, edgings and pots.

ASCLEPIAS Curassavica, 3 ft. A very handsome easily-grown ever-blooming plant bearing scarlet and gold clusters; fine for beds or pots; blooms freely in the window in winter.

ASTER California Sunshine, 2 ft. A new Aster of branching habit, bearing graceful flowers five inches across; center quilled, encircled by small white florets, the long marginal petals loose, twisted and showing many rich and varied colors; something entirely new in Asters; showy in beds and splendid for cutting.

ASTER Kelways New Development, 3 ft. This is not new but has been much improved and is one of the most beautiful of the Kelway Asters. The flowers are full-double, of great size, and exhibit all the leading colors and variations; they are glorious in beds and unsurpassed for bouquets or designs. New crop seeds direct from Kelway

ASTER General Joffre, 2 ft. A single-flowered Aster of great beauty; flowers large, dark velvety crimson-maroon. Showy in beds and fine for cut flowers.

Pentstemon. Dear Mr. Park: Your Giant *Gloxinia*-flowered *Pentstemons* have been admired by all, and are most satisfactory plants for this region. The size of the bells and their exquisite colorings make them the finest I have ever seen. I had such good success with your seeds that I am sending for more. W. K. Gilkey, Santa Clara Co., Calif.

Cineraria. Dear Mr. Park: The *Cineraria* plants from your seeds are now in bloom, and I must say your seeds surpass any I have bought from other seedsmen. Mrs. Oia Slangenaupt, Clarion Co., Pa.

everyone here, and are simply gorgeous. We were all wild about the Giant Ruffled *Petunias*; they were so large and handsome. F. J. Kirschbaum, Ramsey Co., Minn., Oct. 13, 1931.

Anemone. Dear Mr. Park: The seeds I bought from you last year grew fine. The St. Brigid Anemones are of every color of the rainbow. I am delighted with them, and recommend your seeds to others, showing them my own thrifty plants. Mrs. A. B. Colby, Grays Harbor Co., Wash., May 18, 1931.

Pleased. Dear Mr. Park: The seeds recently purchased of you are all up and growing nicely; every seed came. Louis Etter, Humboldt Co., Calif., June 11.

Sweet Peas. Dear Mr. Park: I want to tell you how pleased I am with the Sweet Pea seeds I got from you last spring. They were the prettiest I have ever raised, so large and so many colors. Mrs. C. E. Miller, Newaygo, Mich.

Portulaca. Dear Mr. Park: Our Double Portulacas from your seeds were just beautiful beyond description. Everybody admired them. Mrs. W. E. Snyder, Boone Co., Ky., March 21, 1931.

ASTER New Cactus-flowered, 2 ft. Branching pyramidal plants covered with cactus-like flowers, refined and beautiful; rosy-carmine Celestial, blue

BALSAM New Bush, 1 ft. This is a fine novelty bearing spikes of bright flowers above the foliage; each plant becomes a bouquet of lovely map-like flowers; colors white, rose, red, separate or mixed. Plants thrive in shade or sun, and do well either in beds or pots. Started in early autumn they bloom freely in the window in winter.

CALENDULA Radio, 1 ft. Thrifty plants bearing large, double, deep orange flowers, the petals beautifully quilled; distinct and showy. A splendid novelty.

CARNATION, Benary's Improved, 1 ft. Very beautiful for beds or pots; begin to bloom in four months and being hardy will last for several years; free-blooming and continuous-blooming; the big full-double flowers deliciously scented. Excellent for beds in the garden and bloom freely in pots in a sunny window in winter. Seven fine colors separate

CELOSIA Globosa, 2 ft. An elegant Celosia, each branch developing a fluffy brilliant crimson-scarlet head six inches or more in diameter. These heads are not unlike huge Japanese Chrysanthemums, very attractive in beds and fine for room decoration. A novelty of special merit.

CELOSIA "Parrot's Feather", New Prize Strain, 2 ft. Big feathery plumes of surpassing beauty; plants pyramidal in form, each branch bearing a lovely bright scarlet or orange plume, wonderfully showy in beds, and excellent for table or room decoration; blooms continuously, from early summer till frost. Seeds of Watkins and Simpson's prize strain, and of their new crop. Scarlet and orange, separate or mixed.

CENTAUREA Imperialis, 3 ft. Royal Sweet Sultan; flowers of great size, with long stems, and of all colors, as white, rose, blue,

purple, variegated; they keep well when cut and are very valuable for bouquets and designs, as well as showy in beds. Colors separate or mixed.

CENTAUREA Americana, 4 ft. American basket flower; a showy and beautiful annual that should be better known, grown in good soil the lovely rose-colored flowers are five inches across and borne at the summit of long, strong stems; fine in beds and a gem for cutting.

CHRYSANTHEMUM Indicum fl. pl., 2 ft. Early-flowering perennial; started early will bloom the first season. Mixed colors.

CHRYSANTHEMUM Japonicum fl. pl., bears big fluffy double flowers first season. Mixed colors.

CHRYSANTHEMUM Tricolor Eldorado, 2 ft. A rare annual branching freely and yielding a mass of bright golden flowers with a dark brown disc; free and constant-blooming in a bed and makes a fine show throughout the summer.

CLARKIA Crimson Queen, 2 ft. Thrifty plants that branch and become a mass of vivid crimson double flowers; make a glorious bed, and the flowers are fine for cutting. The brightest of all Clarkias.

COLEUS, finest strain of rich-colored and striking variegated sorts; easily raised from seeds and of quick growth; many novel and beautiful plants often develop from a packet of these seeds.

COREOPSIS, Grandiflora, Double, 2 ft. A splendid perennial blooming freely the first season, and lasting for years; big golden flowers on long stems and produced abundantly all season; attractive in the garden and fine for cutting.

COSMEA Kelwayana, 3 ft. Kelway's new and elegant novelty; flowers of great size, and the crest and guard are of different colors; a great acquisition.

COSMEA Lady Lenox, 3 ft. Very large flowers freely produced; showy in beds and fine for cutting. Pink, white and mixed.

CYNOGLOSSUM Amabile, 2 ft. This is the new so-called Giant Forget-me-not from China; flowers small, ultramarine-blue, in lovely forget-me-not clusters, very fragrant, and produced continuously during summer if freely cut.

Gloxinias. Dear Mr. Park: The Gloxinia seeds from you last year proved wonderful. I now have a windowful of plants, and this morning there were 8 different colors blooming. The first to open was on Christmas morning, and I haven't been without blossoms since. One white one measured 4 in. across. Mrs. L. R. Cossit, Madison Co., N. Y., June 29, 1931.

Begonias. Dear Mr. Park: I have more than a hundred baby Begonias from one of your 5 cent packets. They will soon be ready to transplant. I planted the seeds April 3, in two tins of different soil. I find the best soil is that from an old hollow tree. I used the reading glass at first to see the plants. Its fun to watch them grow. Mrs. C. E. Richardson, Hillsboro Co., N. H., June 4, 1931.

Petunias. Dear Mr. Park: I have had good success with your seeds. From a packet of Giant Petunias I have 24 nice plants. Mrs. Mabel E. Dickson, Athens Co., Ohio, June 1, 1931.

Dahlias. Dear Mr. Park: Thanks for your promptness and complimentary packets. On Saturday I planted the Dahlia seeds, and on Monday morning five plants were up. That should convince anyone that your seeds are fresh. Kenneth Gage, Jefferson Co., N. Y., March 10, 1931.

In the 80's. Dear Mr. Park: My first order for seeds from you was in 1886, and as yet I have never found any seeds that suit me as well as yours. Mrs. Edward F. Kirby, Arlington Co., Va., July 23, 1931.

DAISY, Kelway's Extra Double Crimson; the finest and most showy of English Daisies; extra double, hardy, free-blooming and rich-colored; makes a fine display in a bed set alternately with Pansies.

DELPHINIUM, Finest Large-Flowered Double, 5 ft. New-crop seeds saved by Vilmorin from the finest, most varied named var.

DELPHINIUM, Finest Large-Flowered Single, 5 ft. New crop from Vilmorin's choice collection, mixed.

DELPHINIUM, New Wrexham Hybrids. Hollyhock strain. Mixed colors. See page 5, Park's Flower Aid.

DAHLIA, Kelway's Show and Fancy, 4 ft. Saved from Kelway's splendid named collection, embracing the finest double Dah-

lias in the new rich colors of giant size and loveliest form.

DIANTHUS Allwoodii Alpinus, a new diminutive rock plant.

DIANTHUS Lacinatus Mirabilis fl. pl. 1 ft. Very large double flowers, the petals deeply cut or fringed, and exhibiting many splendid colors. Mixed.

DIANTHUS, Maiden Pink, Major Stern's Variety, 8 in. Foliage dark bronzy red; flowers rich bright crimson, produced in abundance, a new and rare rock plant.

DIANTHUS Sweet Wivelsfield, a new hybrid not unlike the annual Sweet William; many lovely colors and variegations.

ERIGERON Speciosus Azure Blue, 2 ft. A new hardy hybrid perennial, bearing carymbs of lovely blue cup-shaped flowers during the season; sow early. Once started it will take care of itself.

ERINUS Alpinus, 6 in. The Alpine Liver Balsam; fine for border, rockery and pots; masses of violet-red flowers.

GLORY OF THE SUN (Leucocoryne Txoides Odorata). This new bulbous Chilean plant was awarded a silver Lindley medal, 1930, by the Royal Hort. society of England. Flowers large, fragrant, blue with white center. Treat as Freesias. Blooms in two years.

GOMPHRENA Globosa Rubra, 1 ft. An everlasting flower that makes a fine display as a bedding plant; starts readily from seeds. Blooms when small, branching until the bed is a mass of lovely color; and remaining so till frost. Set six inches apart and edge with Pyrethrum Aureum. The plants will endure drought and hot sun. 5cts, 1-5 oz. 10c.

HELIOPSIS Lemoinei, double, 4 ft. A new strain far surpassing the ordinary double, the flowers being twice as large and much more showy. A hardy perennial but blooming in July and later when started early.

HOLLYHOCK Mette's New Annual Fringed, 5 ft. This fine strain blooms freely the first season, the flowers being large, full-double and exquisitely fringed.

IMPATIENS Balfourii, 2 ft. This is the rare and beautiful Orchid-flowering Balsam. The flowers are bi-colored, pink and white, and excellent for either pots or beds, growing and blooming well in either sun or shade. Rather tardy in germination; soaking for a day before sowing might be beneficial.

LARKSPUR New Giant Imperial, 3 ft. white spire, showy, the long, thickly set branches appear as spires of big double flowers. Fine for beds and for cut flowers. I can also supply Lilac Spire and Blue Spire.

LINARIA Cymbalaria Globosa, 6 in. A new dwarf sort of compact globular growth, becoming a mass of lovely bloom, almost hiding the pretty foliage; splendid for pots or edgings.

LINARIA Dalmatica Superba, 4 ft. Much improved L. Dalmatica; very large yellow and gold flowers, robust plants; fine for borders.

LINARIA Macedonica Speciosa, 3 ft. Long spikes of showy citron flowers; hardy; blooms first season.

Successful. Dear Mr. Park: I have sent you two orders already this season. The seeds proved so good that I am sending for more. I have more plants from your small packets than from those of more expensive seedsmen. Miss Ethel Mace, York Co., Maine, July 2, 1931.

Cineraria. Dear Mr. Park: Last year I planted a packet of your Cineraria seeds and raised 8 plants. All except one began blooming in January and are still in bloom. The plants grew unlike any I ever saw in Greenhouses. They are about 2ft. high, and the blossoms are mostly 3in. across. They are beautiful. Mrs. Laura Cole, Osceola Co., Mich., May 28, 1931.

Coleus. Dear Mr. Park: I am very much pleased with the Coleus seeds. Almost every seed grew, and the plants have such splendid colors and markings. Miss Eva G. Holden, Rock Co., Wis., June 9, 1931.

Phlox, Zinnias. Dear Mr. Park: I never saw such lovely colors in Phlox as I had from your seeds; and I may say the same of the Zinnias. They were all beautiful. M. M. Hewland, Hennepin Co., Minn., Oct. 5, 1931.

Balsams. Dear Mr. Park: I wish to tell you that the Double Balsams purchased of you last year were wonderful, so double, and of almost every color. I supplied the village with plants. Mrs. Anna Fares, Albany Co., N. Y.

Asters, Pansies. Dear Mr. Park: I had lovely flowers from your seeds last year. The Asters and Pansies were the finest in this part of the country. Miss Annie H. Brown, Orleans Co., Vt., March 15, 1931.

Pentstemon. Dear Mr. Park: The seeds I got from you last year were wonderful, and I was so delighted with the Pentstemons. They were prettier than Gloxinias. Mrs. C. W. Ackerman, Webster Co., Iowa, March 9, 1931.

LINARIA Cymbalaria, 1 o v e l y creeping plants of surpassing beauty for hanging baskets, bracket pots, or for covering a Gladiolus or Rose bed; hardy perennial, thriving in sun or in dens shade; does well in a sunless window or beneath trees, covering the ground with a carpet of blooming green where nothing else will grow.

LUPINUS Kelway's Hardy Hybrids 4 ft. Finest mixed colors.

MYOSOTIS Alpestris Multiflora Blue bouquet, a fine novelty, the plants compact and free-blooming; rich indigo blue in big clusters.

NEMESIA Blue Gem, 1 ft. plants compact and covered with a profusion of exquisite blue clusters; splendid for beds.

NIEREMBERGIA Frutescens, 1 ft. Hardy perennial bearing freely cup-shaped blue flowers freely and continuously; treat as an annual far north. A good thing, beautiful and of easy culture.

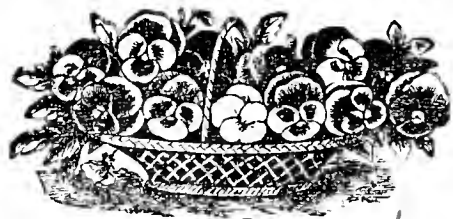

ORIENTAL POPPY Barr's White, Same as Perry's White, but considered an improvement. I am pleased to offer this seed, as seeds of good Oriental Poppy are scarce and hard to obtain. This year I have a good supply of the new crop direct from Mr. Barr of England.

ORIENTAL POPPY, Kelway's new double flowered, a surprise! six inches across, and of the usual colors. A real novelty.

ORIENTAL POPPY, The Feltham, 2 ft. Watkin and Simpson's new poppy, lacking black blotches on petals; mixed shade.

OSTROWCKIA Magnifica, 4 ft. The rare giant Bellflower; big plants, big flowers and the color lovely azure blue. A rare perennial.

PANSY Compact Bedding; plants

that become a sheet of exquisite fragrant flowers in a rich medley of lovely colors and variegations. Always greatly admired. 1-16 oz. 15 cts.

POLYANTHUS Elatior, Kelway's perfect model, the most beautiful and showy of spring flowers.

This strain is unsurpassed. Any flower bearing Kelway's name is always the best.

POPPY Begonia-Flowered, new, the finest of hardy annuals; frilled petals, full-double, like a fine Begonia; pink, salmon, rose. Start early; easily transplanted. A Kelway novelty.

RICINUS, New Scarlet, the finest Ricinus; 8 ft. A magnificent plant with huge bronzy leaves and flaming pyramidal seed clusters; beautiful.

SALVIA Harbinger, 1 ft. new; earliest of Salvias; compact plants that are a glorious sheet of bloom till frost.

SCABIOSA New Peach-blossom, 2 ft. Big peach-pink double flowers on long stems; an exquisite bouquet flower.

SCABIOSA New Shasta, 2 ft. Giant pure white flowers on long stems; fine for cutting.

SIDALCEA, Stark's Hybrids, 3 ft. Hardy. Easily grown; pretty foliage, spikes of showy flowers;

TROLLIUS Ledebouri, 2 ft. New hardy; flowers golden. 4 inches

URSINIA Anethoides, 1 ft. New, from S. Africa; flowers aster-like, deep orange richly marked red; fine for cutting.

VENIDIUM Fastuosum, 3 ft. New pretty foliage; flowers 3 inches across, vivid orange, crimson zone.

VERBENA Mammoth Golden Queen a superb novelty; flowers clear golden yellow in big clusters; everblooming; fine for beds.

VICCARIA, New Compact, 1 ft. Very rich annuals for beds; intense rose, scarlet, white and Delphinium blue mixed.

WALLFLOWER Improved Vulcan 1 ft. The finest Wallflower; huge blooms in giant clusters; brilliant red.

WALLFLOWER Mascot, like Vulcan Improved but of a clear golden color.

ZINNIA Early Wonder, Kelway's new early-flowering; first of a new race; all stems start from the ground, no laterals; cherry, salmon, pink, separate or mixed.

ZINNIA Pumila Picotee Delight, Bodgers new salmon, rose, very full-double, every petal curled and distinctly margined.

ZINNIA Super-Giant Dahlia-Flowered, Gold medal seeds direct from Bodgers new-crop, embracing all the new shades up to date. Separate or mixed.

Wallflower, Pansies. Dear Mr. Park: I planted Wallflower seeds from you and now have lovely flowers. I also got a packet of Swiss Giant Pansies and have 32 fine plants, all of which grew and bloomed. I was delighted with them. Mrs. L. C. Cargile, Miller Co., Ark., July 25, 1931.

Cyclamen, Iris. Dear Mr. Park: I got so many plants from the 3 packets better? Climbing Marigolds. Dear Mr. Park: I must tell you that from my packet of Climbing Marigolds, 15 seeds, I have 15 nice plants. Can anyone do any of Cyclamen seeds that I had to give some away to get rid of them, as I did not need so many. Every seed of Japanese Iris came up. P. M. Wall, Dickinson, Ia.

Regina C. Grindler, Frederick Co., Md., Apr. 3, 1931.

Benary's Super-giant Fringed Petunia

The Largest and Finest Double Petunia Known

This is the last word in Double Petunias. The flowers are of enormous size and marvelous beauty, each bloom a prodigious feather-ball, rich in color and deliciously scented. This surpassing strain has been developed by years of careful selection, hybridization and culture, and is truly a "Triumph of the Giants" in huge Double Petunias. Mr. Benary is a specialist in Petunias, and this is his latest and best. It is simply a world-beater, and stands unrivalled. If you want something of surpassing beauty get these Super-giant Petunias. New-crop seeds, which I received, direct from Mr. Benary. 20 seeds 5cts., 100 seeds 20cts.

Superbissima, Ruffled Giant, Tigred Throat

If I were limited to one Annual with which to decorate my home I would choose Petunias. Plants start readily from seeds, endure moisture, drought, hot sun, cold and neglect better than any other flower, and produce a wealth of big fragrant, rich-colored flowers from Spring until frozen. Fine for pots in winter.

The seeds I offer of Giant Single and Double Petunias are from Benary and Kelway, noted specialists. When in Europe I visited Benary's and was surprised to see 50,000 potted Petunias on "stair-steps" under open sheds, and especially at the huge size of the flowers and odd and beautiful colors and variegations. I had never seen such Petunias before. All of Benary's fine Petunia seeds are saved from artificially fecundated blooms, and are absolutely dependable. The same may be said of Kelway's.

Alba, large white flowers with yellowish throat, fine.
Dark Copper Red, new splendid analine-red, perfect.
Fimbriata, tyrian rose, flowers fringed, superb variety.
German Empress, bluish white, veined violet blue.
Miranda, carmine, scarlet throat, waved and frilled.
Prince Wurtemberg, dark crimson with black throat.

Princess Wurtemberg, pink, veined purple, gorgeous.
Quadricolor, pink, veined purple, yellow markings.
Yellow Throated, purple, rose and white, yellow throat.
Semi-Dwarf, fringed, new, splendid, mixed colors.
Benary's or Kelway's Prize Mixture, Single, 100 seeds 5c.
Benary's or Kelway's Giant Double 30 seeds 5cts.

Complete Special Mixture of the above Superbissima, Ruffled Giant Petunias, packet of 75 seeds, 5cts.

A FEW HELPFUL SUGGESTIONS

For Beds and Pots Vinca Rosea is a beautiful plant for either beds or pots. The foliage is always bright and clean, and the pretty phlox-like flowers are freely and continuously produced. Started from seeds early the plants are a mass of rich bloom from June till cut down by frost, and if grown in pots they are effective blooming plants for the window during winter. The seeds germinate readily in a temperature of 75 degrees, and the plants are always healthy and free from insects. In Florida they are perennial, and grow in poor sandy soil and in the most sunny exposure. They grow a foot high and the colors are white and shades of pink. Everyone who grows flowers should have Vinca Rosea. It is an indispensable.

Nemophila. One of the pretty little hardy annuals of easy culture and showy in beds is Nemophila, a flower of which is represented in the little engraving. Sow the seeds in the fall or early spring and you will have a fine display early in summer. The plants form rather dense clumps covered with lovely flowers of various handsome colors, some distinctly marked and spotted. Sow thinly in rows 4in. apart and thin to 4in. apart in the rows, and the bed will be a source of much admiration and praise when in bloom.

Flame Flower. Viscaria Cardinalis is a splendid showy flower when grown in a mass. The plants grow a foot high and become a sheet of beautiful rich scarlet, receiving the admiration and praise of all who pass. Sow the seeds where the plants are to bloom and thin to 5in. apart. Viscaria oculata, in blue, pink, white and red is equally beautiful. Separate or mixed.

Shamrock. This is simply a variety of Dutch White Clover with bronzy-red foliage. It is a hardy perennial, attractive in a bed and always admired.

Hybrid Lupins. The new Hybrid Perennial Lupins develop long spikes of pea-like bloom of all colors from white to rich scarlet, and cream to deep golden orange. These spikes are on long leafy stems and exquisite for cutting. They are wonderfully showy in beds and very profitable for the florists.

5 Cent Packets. The low price does not mean few seeds. The packets are well-filled, and my seeds are all new, vital and of the best quality. A trial will attest these statements.

Double Gaillardia. Do not omit Gaillardia Lorenziana from your order if you do not already have it. Plants are as easily grown as Zinnias, begin to bloom early in summer, and are simply a mass of beautiful double flowers until the ground freezes. They grow 18in. high, branch, and become bushy and every branch issues a number of showy long-stemmed flowers in cream, yellow, rose and red as well as handsomely variegated. The flowers are showy in beds and fine for cutting. They are truly everblooming, and if freely cut the bloom will be more abundant. Young plants endure the winter in a mild climate, and bloom liberally and continuously the next season. Separate colors or all mixed.

Plant Lice. To keep lice from your plants place chopped tobacco stems over the soil. Such plants as Cineraria and Calceolaria are especially subject to lice and should have the stems applied before the pests have time to appear. The tobacco stems are obtainable at any cigar factory. Where Sweet Peas are subject to lice weave some stems into the wire support, as well as placing some around the plants. The tobacco acts as a fertilizer as well as an insecticide. Tobacco is valuable for this purpose. For human use it is an expensive, nasty and abominable nuisance.

Ricinus. Ricinus or Castor Bean should be more popular. It starts readily from seeds, grows rapidly, and the large leaves and seed clusters are very attractive. Some kinds grow 12ft. high; some have bronze-colored leaves, others green lacinated leaves. They form deep roots and withstand a drought that would kill many plants. The new scarlet-clustered sort is exceedingly showy.

Ipomoea Scarletina. Dear Mr. Park: Ipomoea scarletina is lovely, a veritable shower of scarlet. It is the same vine I saw and admired in Cuba. Miss Jaunita Kirksey, Dade Co., Fla., Nov. 20, 1913.

Germination. Years ago brought a cluster of Price Berries from Bohemia, and planted the seed in a labeled row in the garden. The next spring I looked in vain for the plants but found none. The bed was not disturbed, and I expected to see plants the second spring, but none appeared. I still left the bed undisturbed and looked for plants the third spring but was disappointed. But the fourth spring I found the little plants thick in the row, and I secured some fine plants eventually Viola odorata, Primula acaulis, Adlumia cirrhosa, Dictamnus fraxinella, Trollius Europaeus, and many other perennials are tardy, most of the seeds lying dormant for a year or more. Verbena, Grape and a host of the shrubs and trees are tardy. So I would advise my friends to not be impatient when such seeds are sown. It is also well to sow most seeds in the spring for best results. Often in summer the sun is too hot and the atmosphere and soil too dry for the best results.

Torenia. One of the good things is Torenia Fournieri

Speciosa, the giant-flowered variety. Plants are readily grown from seeds, quickly come in bloom, and soon form dense bushes entirely covered with showy flowers, which, at a distance resembles Pansies, and at the South can be grown in summer instead of Pansies, which will not endure the hot sun. Seeds may be started in a box or hot bed early and transplant to a bed when danger of frost is past; setting the plants 8 or 9in. apart. They will thrive in sun or shade, and in almost any soil. They are fine pot plants, being symmetrical, compact, and free-blooming. Don't fail to add Torenia to your order. It is sure to please.

The Vilmorin Primroses. The Vilmorin Improved Star Primroses surpass the Giant Fringed Chinese Primroses for ordinary window culture. The flowers are not so large, but are produced in large trusses and are more free-blooming and of easier culture from seeds. The flowers are of all the fine colors, and the plants begin blooming early and keep up the display for months. A windowful of these splendid Primroses in full bloom is a glorious sight and never fails to elicit enthusiastic admiration and praise. Colors: Pure White, Light Blue, Dark Blue, Bright Red, Rose with Pink Flakes, Blood Red, Cream-pink, Carmine, Fiery Red or all in complete mixture.

Watering Window Plants. All window plants should be watered discretely. Cacti and most succulents that thrive in sandy soil should be watered sparingly. Balsams, Mesembrianthemums, Sedums and Sempervivums require but little water. In cold weather always apply water that is milk-warm or a little warmer. Never use cold water for your plants in winter; it is injurious.

For a Buttonhole. The most lasting and handsome of buttonhole flowers is Centaurea Cyanus, especially the double Emperor William variety. It is said to have received its name from the fact that it was a favorite of the old German Emperor. The seeds may be sown in spring or fall and the plants bloom freely and for a long time during the summer. Emperor William is a lovely shade of blue, very attractive in large bunches. Other colors are also beautiful and admirable for bouquets or for the garden beds. See page 8.

Viola Papilio. Here is a beautiful blue and white hardy Violet that blooms from early spring until winter. Seedlings are easily raised, and will bloom in three months. It thrives in partial shade and is a fine rock plant. It blooms freely and continuously, especially if the fading flowers are picked off.

SOME FLORAL NOTES

The Monkey Flower. The various kinds of *Mimulus* bear flowers peculiar in shape, and are known as Monkey Flowers. They are really handsome easily grown plants for pots or shady places in the rockery. They are considered perennials under favorable conditions, but as the seeds start readily they are generally grown as annuals. The flowers are mostly yellow or cream with red spots, and some are red or scarlet. Queen's Prize is the largest-flowered, is single and very attractive; *Imperialis* is much like it, but a proportion of the plants produce duplex flowers. *Mimulus Cardinalis* is a hardy sort with scarlet flowers; *Moschatus* has small golden flowers that are deliciously musk-scented; *Luteus* is a species with yellow flowers from which the hybrids have been obtained that are now in general cultivation. The illustration is of a blooming branch of the hybrid called *Tigrinus*. The plants grow 9in. high, and thrive in sandy loam or moist shade. Each variety separate or mixed. Page 12.

A Beautiful Vine. A very beautiful, free-blooming and continuous-blooming vine that can be grown well at the North as well as the South is *Antigonon leptopus*. The seeds are large and germinate well, and the vine grows thriftily in any sunny location, attaining the height of 20 feet, and becoming a mass of lovely carmine clusters, claiming the admiration and praise of every beholder. The little illustration here given affords but a faint idea of its grace and beauty. The plant will not stand frost, however, so the roots must be well protected at the North either by lifting and keeping in a frost-proof room or cellar, or by a cover that will keep out frost. It likes a sandy, well-drained soil and does not mind the hot sun. Once you have a blooming vine you will not want to be without it. Only 5cts.

For Shade: White and Pink *Achillea Millefolium*, *Digitalis* or Foxglove, Perennial Asters, *Aquilegia* or Columbine, *Campanula Pyramidalis*, *Browallia Elata*, *Lobelia Cardinalis*, *Mimulus* or Monkey Flower, *Torenia*s, Pansies, Violets, *Nierembergia*s, *Funkia*s, *Hemerocallis*, Balsams, *Caladium*s, *Coboea Scandens* and *Linaria*s.

Rivina. Belonging to the Poke-berry Family we have a little plant called *Rivina Humilis* which is of the easiest culture, always in bloom and bearing long racemes of rich scarlet berries. As a pot plant it grows 2 feet high, branches, and bears its flowers and berries freely, making quite an admirable show in the winter window when foliage and flowers are scarce. The common name is Bloodberry, and is one of the few plants that anyone can grow successfully, as it will thrive and appear well under very adverse conditions. A new variety with golden berries is offered among "Additional Window-garden Seeds," which see. The illustration well represents a plant. 5cts.

Pokeberry. *Rivina*'s near relative, the Pokeberry, regarded by many as a weed, is not without merit. A well developed clump is 8ft. high and a mass of rich green decorated with big racemes of white flowers and red berries. Then in Autumn the foliage turns to rich carmine, and the stalks to glowing scarlet, remaining so till winter. When not encroaching I let all Pokeberry plants grow, not only because I admire them but to provide food for my little feathered friends that nest among the shrubs and trees in my gardens and grounds. The berries are picked by the birds as fast as they ripen, no matter how many clumps are fruiting. See *Phytolacca*, page 29.

Nierembergias. Have you ever grown *Nierembergia*? If not you have a surprise and a delight coming. *N. Frutescens* is a grand bedding plant. It owes more than a foot high, branches freely, each slender branch bearing a host of lovely lilac flowers an inch across; and what is more, the flowers are freely borne from spring till the Autumn frosts appear. It is a hardy perennial in the south, but needs protection at the north. *Nierembergia Gracilis*, a companion, grows 1ft. high, the slender stems bending over with the mass of exquisite flowers, cup-like, and a pleasing shade of blue shaded to white at the margin. This is well named *Gracilis*, being graceful when grown in bracket pots or hanging baskets. Both of these splendid flowers are easily grown from seeds and are exceedingly beautiful. They deserve general cultivation.

For Winter Bloom. The best window plants for winter flowers are *Abutilons*, *Agathaeas*, *Begonia Gracilis*, *Cinerarias*, *Calceolarias*, *Margaret Carnations*, *Primula Sinensis*, *Primula Malacoides*, *Primula Obconica*, *Thunbergia Alata*, *Hyacinths*, *Freesias*, *Stocks* and *Wallflowers*. Start these from seeds during summer and autumn (except *Hyacinths*) starting them in small pots and shifting into larger pots until in 4in. pots, in which they may be allowed to bloom. Stir the surface soil and apply weak liquid fertilizer occasionally.

The Balloon Vine. A very pretty modest little vine (see engraving) is known as Balloon Vine because of its balloon-like inflated capsules. The seeds are as large as small peas, germinate quickly, and the plants soon begin to develop the lovely little balloons, which are preceded by clusters of small white flowers. The foliage is a pleasing apple green, every leaf deeply lacinated and the densely clothed running stems cover a trellis 6 or 8ft. high, which becomes an object of admiration. The Scientific name is *Cardiospermum (Heart-seed) halicacabum*. It well deserves a place as a

decorative vine. Another species, *C. Hirsutum*, from Africa, has larger flowers and longer capsules, and the stems are hairy and of somewhat creeping habit. It is rare but hardly more desirable than the well known Balloon Vine. See page 20.

From California. Dear Mr. Park: Our climate here is cool and damp most of the year. Our summers are never hot. Plants that like hot weather do not do well here. Dahlias do well and my *Calceolarias* are wonderful. One bush has been in almost full bloom since last March. It is of the small flowering kind. My *Carnations* from your seeds have flowered since last Spring, and are still full of blossoms. Eureka is on the Redwood Highway, and our Redwoods are beautiful. In certain parts we have wonderful *Rhododendrons*, some 15ft. tall, and in May they are covered with bloom. Our wild Redwood Ferns are grand. Mrs. F. W. Anderson, Eureka, Cal., Oct. 29.

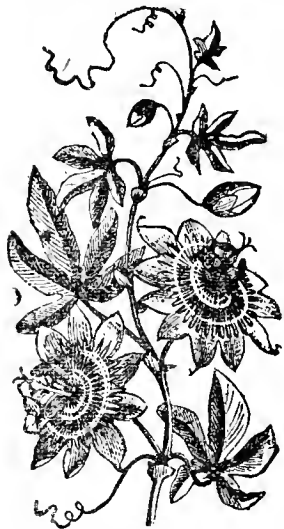

Note. The *Calceolaria* referred to is probably *Calceolaria Clibrani* profusa. It is a magnificent perennial sort bearing small golden flowers in marvelous profusion. It is a garden plant in mild climates, but a fine everblooming pot plant North. It is new and beautiful, and should be better known.

Bodger's Giant Zinnias. One of the most beautiful and easily grown annuals is the Zinnia. When I began to grow flowers only the single-flowered red varieties were known, but they were prized for their beauty and color display in beds. Later Mr. Bodger of California began to pay special attention to Zinnias, and to-day we have the results of his labor in the Giant Dahlia-flowered strain the flowers perfectly double, from 5 to 8 in. in diameter, and of all colors from pure white to

dark red, and cream to gold and orange. Mr. Bodger has passed to his reward but his sons have taken up the work and the improvement in flowers is continued. Often they have more than a hundred acres in Zinnias alone, and the product of their large gardens is famous the world over for superior quality. I have pleasure in offering my patrons Zinnia seeds direct from the Bodgers, and I know they will give surprising results, for there are none better. I have all the colors and can supply the seeds either separate or mixed at 5cts. a packet. Don't fail to grow some of Bodgers unrivalled Zinnias this season. They are surpassingly beautiful.

Passion Vine. A very beautiful native vine is *Passiflora coerulea*, which grows and blooms freely in old fields in the south. There it is a hardy perennial, but at the north it must be grown as an annual, or the roots protected from severe frost. The exquisite blue flowers and pretty foliage are represented in the accompanying illustration. The seeds start readily and the plants grow from six to ten feet high when given support. In the fields they creep and bloom over the ground. The flowers are not only large and showy but of peculiar formation, and never fail to excite the attention and admiration of those who see them. The flowers are succeeded by edible seed-fruits somewhat larger than a hen-egg. These become very fragrant when ripe.

Rock Plants. On another page I have briefly described a fine lot of plants for the Rockery. Consult that list. The seeds offered are all fresh, and if care is taken in sowing and caring for the young plants there need be no complaint about securing enough appropriate plants. A little folder telling how to make and manage the Rockery will be mailed with the seeds upon request. The seeds are all of the best quality as well as vitality and any variety will cost you but 5cts. a packet. Tell your friends and get up a club.

Canary-bird Flower. This is a rare but easily-grown vine reaching 15ft. It has pretty smooth foliage and in Autumn is covered with a profusion of small but beautiful yellow flowers having the fancied resemblance to a canary bird, hence its common name. Botanically it is known as *Tropaeolum Peregrinum* and is a near relative of the Nasturtium. The seeds are large and start readily, and the plants are of rapid growth and beautiful when trained upon a trellis. Packet 5cts. See page 20. The little engraving illustrates a spray of lovely bloom. Don't omit this when you order.

Mette's Giant Pentstemon. These greatly improved

Pentstemons are not unlike a *Gloxinia* in form and size, and are produced in many colors and variegations. Mrs. Ackerman, a patron from Iowa writes. "The seeds I got from you were wonderful, and I was so delighted with all of them. The Giant Pentstemons were prettier than *Gloxinias*".

Started early in Spring these Pentstemons will bloom freely throughout Autumn and are glorious in beds. I wish every patron

could give this fine flower a trial. Being perennial the plants live from year to year in a mild climate.

A Gold Border or Edging. Mette's New Carpet of Gold *Pyrethrum* grows 8 in. high and forms a literal carpet of gold; the plants are compact, the foliage rich golden yellow, being a great improvement on the old Aureum sort. Easily grown and quickly forms a bed, border or edging.

Centaurea Montana. This is a very handsome hardy perennial that when once established will take care of itself. The plants grow 2 ft. in height and during spring and early summer produce numerous large heads of bloom, blue in color and somewhat fluffy, the florets being deeply lacinated. There are white and rose varieties, but the blue is the most popular. The engraving represents a blooming plant. See page 24. Packet 5cts.

For a Basket. For a beautiful hanging basket or bracket pot get *Linaria Cymbalaria*. The plants are easily grown from seeds, and the lovely sprays of foliage and bloom will soon hang gracefully over, whether in sun or dense shade. No other plant is more pleasing or handsome.

Nemesias. Perhaps the finest of *Nemesias* for general cultivation is

Blue Gem. Plants are easily grown, and the flowers, not unlike *Forget-me-nots*, are freely and continuously produced. They are fine for edgings, and also for pots. *White Gem* is also good. These hybrids do not have as large flowers as *Nemesia Strumosa*, but more abundant.

They should be a "must have". Separate or mixed. Page 13.

Flies. Sometimes little black and white flies appear about the plants. When these are found let the soil in the pots dry until the foliage begins to droop, then apply some fresh slaked lime to the soil, about a tablespoonful to each plant, and water thoroughly with water somewhat hotter than the hand will bear. Apply the water until it issues freely from the drainage hole at the bottom of the pot. Then let soil dry again and repeat the water treatment. As a rule the flies appear where the soil is sour, because of keeping it too wet. The lime sweetens the soil, afterwards apply water moderately.

PARKS' CHOICE Dependable Flower Seeds

Part 1: Garden Flowers Blooming the First Season.

ANTIRRHINUM, Finest Giant Fragrant Kinds

Complete Special Mixture of these superb Snapdragons, 5 cts.

THE new Giant Fragrant ANTIRRHINUMS or SNAPDRAGONS we offer will be a revelation to many of our friends. The flowers, disposed in big spikes, are of great size, and display the richest and most novel colors and variegations. The plants are glorious in either beds or pots, and are easily started. We highly recommend our Snapdragons.

Finest varieties of Giant-fl'wd Tall Snapdragons

Brilliant Rose, a rich color.
Canary Bird, canary yellow.
Cardinal, brilliant scarlet.
Cattleya, rosy lilac.
Golden Queen, rich golden yellow.
Gotelind, copper, rose throat.
Maralda, copper-carmine.
Purple King, velvety dark purple
Ruby, pure ruby color.
Snowflake, lovely pure white.
The Rose Improved, exceptionally large fls; salmon-rose with golden yellow center; very choice.
Pure Rose, large, distinct, fine.

All Giant-flowered Tall Sorts in our superb mixture. 5 cts.

Finest varieties of Giant fl'wd Semi-dw'f Snapdragons

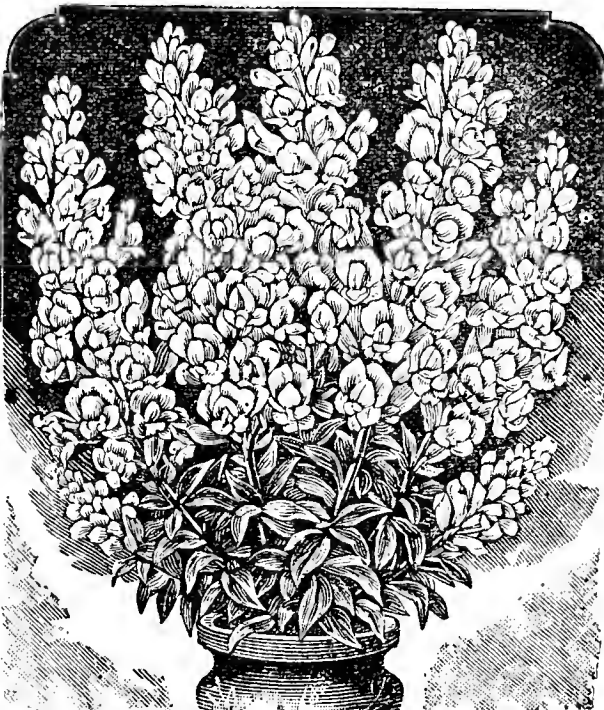

Albino, delicate shades, flushed.
Bonnie Lass, rose, white throat.
Bright Rose, charming pure rose.
Carmine Queen, rich rose-carmine
Golden Monarch, golden yellow.
Madonna, fine, large-fl'wd white; good compact habit; exquisite.
Maize Queen, salmon, yellow lip.
Matchless, bright buff, gold cent'r.
Mauve Beauty, lovely rosy-mauve
Pink and Terra-cotta Shades, a new class of art shades.
Scarlet King, large glowing scarlet
The Bride, pure white, fine to cut.

Fine Special Mixture of these Superb Semi-dwarf varieties, many of which have been given an Award of Merit by the Royal Hort. Society of England.

Tom Thumb. These Snapdragons form little bushes 6 inches high literally smothered with bright bloom. Fine for either beds or pots.
Colors: White, Rose, Orange, Striped, Vermilion, sep. or mixed.

Benary's New Double, direct from Mr. Benary, including white, rose, yellow, variegated, etc. in mixture only.

Picturatum, a beautiful variegated class showing art shades and vivid colors in pleasing mixture.

Giant Spikes of Semi-dwarf Snapdragon

ABRONIA umbellata, 1ft. Sand Verbena, beautiful, big, vivid rosy-pink umbels. Thrives in a sandy, sunny bed.

ADONIS aestivalis, 1ft, deep red, flat petals, opening wide.

Autumnalis, 18in. bushy; fls small, red, concave petals.

Ageratum. Ever-blooming annuals, fine for beds, edgings and pots; easily grown; like good soil and a sunny situation. The lovely blue and white clusters literally cover the plants throughout the season; very beautiful plants.

Conspicuum, 4ft. white clusters; **Lasseauxii**, 1ft. mauve; both fine for cutting; both can be grown in pots in greenhouse.

Little Dorritt, 6in. Azure blue; also White, both fine.

Imperial Dwarf, 8in. Blue; also White, splendid bedders.

Swanley Blue, 1ft. large, charming; also **Blue Perfection**.

Little Blue Star, 4in. compact; numerous small blue fls.

Mauve Beauty, 6in. compact, large mauve fls; splendid.

Victoria, 6in. light blue with white center; beautiful.

Mexicanum, 2ft. Blue; also White; fine for beds.

Blue Bell, new, the best true blue **Ageratum**; beautiful.

Complete Special Mixture of the above **Ageratums**, 5 cts.

AMARANTHUS, very ornamental, easily grown plants for foliage and flowers. We have the finest kinds, separate or mixed. A mixture affords a great variety, and is a source of wonder and pleasure.

Abyssinicus, 5 ft. red, fine.

Amabilis, 3ft. rose, gold, fiery red.

Bicolor ruber, 3ft. rich scarlet.

Coleifolius, new, Firebrand.

Cruentus, Prince's Feather, red.

Love Lies Bleeding, red, select.

Melancholicus ruber, fine red.

Monstrosus, 3ft. dark blood red.

Salicifolius, 2ft. tops deep red.

Tricolor, Joseph's Coat, Improved.

Aurora, 3ft. red, yellow, green with vivid carmine head.

Gigantea, 6ft. rich colors; fine.

Complete Special Mixture of **Amaranthus**, 5 cts.

Note. Our seeds of **Love Lies Bleeding** were saved from Special Stock, producing extra long drooping red clusters.

Love Lies Bleeding

ETHIONEMA Buxbaumii, 6in. red, in racemes, pretty, profuse.
AGROSTEMMA cœli-rosa Kermesina, 1ft. grown in masses this is a showy and beautiful annual; known as **Rose of Heaven**; rich crimson; free-blooming.

Cœli-rosa, Mixed; all the fine colors in superb mixture.

ALONSOA, 1ft. to 2ft. beautiful, free- and continuous-blooming plants for beds or pots; easily grown, and should be better known. We offer the following superb kinds:

Albiflora, white; **Grandiflora**, vermilion; **Chamois**; **Limifolia**, scarlet; **Linifolia gracilis**, charming; **Mutisi**, rose with scarlet center; **Myrtifolia**, large scarlet; **Warszewiczii compacta**, brilliant red, for pots. These sorts in Complete Mixture, 5c.

ALTHEA semperflorens, 6ft. Annual Double Hollyhock, blooming first season. Plain Double in splendid mixture, 5c. Fringed Double in splendid mixture, 5 cts. Plain and Fringed Double Mixed, 5 c. Our seeds are of finest quality.

ALYSSUM, Sweet, 6in. everblooming annuals well adapted for beds or borders, blooming continuously throughout the season. Fine also for pots. Common White, 1-4 oz. 10c. Little Gem, white; **Lutescens**, yellowish; **Carpet of Snow**, white; **Lilac Queen**, lilac; **Minimum**, select white; **Little Dorritt**, white; **Procumbens**, creeping, white.

Note. Sweet Alyssum is one of our most beautiful and desirable annuals. You can hardly "keep house" without it. Don't fail to get a packet or two of our improved kinds.

AMBERBOA muricata rosea, 2ft. pink; fine for cutting.

AMBROSIA mexicana, 2ft. pretty fragrant fern-like foliage.

ANAGALLIS, Pimpernel, 1ft. charming dwarf annuals for pots, beds and edgings. We offer **Scarlet**, **Flesh**, and **Blue**, separate or in fine special mixture of all colors.

ANCHUSA Capensis, 2ft. azure blue fls in clusters, similar to **For-get-me-not**; showy in a bed or border; good to cut.

Afinis, 4ft. azure blue; attractive and handsome.

Sempervirens, 3ft. light blue; very beautiful.

Barrelieri, 3ft. dark blue; **Dropmore**, 4ft. large, pure gentian-blue, fine for cutting. See page 22.

ANGELONIA grandiflora, 3ft. lilac, tigred throat, fragrant.

ANTHEMIS Kelwayi, 2ft. splendid golden yellow; fine to cut. **Kelwayi White**, like the preceding but white flowers.

Nobilis, 13in. spreading, white; for beds and for cutting.

Tinctoria, **Golden Marguerite**, 2ft. fine for beds and cutting.

ASTER, Double, Finest Strains

THE Double Asters are among the most beautiful and easily-grown of Garden Annuals, and should be found at every flower-loving home. The plants start in from 3 to 5 days, branch freely, and in autumn become globular masses of showy flowers of many rich colors and variegations. They are of three distinct forms, as Paeony-flowered, with incurved petals; Victoria, with recurved, imbricated petals; Chrysanthemum-flowered or Plume-flowered, with twisted, disheveled petals. Some kinds are small, button-like, appearing in great profusion, while others are as large and showy as a large Chrysanthemum. Some, as the Chrysanthemum-flowered dwarf, grow a foot high, and are well adapted for showy beds, while some grow 3ft. high, bearing enormous double flowers on leafy stems 2ft. long, and are especially adapted for cutting. I have all of the best kinds in the leading colors, and my seeds are of the new crop, and saved by the best growers in California, Germany, France, England and Holland. There are no better seeds to be found elsewhere in the world, and a trial will attest the truth of this statement.

Complete special mixture, packet of 100 seeds 5cts., 1-32oz. 15cts.

Kelway's New Decoration Aster

I want to especially recommend this beautiful new Aster. In my opinion it is the most exquisite in form of all the known Asters, while in size and rich colors it is unexcelled. The flowers are full-double, the petals long and graceful, the inner ones being slightly incurved and twisted. The plants grow 3ft. high, branch, and the huge double flowers are borne at the summit of strong leafy stems 2ft. long. For a showy clump or bed, or for cutting this Aster can hardly be equaled. I offer new-crop seeds of the following varieties direct from Kelway, the introducer. Packet of 70 seeds 5cts., 1-32oz. 20ct.

Ballet Girl, lovely carmine. Folk Dance, pleasing azure. Nymph, lavender. Rosita, bright rose. Venus, flesh pink. Festival, purple. Meteor, rich crimson. Furity, giant pure white. Somerset Belle, peach. Separate or mixed.

Kelway's New Development. This is one of the finest Asters, 2ft. high, the flowers borne on long stems, huge in size, very double, fluffy, and not unlike a Japanese Chrysanthemum. Very effective in beds and charming for room decoration. Colors: White, Crimson, Rose, Lavender, Purple, Shell Pink, Lavender Pink, Azure Blue, separate or mixed, packet of 100 seeds 5cts., 1-32oz. 15cts.

Kelway's Giant Branching. The largest and most beautiful of the Branching Asters. Plants 3ft., branching into stems 2ft. long, each bearing a huge full-double flower from 4 to 6in. in diameter. Splendid for either beds or for cutting. Snow Storm, pure white; Splendens, charming pink; Sensation, light blue; Superb, pleasing purple; Sparkle, rich crimson. Separate or mixed, packet of 70 seeds 5c., 1-32oz. 20c.

New Mammoth, Benary Improved. Said to be the largest Aster in cultivation, the large fluffy blooms measuring up to 8in. across, borne on long, leafy stems, 3ft. high. My seeds are direct from Mr. Benary. Fine for beds or cutting. Colors: White, Sulphur, Azure, Dark Blue, Carmine, Peach Blossom, Bright Rose, Rosy Lilac, Salmon Rose, Crimson, White and rose, Flesh, separate or mixed. Pkt. of 100 seeds 5c., 1-32oz. 15c.

Paeony-flowered Perfection, 2ft. A beautiful large Aster with charmingly incurved petals. One of the oldest, but one of the best. Desirable for beds as well as for cutting. Colors: White, Red edged white, Old Rose, Light Blue, Deep Purple, Bishop's Violet, Amaranth, Rose, Snow White, Rose and white, Sunlight Yellow, separate or mixed. Packet of 100 seeds 5cts., 1-32oz. 15cts.

Kelway's Victoria Giant, 2ft. One of the most showy and massive of Asters, petals charmingly imbricated. I offer only the improved large-flowered Victoria, glorious in beds and fine for cutting. Colors: White, Peach, Crimson, Fiery Scarlet, Light Blue, Dark Blue, Violet, separate or mixed. Packet of 70 seeds 5cts., 1-32oz. 20cts.

Queen of the Market, 18in. The earliest double Aster, large, well-formed, showy in beds and fine for cutting. Colors: White, Crimson, Dark Blue, Light Blue, Deep Lilac, Rose, Bright Rose, Scarlet, Carmine, separate or mixed. Pkt. 100 seeds, 5cts., 1-16oz. 15cts.

Other Semi-dwarf Asters. Extra Early Hohenzollern mixed, Paeony-flowered Globe mixed, Dwarf Comet, Record Ray, Comet Express.

ANEMONE, St. Bridgid, Kelway's superb very beautiful Langport Strain; large fls., semi-double, rich colors, mixed.

★ **ARCTOTIS brevicaula, 6in.** a splendid plant for beds.

Grandis, African Lilac Daisy, 2ft. white and lilac.

Both kinds in fine mixture, 5 cts.

APGEMONE, Do ble White, 2ft. new, large-flwd, beautiful.

Grandiflora, fine new hybrids, superb mixed colors.

Platyceas, 3ft. prickly; fls large, poppy-like, handsome.

ARNERIA cornuta, 2ft. pretty golden fls spotted brown.

Cocardeau, 2ft.

A race of very beautiful Double Asters, the fine double flowers of various lovely colors with a distinct pure white center, as shown in the engraving. Fine for beds, pots or cut flowers. Colors: Rose, Dark Crimson, Light Blue, Dark Blue, Lilac, separate or mixed. Pkt. of 60 seeds 5cts.

Globe Quilled, Kelway's Perfect Model, the finest of Quilled Asters. Nothing in existence approaches

it. The flowers are perfectly semi-globular, and up to exhibition standard. Awarded Gold Medal at Paris Exhibition. Seeds from Kelway. 5c.

California Giant, 3ft. Enormous fluffy flowers on long, strong stems, splendid for groups and beds, and unsurpassed for cutting. Seeds from Bodger. Colors: Pure White, Peach Blossom, Deep Rose, Light Blue, Deep Blue, separate or mixed. Packet of 60 to 70 seeds 5cts., 1-32oz. 15cts.

BALSAM, Double, Finest Improved

Complete Special Mixture

THE BALSAM is very desirable as a garden annual. The seeds are sure to grow and the plants bloom freely throughout the summer and winter. They like a rich deep soil and prefer partial shade though they will do well in a sunny exposure. Although splendid as garden flowers, if started in summer and grown in pots they are grand for winter blooming in the plant-window or conservatory. The flowers are surpassingly beautiful, being large, of waxy texture, show fine range of charming colors and variegations and are abundantly and continuously produced until cut down by frost. If you grow but a half dozen annuals one of them should be the Improved Double Balsams. We offer the best quality of seeds of the best varieties and are confident they will give unbounded pleasure and satisfaction. Our mixtures are specially prepared and contain all the colors in fine proportion. Try our fine Balsams.

★ Park's Prize Camellia-flowered

Special Mixture of Camellia-flowered Balsams.

The finest of all Balsams, full double not unlike the unrivalled Camellia in form and texture and substance and appear in a great diversity of exquisite colors. Our seeds of these cannot be excelled. You can depend upon them for best results. We offer the following colors: Crimson, Alba Perfecta white, Prince Bismarck brilliant salmon rose, Pure Scarlet,

Balsams in full bloom

Crepis, 1ft, pretty annuals for garden beds; of easy culture, White, Pink, Yellow, Mixed, Flowers "double"; attractive.

★DIDISCUS-The Blue Lace Flower. This truly lovely annual growing 18in. high, has become noted for its beauty in beds, and especially for bouquets and designs. The small exquisite blue flowers come in lace-like umbels, not unlike those of carrot; charming on the plant, and lasting for a week or more when cut. Its rare beauty, daintiness and grace, together with its lasting quality and adaptableness have caused a sensation among florists who grow and use cut flowers. A New York florist says "As a lasting flower it has no rival. I have had flowers on my desk lasting from eight to ten days; even the buds unfold, and its buds are the most beautiful of any I have ever seen." Plants started in early spring begin to bloom in summer and continue until frost. Set plants 12 inches apart, and to promote branching nip the top off when nine inches high. Each branch will bear a lovely cluster of the exquisite lace-like flowers. Only 5 cents a packet.

Crotalaria Juncea, 7ft, long spikes of golden flowers; showy. **Retusa**, 2ft, big spikes of yellow and brown flowers.

Note:-These lovely, showy annuals like sun, and endure drouth that would destroy many flowers. Sow in beds and thin ten inches apart.

Cryptostemma calendulaceum, 2ft. yellow, clustered at tip of branches; large, Marigold-like.

Cuphea miniata, 2ft. deep scarlet; **Purpurea**, 1ft. purplish crimson; **Silenoides**, 18in. crimson-brown; **Zimapani**, 2ft large blackish purple flowers. Separate 5cts., all mixed 5cts.

Cynoglossum coelestinum, 2ft. sky blue, very handsome. **Linifolium**, 1ft. branching; charming white blooms, profuse.

DAHLIA, Choice Single and Double.

Dahlias are among the most beautiful of garden flowers, and of the easiest culture. Seedlings are as readily raised as Zinnias, and begin to bloom almost as early.

The flowers are often quite as beautiful as the named Dahlias; sometimes new and superior.

CHOICE DOUBLE DAHLIAS

Kelways Double Show and Fancy, Gold Medal strain, saved from Kelways fine named collection, fine mixture 5cts.

Note. This is the finest known strain of Double Dahlia. Our seeds were saved by the Kelways and imported this

Crepis, 1ft, pretty annuals for garden beds; of easy culture, White, Pink, Yellow, Mixed, Flowers "double"; attractive.

★DIDISCUS-The Blue Lace Flower. This truly lovely annual growing 18in. high, has become noted for its beauty in beds, and especially for bouquets and designs. The small exquisite blue flowers come in lace-like umbels, not unlike those of carrot; charming on the plant, and lasting for a week or more when cut. Its rare beauty, daintiness and grace, together with its lasting quality and adaptableness have caused a sensation among florists who grow and use cut flowers. A New York florist says "As a lasting flower it has no rival. I have had flowers on my desk lasting from eight to ten days; even the buds unfold, and its buds are the most beautiful of any I have ever seen." Plants started in early spring begin to bloom in summer and continue until frost. Set plants 12 inches apart, and to promote branching nip the top off when nine inches high. Each branch will bear a lovely cluster of the exquisite lace-like flowers. Only 5 cents a packet.

Dianthus Hybrids

Complete Special Mixture of all kinds, 5 cents.

THE finest sorts of Chinese and Japan Pinks are here offered, embracing the choicest new hybrids. They start readily from seeds, soon come into bloom, and make a fine display until the ground freezes. They will then rest till spring and bloom the following season. Set eight inches apart they make showy beds, and grown in pots they bloom well on the plant stand. The flowers come in single and double form, and are fine for cutting.

★**Lucifer**, a Glorious Pink. No other Pink equals it in intense vivid orange-scarlet color, and none make such a rich, attractive display in a bed. The exquisitely fringed full double flowers are surpassingly beautiful, and are superb for cutting as well as for garden and window. Not unlike the fragrant Carnation in size and form, but far brighter in color. Don't fail to add this grand Pink to your order. 5 cts.

Gardoquia betonicoides, 2ft, purple spikes
Gaura Lindheimerii, 3ft, white, floriferous

Godetia

Separately or in Complete Mixture, 5 cts

AMONG the beautiful annuals that are popular in Europe the Godetia in many splendid varieties has a very prominent place. In beds they appear like immense sheets of exquisite color and variegation. The plants mostly grow a foot high, and are just smothered with the glorious masses of bloom. They start readily from seeds. Sow early in rows six inches apart, and thin out. We offer choice English-grown seeds of the finest single and double varieties. They will be a revelation to any unacquainted with them.

★Azaleiflora.--This grand new double Godetia is thus described by its introducer: "Azaleiflora is one of the most striking novelties we ever had the privilege of introducing. It is an absolutely Hardy Annual, as striking as a rare greenhouse plant. The flowers are rose, with a carmine blotch on each petal, and cover the plant. The plants (15in.) are of splendid bushy habit, and look exactly like a greenhouse Azalea. Highly as we prized this flower at first we think still more highly of it now. It is a flower for every garden". 5 cents.

Fine Single Godetias

★Brilliant, (see eng.) 1 ft. sm othered with large rich vivid crimson flowers with white center; very effective in beds, and fine for bouquets; the brightest and best of single-flowered Godetias. 5 cts. Aurora, new, dwarf; soft rose; charming. Gloriosa, dwarf; large, darkest blood-red.

Orchid-flowered, rose-gold.
Peacock, rare blue, white edge.

Pretiosa, red, big white border.
Prince Henry, intense blue.
Psyche, curled, marbled violet.
Purity, large pure white, fine.
Quadricolor, rich blending.
Snowflake, spotless white.
Solfatara, sulphur, blue spots.
Spencer, new frilled, mixed.
Triumph, huge flowers, mixed.
Victoria, vivid red with spots.
Vulcan, rich dark red, blotched.
These Fine Kinds separate 5c.

Complete Special Mixture of Giant Pansies first-class seeds. Packet 5cts., 1-16oz. 20cts., 1-8oz. containing 4500 seeds 35cts.

Giant Winterblooming Pansies. A race of hardier Pansies blooming two weeks earlier from seeds, and in a mild climate or in mild winters bloom continuously. The flowers are of giant size, sweet-scented and show the fine Pansy colors and markings. I offer seeds of the best quality. **Celestial Queen**, sky blue; **Charm of March**, velvety blue; **Helios**, pure golden yellow; **Jove**, purple and white; **March Beauty**, velvety purple; **Mars**, cornflower blue; **North Pole**, pure white; **Winter Sun**, golden yellow black eye, **Woden**, almost coal black. Separate or mixed, 5cts.

Dear Mr. Park: My Pansies from your seeds were very satisfactory. The plants grew well and the flowers were large, exquisitely fringed and very beautiful. Your seeds are always fine, and I can't get enough of them. Mrs. Quakenbush, Knox Co., Ohio, March 1, 1930.

Dear Mr. Park: The plants raised from your seeds are doing fine. The Roggli Pansies are in bloom now and the flowers unusual in size, and show a great range and combination of colors. I always raise many Pansies, which are much admired. Zella Scott, Monroe Co., N. Y.

Dear Mr. Park: I am sending an order for more of your choice Pansies, as the ones raised from your seeds planted last fall were so large and beautiful. Mrs. Karl Wittig, Henry Co., Mo., September 5, 1930.

Scarlet Danebrog Poppy.

Other Fine Poppies.

Mikado, dble, white striped red.
Japanese Pompon, dbl fine mix.
Cardinal, dbl, rich colors mixed.
Ranunculus-flwd, choice mix.
Ariel, d'bl salmon, black spots.

POPPIES, Bright and Showy as Paeonies.

Complete Special Mixture of all classes and colors, carefully proportioned, only 5 cents.

Poppies are old fashioned flowers, but how showy and beautiful they are! Once in the garden they mostly take care of themselves. The large double ones are as handsome as Paeonies, and quite as showy and pleasing, while the single flowers show a wonderful diversity of shades and variegations, and are always admired. In garden beds and borders they are truly gorgeous, and a few seeds scattered about the vegetable beds make bright and beautiful the vegetable garden without detriment to the growing plants. Poppies should adorn every home, and it pays to use only the improved kinds we offer.

Splendid Paeony-flowered Poppies, Broad-petaled. The Paeony-flow'd Poppies grow eighteen inches high, and are not unlike Paeonies in form and general appearance. They are exceedingly attractive, of easy growth, and very satisfactory. Colors: White, Brilliant Rose, Salmon Pink, Cochineal Red, Cardinal Red, Striped, Deep Purple, and Pansy Violet, each, 5 cents. The same in fine mixture, 5 cents.

Double-flowered Fringed, large, showy, flowers, the petals deeply fringed. Colors: White; White striped; Salmon-rose; Pink; Red on white; Scarlet striped; separate or mix.

Fine Single Poppies.

Lavigatum, deep rich scarlet.
Peacock, scarlet, black zone.
Umbrosium, glowing scarlet.
Field Poppy, English scarlet.
Danebrog, 3ft, scarlet, blotched.

Fine Shirley Poppies.

Single, 2ft, Benary's finest mix.
Lilliput, small, very profuse.
Dwarf, 1ft, salmon shades, fine.
Dwarf, fine blue shades, superb.
Ryburg, new dbl, remarkable.

Fine Nudicul Poppies.

Single New Hybrids, splendid.
Double, very beautiful, mixed.
 ★ These bloom first season; all the fine colors from white to scarlet, also striped mixed 5 cts.

★ **New Sunbeam Poppies.** Here is a new race of glorious Poppies. Plants are perennial, grow 18in. high, and bear on strong stems large showy fragrant flowers from May until October. Colors range from white to crimson, and from sulphur to glowing orange-scarlet. These new Poppies have a great future, for once introduced everybody will want them. Splendid for cutting. Award of Merit by Royal Horticultural Society. You will be delighted with these Poppies, mxd 5c.

★ **New Yellow Cardinal Poppies**, very double, light canary yellow in color; 2ft, very attractive in beds, 5cts.

★ **Shirley**, Our Shirley Poppies are of the latest improved strain, and surpass all others; none better; only 5c.

PETUNIA

Kelway's Giant

Complete Special Mixture, 5 cents.

WE consider this the finest strain of large-flowered Petunias in cultivation. The Kelways of England were years in developing it to its present unequalled quality. The seeds were saved from hybridized flowers of select pot plants, and cannot be surpassed. They will produce strong, shapely plants covered throughout the season with flowers of mammoth size, exhibiting a grand array of the most pleasing and rare colors and markings. Fine for beds, pots and vases. You will not err in getting seeds of this splendid strain. Our seeds are direct from Kelway.

Kelways Perfect Model, very large, beautifully striped, blotched, spotted.

Kelways Fringed, exquisitely crenulated, fringed, fine colors; splendid.

Kelways Royal Blue, true velvety blue; free-blooming; superb for beds.

Superbissima, Ruffled Giants, mixed. Large-throated, purple, rose and white and chrome yellow.

Complete Mixture of above sorts.

Kelways Double.

Perfect Model, carefully fecundated from finest double blooms, mixed.

Finest Fringed, full-dbl, best mixed

Brilliant Rose; Double White; both fine.

Mixture of above sorts, 20 seeds 5c.

Fine Hybrid Petunias.

Adonis, carmine, white throat.

Alba, pure white, free bloom.

Balcony, pendulous, mix. new

Belle Etoile, purple, white star

Gen. Dodds, darkest red, fine.

Inflata, new red, free bloom.

Maculata, fine spotted.

Courtenay, red, yellow throat.

Marginata, white, red margin.

Rosy Morn, pink, white eye.

Venosa, fine hues veined large

Complete mixture of hybrids 5c

Our Hybrid Petunias thrive in

hot sun and endure drouth, be-

coming a mass of bloom.

Dwarf Compact Petunias

Gloria, dazzling carmine-rose.

Multiflora, striped, mixed.

Norma, blue, white star; free.

Rose of Heaven, fiery rose.

Snowball, white, very beautiful.

Stellaris, rose, white stripes.

Above Dwarfs for beds mix, 5c

Hybrid Double Petunias

Inimitable fl. pl., striped blotched,

free-bloom, double, beautiful, mixed. 50 seeds, 5c.

Azaleiflora fl. pl. white, double.

Lilliput fl. pl. small free-bloom

ing; fine for pots and beds.

Complete Mixture, 50 seeds, 5c

Pointing Hand: Your special attention is invited to the high quality of our single and double Petunias. They are the best to be had. 5cts a packet. We challenge comparison with any seeds sold, regardless of price.

Phlox, prized for continuous summer bloom.

Improved Grandiflora Phlox: Pure white; Brilliant rose, edged light; Carnea, flesh; Coccinea, scarlet; Chamois rose; Crimson, white eye; Rose, white eye; Purple, white eye; Blue, white eye; Dark purple; Scarlet, white center; Purple, white center; Rose, striped white; Pure rose. Separate 5 cents, mixed 5 cents. These are all large-flowered sorts.

Other Choice Phlox: Hortensiflora, fine mixed; Cuspidata and Fimbriata mixed; Soma-double, mixed. Nana Compact mxd.

★ **New Giant Perfection.** We are much pleased to offer a new large-flowered Phlox Drummondii that surpasses all others. The plants grow 9 in. high, branch freely, and are smothered with huge clusters of big showy flowers, very rich and varied colors, and making a marvelous display in a bed or in pots. We have Pure White; White marbled blue; Yellow; Blue, white eye; Azure with white center; Dazzling Red; Fiery Scarlet; Rose; Scarlet with big white center. Separate or mixed, 5 cents.

PHLOX Drummondii

Complete Special Mixture of all varieties, 5 cents

PHLOX Drummondii is a native annual of Texas that has been greatly improved by cultivation. The plants grow a foot high, and now bear much larger and finer flowers than originally, while they come in a wonderful variety of shades from white to blush purple and crimson, as well as in striking variegations. They bloom throughout the summer, and are exceedingly showy in beds and borders. We cannot too highly recommend them. The seeds offered are of the finest strains, and will please all who sow them. Grandiflora kinds are especially useful for continuous bloom in summer beds.

PENTSTEMON, For Beds

New Gloxinia-flowered, Mixed, 5cts.

THIS elegant new bedding plant grows two feet high, each plant branching and bearing a mass of rich bloom, the flowers tubular, as shown in the engraving. They keep in bloom throughout the autumn. The plants are popular for bedding in Europe. Our seeds are of the large-flowered rich-colored class and although perennial the plants bloom freely the first season. Being hardy they will endure the winter and bloom freely the following season. You will like this Giant Pentstemon for beds. Mixed 5cts.

PENTSTEMON

PARSLEY. New Crested Gem, the most lovely plant known for table decoration and for garnishing; of dwarf compact habit, does well in pots; foliage fine-cut, dense, and prettier than the finest fern. Hardy, easily-grown, beautiful. 5cts.

PERILLA Laciniatus, 2 ft. showy purple, fringed foliage; beds.

PHACELIA Campanularia, 6 in. broad bell-flower, deep blue.

Congesta, 2 ft. blue, good in masses. Sow in bed and thin.

Grandiflora, 5 ft. large-flowered, dark blue, rare, handsome.

Parryi, 6 in. deep violet, flowers an inch across, beautiful.

Tanacetifolia, 2 ft. bluish pink, pretty; fine bee plant.

Complete Special Mixture of all Phacelias, 5 cents.

Note:-- Phacelias are lovely annuals, and deserve a place in every collection. P. Campanularia has pretty blue bells in abundance; P. Grandiflora has flowers over an inch across and is tall and showy.

PHYSALIS Franchetti, Japan Lantern; wreaths of showy red "balloons;" dried for winter; of striking effect, 5 cents.

Edules, Cape Goosberry, 2ft. fine edible fruits; excellent.

Alkekengi, 2ft. fine scarlet-red fruits, showy everlasting.

POLYGONUM Orientale, 6ft., lovely "tails" of bloom. Carmine red; also Variegated-leaved, separate or mixed, 5 cents.

PORTULACA

Very showy and beautiful low succulent hardy annuals that like sunshine. Plants should stand six inches apart. The flowers are borne abundantly, opening in the morning and closing at noon. The rich colors and delicate texture of the flowers give them an attraction that few flowers have. The double-flowered sorts are more lasting than

The Beautiful Double Portulaca the single, and appear like little roses; the plants, however, do not all bear double flowers, even from the best seeds. Our seeds of Double Portulaca are of a choice strain, and most of them will produce double-flowering plants.

Double Portulaca, large-flowered, Alba, white. Aurea, Orange. Aurea striata, yellow striped orange. Caryophylloides rose with carmine stripes. Rosea, rose. Salmona, salmon. Splendens, purple. Separate or mixed, 5cts.

Single Parana, very large-flowered, reddish purple, new. Single, large-flowered, in splendid mixture, 5 cents.

PYRETHRUM parth. laciniatum Perfection, 6 in. compact.

Aureum, 1 ft. golden foliage, fine for beds and borders.

Golden Gem, 1 ft. golden foliage, double, white flowers.

Excelsior, 6 in. deep golden, splendid in bed or border.

Complete Special Mixture of all above sorts, 5 cents.

Queen Anne's THIMBLE

Here is a beautiful Gillia with little thimble-shaped flowers in clusters held above the fine feathery foliage, giving a most pleasing and striking effect. When cut, the long-stemmed exquisite heavenly blue clusters are lovely in bouquets and last well in water. Sow in Spring or Fall. It will prove a delightful surprise. 5 cts.

Queen Anne's Thimble Flower

RICINUS, Castor Bean, Improved.

THESE are tall branching plants clothed with large, tropical leaves, often tinted rose or crimson. They are showy and elegant in groups, and always attractive. In mild climates they are perennial, and will grow twenty ft. high. The Zanzibar Ricinus grows more dense and has larger foliage than the older kinds. All are handsome, and give a semi-tropical appearance to the grounds. Very easily grown.

Ricinus, Castor-oil Bean

Borbonensis arboreus, 15ft, green foliage, very ornamental.

Panormitanis, 7ft. giant brown leaves, blue stems, attractive.

Sanguineus, 7ft. red leaves and stems. One of the best.

Laciniatus, 5ft. dark foliage, finely lacinated; new, rare.

Gibsoni, 5ft. bronze foliage and fruits; fine for a big hedge.

Zanzibariensis, 7ft. robust, very large lobed leaves, mostly green; showy seeds. Cinerascens, Enormis, Maculatus, Niger, all fine varieties of the Zanzibar Ricinus we can supply separately or in complete mixture, 5 cents.

PODOLEPIS Chrysantha, 1 ft. a beautiful annual for a sunny bed; flowers golden yellow with pink; fine for pots. We also supply P. Affinis, a pretty annual. Both are easily grown.

RANUNCULUS Asiaticus Superbissimus, 1 ft. exquisite large, double flowers in many rich colors; finest mixture.

RICOTIA lunaria, 9 in, pretty annual; likes sandy soil.

ROSA Nana Polyantha, the Baby Rose, 1 ft. Seedlings begin to bloom in four or five months. Lovely double and single flowers. Fine for pots. A beautiful novelty.

RUDBECKIA Superba, 2ft, semi-double, rich golden yellow.

Newmannii, 2 ft, vivid yellow, long-blooming, gorgeous.

Purpurea Hybrida, 4 ft, rich red, varied, long-blooming.

SALPIGLOSSIS

Complete Mixture 5cts.

The new Giant Gloxinia-flowered Salpiglossis is an exceedingly handsome class of annuals. Plants grow 2ft. high, bearing abundantly and continuously large, showy richly-colored flowers, exquisite in texture, many strikingly throated or penciled. In a bed they are surpassingly beautiful, and enthusiastically admired; easily started and easily transplanted.

These choice varieties, separate or mixed, 5cts.

Aurea, pure golden yellow.

Brilliant Crimson, very rich.

Brown and Golden Yellow, fine

Chamois, tan, veined scarlet.

Deep Scarlet, yellow throat.

Faust, fine velvety black.

The above superb large-flowered Salpiglossis, sep. or mxd 5c

The New Dwarf Salpiglossis, 1ft. splendid, in fine mixture, 5c.

SANVITALIA Procumbens, fl. pl. a creeping annual, producing an abundance of double, bright golden yellow flowers throughout the summer. Showy and beautiful.

Salpiglossis New Gloxinia-flowered

Azure, light-blue, veined gold

Lilac, veined golden yellow.

Purplish Brown, pencilled.

Purplish Violet, fine color.

Rose, with fine purple veins.

Violet, veined golden yellow.

SALVIA, Best Kinds

Complete Special Mixture 5 cents.

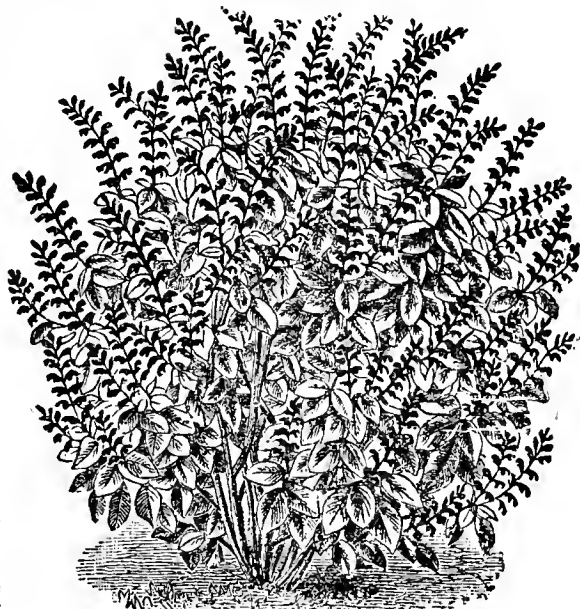

THE Salvias are showy and beautiful either in beds or pots. The plants grow from one to three feet high, bloom all the season, and will endure drought and sunshine. They start readily from seeds and soon come into bloom. *Salvia splendens* is unsurpassed for showy beds.

Argentea, 4ft. silvery foliage. *Patens*, 3ft. navy blue, splendid.
Carduacea, 2ft. blue, very showy. *Ringens*, 2ft. large purple bloom.
Coccinea, 3ft. fiery scarlet, fine. *Roemeriana*, 18in. rich scarlet.
Farinacea, 3ft. bright-light blue. *Sclarea*, 5ft. white woolly foliage.
Globosa 4ft. white, gray foliage. *Turkestanica*, 5ft. bright pink.
Horminum, 2ft. red, white, blue, mxd. These Species, sep. or mixed 5c.

SALVIA SPLENDENS, the Showy Bedding Salvia

Bonfire, 16in. glowing scarlet, fine. *Glory of Stuttgart*, 18in. scarlet.
Fireball, 1ft. scarlet, very free. *Semperflorens*, 1ft. intense red.
Gigantea, 3ft. very attractive as sin- *Zurich*, 1ft., bright red, profuse.
gle specimens, and for a tall border. Complete Mixture of splendens 5c.

Note.— I know of no more showy nor satisfactory bedding plant than *Salvia*. Seedlings of *Fireball*, the new, best of Salvias, grow a foot high, begin to bloom early, and become a mass of big flaming spikes of bloom, lasting for months. *Glory of Stuttgart* grows 18 inches high, and should be used for the center of the bed. The two make a gorgeous display of glowing scarlet flowers that lasts throughout the season. One packet of *Stuttgart* and two of *Fireball* will produce plants enough for an attractive bed. Sow in a box of good soil and when large enough, set the plants eight inches apart in the bed. The three packets, only 15 cts.

SALVIA SPLENDENS, the best of all Bedding Plants.

SAPONARIA Multiflora, trailing and free-blooming showy annuals. Sow in Fall or Spring. White, Red, Mixed.

Scarlet Queen, 1 ft. very brilliant and beautiful.

★ *Ocymoides Splendens*, a glorious trailing perennial, showing a carpet of lovely pink clusters in spring; fine.

Officinalis fl. pl. 2ft. large heads of soft pink flowers; a tenacious and handsome perennial. Fine for embankments.

★ *Vaccaria Alba*, 2 ft. exquisite white flowers; charming.

★ *Rosea*, 2 ft. lovely pink in fine large panicles.

Note. *Saponaria Vaccaria* is very desirable for the cut-flower market, or for designs. The flowers are small, but produced in graceful clusters, and are not unlike *Gypsophila* in general appearance, except that the flowers are larger. They are more lasting than *Gypsophila*, and more easily grown. No flower-grower should be without this splendid annual. It should be a "must have" in every flower garden.

SCHIZANTHUS

The Charming Schizanthus

Dwarf Hybrids, in finest mixture. *Pinnatus roseus*, fine rose. *Refusus* Rosamond, fine rose. *Trimaculatus*, Albus, Lilacinus. *Wisconsinensis* Excelsior, best for pots; 1ft., choice, improved; splendid shades and markings. *Bridal Veil*, pure white. *Dr. Balger's Hybrids*, new; fine. Sep. 5c. Complete Mixture 5c.

TROPAEOLUM, Dwarf Nasturtium, 1ft, bright, free and continuous blooming annuals for beds or edgings.

Colors: Apricot, Orange-scarlet, Vivid scarlet, Yellow flaked red, Bronze, Carmine, Straw spotted red, Yellow, Pearl White, Gold King, Orange spotted, Gold with yellow foliage, Yellow marbled scarlet, Black-red, Salmon, Raspberry Red, Orange spotted red, Crimson, marbled foliage; Scarlet, marbled foliage. Separate or in Complete Mixture.

VINCA *Rosea*, 1ft, splendid everblooming plants for beds or pots; like hot sun. Flowers Phlox-like, beautiful.

Colors: Rose, White, White eyed, Carmine, sep. or mixed.

Viscaria, New Dwarf, 8in. free-blooming, beautiful annuals for beds or pots. **Colors:** Pure White, True Blue, Blood Red, separate or mixed, 5 cents.

Valeriana, 3ft, Alba, *Rosea*, *Rubra*, fine to cut, sep. or mxd

Vittadenia triloba, 8in. many rosy white daisies; fine edge

Santolina, 1ft, Lav. Cotton, yellow.

Schizopetalon, 1ft, good-luck, scented

Sedum coeruleum, 3in. blue Stonecrop

Senecio elegans, 18in. double, for beds;

White, Blue, Violet, Rose, Mixed.

Solanum atropurpureum, 4ft, showy.

Giganteum, 10ft, blue, showy foliage.

Laciniatum, 5ft, very ornamental.

Albidum Portmannii, foliage plant.

Ciliatum, 1ft, scarlet fruits, thorny.

SCABIOSA

Very beautiful hardy annuals, showy in beds and fine for cutting. Easily grown. Sow early in beds and thin, or sow in a box and transplant. Set 6in. apart. We freely praise this lovely flower.

Tall Large-flowered; White, Rose, Scarlet, Brick-red Azure Fairy, Red and white, Purple and white, sep. or mixed.

★ **New Dwarf Improved**

Double Large-flowered, 18in. Azure, Blood Red, Rich Crimson, Pure white, Purple-violet, Bright Rose, sep. or mixed.

S. Minor Aurea, 3ft, double golden yellow and *S. Candidissima*, 3ft, double white, good for cutting, each 5 cents.

Note.— We especially recommend the Dwarf Large-flowered *Scabiosa*. The plants stool out and cover the bed, stand erect, and bear a wealth of lovely double flowers on strong stems. We feel assured you will like this charming race much better than the tall varieties.

SILENE *Pendula*, Double, 4 to 8in. exceedingly pretty, attractive hardy annuals of spreading habit. Flowers very abundant covering the plant. Fine for edgings and beds. *Bijou*, double, salmon, fine. *Bonnettii*, dbl, rosy magenta. *Ruberrima plena*, dbl, purple. *Triumph*, dbl, and *Syringa Blue*. *Aba fl. pl.* and *Rosea fl. pl.* each Special mixture of all.

Silene Maritima, 2ft, white, rare. *S. Orientalis compacta*, rose.

STOCK, Ten Weeks and Virginia.

The Ten Weeks Stock is the best of annuals. Plants are easily grown, and bear continually long spikes of flowers, as double as a Rose, deliciously scented, and of the loveliest colors. Our seeds are of best strains, and saved only from pot-grown plants.

Dwarf German, 1 ft. early-flowering, finest double. **Colors:** White, Canary, Fiery Crimson, Deep Blue, Light Blue, Rose. Separate or mixed.

New Beauty, 2 ft. the finest of Stocks, profuse, double, and in many choice colors: White, Rosy-lilac, Canary, Blood Red, Violet, Aurora, Peach, Pink, Purple. Separate or Mixed, 5 cents.

Mammoth Column, 3 ft. one tall spike, double, showy and beautiful. **Colors:** White, Shining Blood-red. Separate or many colors mixed.

Other Fine Stocks: *Victoria Bouquet*, 1ft.; Large-flowered Dwarf 15 in.; *Bismarck*, 2 ft.; *Giant Perpetual* 2 ft.; *Dresden Perpetual*, 2ft. White, Canary. These all bear fine double flowers; supplied in Finest Mixture. Also, we supply a Complete Special Mixture of all sorts, 5c.

STOCK, Virginia, 1 ft. showy, handsome annuals; fine for beds, or winter-blooming in pots. Red, White, Crimson, Carmine. Sep. or Mixed

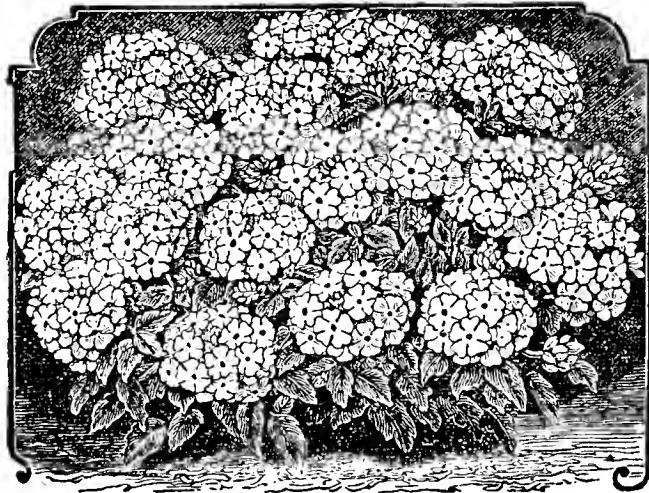

Spergularia azoroides, blue, small.

Sphenogyne speciosa, 1ft, yellow dai-

sy-like flowers, dark zone, beautiful.

Stevia Eupatoria, 18in. white corymbs

Serrata, 2ft. pure white, fine to cut

Verbenas, first-class flowers for pots or beds.

Note. Verbenas are first-class flowers for beds or pots. Plants are easily grown from seeds and bloom early, freely and continuously until winter. The large flowers come in big clusters, are deliciously fragrant, good for cutting, and very attractive. By all means add Verbenas to your list. Our seeds are of the finest Mammoth strains, and will give the best results. The Mammoths are the most desirable of Verbenas.

Viola Cornuta 6in. pretty Scotch Violets.

These have the merits of Pansies, but are Violets in form. They bloom profusely and continually, and are quite fragrant. They are beautiful flowers, of easiest culture that no garden should be without. We offer these finest varieties: White Perfection, Blue Perfection, Lutea chrome yellow, Hybrid Viola Admiration deep blue, Rose Queen, Spring Messenger purple, ★Papilio blue with white. Sep. or mixed, 5cts

Viola Tufted Pansies. These are lovely hybrids, and very desirable. We supply the best: Admirabilis blotched, Ardwell Gem chrome yellow, David Simpson marbled crimson, Firmament sky blue, Nora Marrow rosy-lavender, Primrose Dame sulphur, Purple King violet, Snowden white, all long free bloomers; sep. or mixed.

Viola, Bosniaca deep purple, and **V. Munbyana** early blue, both splendid species, separate or mixed.

Note. Viola Papilio. This is the Butterfly Violet, so-called because of the "butterfly fluttering of its petals." It is distinct and beautiful, bearing its lovely flowers in wonderful profusion throughout summer, and until cold Winter hides the plants under a coverlet of snow. Use for an edging or a bed; it does well in sun or shade, and always elicits high praise from those who see it in bloom. It is a good thing.

Wallflower Kewensis, a very fine kind, blooms 5 mos. from seeds; sulphur passing into orange. Started in July plants bloom freely in pots in winter. Easily grown.

Wallflower, Early Parisian, 1ft.; bloom in 4 months; fine for beds in Summer and pots in Winter; flowers abundant, sweet-scented. Colors: Light Brown, Blood Red, Cream Yellow, Yellow with black bud, separate or mixed.

Whitlavia, Large-flowered, 1ft. very pretty annuals with lovely bell-shaped blue flowers throughout the season. Of easy culture. White, Violet Blue, Light Blue with white throat; like a miniature Gloxinia. Separate or mixed, 5cents.

Stokesia Cyanea, 1ft, blue Fall Aster. **Trifolium suaveolens**, 1ft, rose, sweet. **Tunica saxifraga**, lilac, low edging. **Symphandra Hoffmannii**, 1ft, white. **Tritoma mirabilis**, 3ft, Hybrids mixed **Venidium calend.** 2ft, golden daisies. **Trachelium Coeruleum**, 2 feet, blue. **Tropaeolum minus**, 18in. for pots, red. **Veronica Syriaca**, 6in. azure, for pots.

VERBENA, New Mammoth

THE Improved Verbenas are elegant summer-blooming plants, the rich and fragrant flowers coming in big clusters and making a fine display throughout the season. Seedlings are easily grown, and thrive in any rich, sunny bed. They are among the most showy, pleasing and satisfactory of garden flowers. For pots use the Dwarfs. Snow Queen, pure white, fine. Striata, charmingly striped. Auricula, rich colors, eyed. Fairy Queen, lovely soft pink. Royalty, vivid blue shades. Purple Cloak, red, white eye. Firefly, dazzling scarlet, fine. Defiance, fiery scarlet. Miss Wilmot, salmon-rose. Rose and carmine shades. Pink, large-flowered, fine. Celestial, light blue shades. The above splendid Mammoth Verbenas, sep. or mxd. 5c. Other Verbenas, Aubletia grandiflora, 1ft, lilac; Drummondii, various shades; Erinoides (Moss Verbena) Violet, also White, both profuse and continuous bloomers; Venosa. 1ft, for beds, lilac. Sep. or Mxd 5c. Dwarf compact mxd 5c.

ZINNIA, Giant Dahlia-flwd.

The Zinnia has been a favorite garden flower for years. I recall my boyish pleasure with the original single red Zinnia which I grew by the old garden walk. Then came the Double Zinnia in various colors, far surpassing it in beauty. But the Improved Dahlia-flowered rivals the Dahlia in size, form and color, as also in showiness and beauty, while it thrives and displays a wealth of bloom in blazing sunshine and under other adverse conditions that would destroy the Dahlia. Plants are easily grown from seeds, begin to bloom early, and make a glorious display until the coming of severe frosts. We freely recommend this latest and best Zinnia. No garden annual excels it. Our seeds were saved by the specialists who developed these monster Zinnias, and are of surpassing quality.

NEW GIANT DAHLIA-FLOWERED ZINNIA
Exquisite, truly Dahlia-flowered in size and form, tyrian rose, fine. **Crimson Monarch**, giant plants, flowers often 8in. across, glowing. **Oriole**, huge plants, large double flowers; rich orange and gold. **Dream**, the very best; free-blooming, big flowers, lavender blue, fine. **Buttercup**, immense plants, rich creamy yellow flowers; lovely. **Polar Bear**, immense chaste white double flowers, profusely borne. The above separately or in splendid mixture, choicest seeds, only 5cts.

Other Splendid Double Zinnias, Finest Quality
Pumila semi-dwarf, 1ft, lovely for beds, branching, very free-blooming; Colors: White, Rose, Crimson, Scarlet. Separate or Mixed.
Grandiflora Robusta, 3ft., Benary's Special Mixture, very showy.
Crispa, 2ft, crested petals, double, very fine, very good for cutting.
Achievement, splendid quilled, very beautiful, rich colors, mixed.
Robusta Striata, 3ft., large, exquisitely striped, double.
Gracillima, 1ft, fiery scarlet, small flowers, fine in beds and for cutting.
Lilliput, 1ft, branching plants with small, double flowers, finest mxd.
Haageana-Perfection, the lovely Mexican Zinnia, Finest mixed.

Fine Ornamental GRASSES for Beds and Bouquets

Agrostis Nebu, 1ft fine in bouquets. **Pulchella**, 9in. pretty, green or dry. **Anthoxanthum gracile**, 9in. lovely. **Avena sterilis**, 3ft. Animated Oat. **Avena nuda**, Elegant Naked Oat. **Arundo Donax variegatis**, 10 ft. **Brachypodium distachyum** and **Gracile**, both fine for bouquets. **Brizopyrum siculum**, trembling gr. **Briza maxima**, 18in. Quaking grass. **Gracilis**, 1ft. small Quaking Grass. **Bromus brizaformis**, 2ft. for beds. **Macrostachyus**, large spikes, fine. **Ceratocloa pendula**, handsome. **Chloris barbata**, fine, green or dry. **Chrysurus aurea**, 1ft golden spikes. **Coix lachryma**, 2ft. Jobs Tears, fine. **Aurea zebrina**, striped foliage. **Eleusine oligostachya**, fine to dry. **Elymus giganteus**, 8ft. for groups. **Eragrostis elegans**, 2ft. love grass. **Capillaris**, fine for bouquets. **Erianthus ravenna**, 4ft. gray spikes. **Eulalia Jap. var.** lovely for groups. **Euchlena luxurians**, 3ft. handsome. **Bromus Madritensis**, for bouquets. **Festuca rigida**, 1ft. 'little comfr'. **Stipoides**, Feather-like Fescue. **Gymnothrix latifolia**, 7ft. nodding. **Gynierum argenteum**, 5ft. Pampas. **Hordeum jubatum**, 1ft. squirrel tail. **Lagurus ovatus**, 1ft. silky heads. **Panicum altissimum**, 6ft. Guinea. **Capillare**, 2ft. lovely in bouquets. **Pilcatum var.** creeping, showy. **Sulcatum**, Palm-formed for pots. **Virgatum**, 5ft. fine for beds. **Paspalum elegans**, 3ft. ornamental. **Pennisetum long**, 2ft. bouquet grass. **Rueppellianum**, 3ft. fine bouquet. **Poa pilosa**, 6in. for bouquet or bed. **Polypogon monspeliensis**, graceful. **Setaria alopec. nigra**, for tall groups. **Stipa pennata** 5ft. Feather grass. **Sorghum balapense**, 5ft. showy. **Nigrum**, fine for bouquets. **Tricholaena rosea**, 2ft. beautiful. **Uniola latifolia**, 4ft. fine for vases. **Zea Japonica var.** 3ft. striped corn. **Quadricolor**, 4 colored, 3ft. fine. **Perfecta gigantea**, 5ft. 4 colors. **Mixture of Zea** 5c. Grasses mxd. 5c.

EVERLASTINGS

Complete Special Mixture, 5 cents.

The Everlastings have straw-like petals, and when cut and dried in the shade, they retain their form and color, and can be used with dried Grasses in bouquets and designs for table decoration in winter. Some of them, as *Acroclinium* and *Rhodanthe*, should be cut just as they begin to open, to get the best results; but *Double Helichrysum*, *Ammobium*, *Gomphrena*, *Statice*, *Xeranthemum* and others should remain until fully developed. All are easily grown from seeds, and bloom the first season, being mostly annuals. *Helichrysums* and *Gomphrenas* are the most showy, and are useful for a summer display in beds. The *Gomphrena* is much

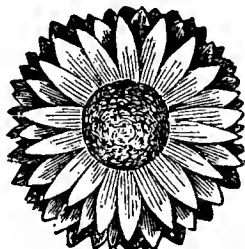

used in the South for exposed sunny beds, providing a rich display continuously.

ACROCLINIUM, Graceful, slender plants, a foot high, bearing continuously pretty daisy-like, double flowers in abundance. A good everlasting.

Double White, Rose; sep. or mixed 5c.

AMMOBIUM alatum grandiflorum, a branching annual, two feet high; flowers double, pure white, freely borne during summer. It has winged stems and likes sandy soil. A splendid one.

CELOSIA spicata, two feet high, bearing

Acroclinium

ing stiff, long spikes of small rosy flowers. A pretty annual, easily grown, useful in beds and for drying.

GNAPHALIUM foetidum, 2 feet, a composite annual; dense yellow heads

GOMPHRENA globosa, a beautiful annual from India. Flowers globe-like, freely produced, and very attractive in beds or pots, and also, in winter-bouquets. The plants are excellent for garden and greenhouse

AMMOBIUM alatum decoration. They grow a foot high, and, set 8 inches apart, cover the bed. The dwarfs, six in. high, are fine for pots and edgings. We offer *Aurea superba*, orange, White, Flesh, Rose Carmine, Striped; separate or in mixture, 5 cents. *Nana Compacta*, dwarf, very free-blooming; Carmine, White; separate or mixed. Do not omit this splendid annual from your order.

GYPSOPHILA elegans, 18 in. Rose, Red, White, and Grandiflora White; very valuable for bouquets either green or dry. The varieties separate or in mixture 5 cents. We can also supply *Gypsophila muralis*, 6 in. lovely for edgings and carpets, and *G. Paniculata*, single and double, white; also pure white.

HELIPTERUM Sanfordii, 1ft. the plants branching and bearing a head-like cluster of small chrome-yellow flowers at the tip of each branch. *H. Corymbiflorum*, white, yellow center.

Note. *Helipterum* and *Rhodanthe*, both lovely everlastings, are near relatives of *Helichrysum*, the most showy and beautiful of all flowers for drying. All are of easy culture, starting readily from seeds, and blooming abundantly the first season, being annuals. In Europe, the *Rhodanthe* thrives well, and is much grown in pots, selling readily on the market.

Statice

Rubro-salmonaeum, salmon purple.

Sulphureum, light sulphur.

Fireball, fine scarlet with orange.

Fuscatum, dark brown.

Aurea, golden yellow; splendid.

The above fine named kinds were saved from choice double flowers and will give the best results. 5 c.

LONAS inodora, 1ft. small yellow flowers in dense terminal heads.

MOLUCELLA laevis, 2ft. fragrant

white flowers in whorls; the persistent shell-like calyx, curious and attractive; retains its form and color when dry.

PHYSALIS Franchetti, Chinese Lantern, large orange balloon like fruits in long racemes; edible when fresh; beautiful.

POLYCOLYMNA Stuartii, 2ft. white, easily grown.

RHODANTHE, pretty annuals, graceful aster-like flowers; fine pot plants for the plant-stand or for market; good for drying. *Manglesii*; rose, white, mixed; *Maculata*, rose, white and mixed. Separate or in complete mixture, 5 cts.

STATICE, Sea Lavender, many kinds; all prized for bouquets either green or dry. We offer the best varieties:

Bonduellii, 2ft. yellowish.

Incana nana, 1ft. fine mixed.

Latifolia, 2ft. blue, splendid.

Macrophylla, 2ft. dark blue.

Sinensis, white and yellow.

Sinuata, 2ft. choice hybrids.

Spicata, 2ft. lilac red, fine.

Suworowii, 2ft. bright rose.

The above varieties separate or in complete mixture. 5 cts.

XERANTHEMUM, 2ft. beautiful easily-grown annuals; showy in beds and excellent for drying. Flowers large, full-double and of lovely colors. Double Imperial, Dark Red, Rose, White and mixed. Separate or all in complete mixture. 5 cts.

Xeranthemum

CULINARY AND MEDICINAL GARDEN HERBS

Angelica archangelica, 5ft. biennial; large leaves; big umbels of small white flowers. When steeped, the roots and seeds yield an aromatic tonic. In Lapland it is used as a condiment.

Anise, 1ft. annual; umbels of white bloom; seeds used for flavoring; also for tea to relieve colic; delightfully fragrant.

Artemisia vul. Mugwort, 4ft. perennial; pretty fragrant fol.

Basil, Sweet Purple Bush, 1ft. annual; leaves used in soups.

Balm, *Melissa*, 2ft. perennial; lemon flavor, whitish bloom.

Borage, 2ft. perennial; blue, white, drooping; used for drinks.

Caraway, 1ft. biennial; white umbels, fragrant seeds.

Catnip, 2ft. per. tea from the tops aids digestion; bee pasture.

Coriander, 2ft. annual, white umbels; seeds used to flavor.

Cumin, 6in. annual, rosy-white umbels; seeds used to flavor.

Dandelion, 6in. very showy golden bloom; salads in spring.

Improved Broad-leaved, early; fine winter salad if forced.

Dill, *Anethum*, 2ft. biennial, yellowish umbels, seeds as flavor.

Elecampane, *Inula*, 3ft. per. golden bloom; roots medicinal.

Fennel, 5ft. biennial, fine fragrant foliage; used as salad.

Horehound, 2ft. per. a bitter root used for cough remedy.

Hyssop, 2ft. per. ornamental mint and pot herb; expectorant.

Lavender, 2ft. per. flowers blue, plant delightfully scented.

Lovage, 1ft. per. white umbels; seeds aromatic; a pot herb.

Majorum, Sweet, 2ft. annual plants used for flavoring.

Majorum, Pot, 2ft. per. grown in pots; branches culinary.

Pennyroyal, *Mentha Pulegium*, 8in. lilac bloom; aromatic.

Rosemary, evergreen shrub, 3ft. leaves used for seasoning.

Sage, Broad-leaved, 1ft. sub-shrub; leaves used in cooking.

Savory, Summer, 1ft. annual, flowers lilac, leaves for seas'ng.

Savory, Winter, 1ft. sub-shrub, pale purple; used to flavor.

Tansy, Garden, 2ft. per. in old gardens; mossy foliage.

Thyme, French, 6in. sub-shrub. rose-purple; aromatic mint.

Thyme, Winter, Broad-leaved, lemon; leaves prized in cooking.

Wormwood, *Absinthium*, 1ft. very bitter; medicinal foliage.

Complete Herb Mixture, 5 cents; separate, 5 cents.

Ornamental Vines

Beds of flowers tastefully disposed give brightness and beauty to a place, but it is the Climbers that afford coziness and special charm to a home. They beautify unsightly spots; they break up the monotony of the grounds; they supply, like Jonah's gourd, quick shade from the burning sun. A good variety of these plants should be found at every home. They are indispensable in giving a homey appearance, and imparting cheer and comfort and contentment to the inmates. The plants are readily started from seeds, and easily transplanted to where you wish them to grow.

Furnish support as soon as they begin to run. Complete Special Mixture, 5 cts.

Lophospermum

BEAN, Improved Scarlet Runner

An easily-grown, robust vine, bearing freely large clusters of rich, showy, scarlet bloom, followed by big pods of large edible beans. Pick before ripe to promote a continued bloom. They are, besides, much more palatable if used when green. Oz. 10 cts. Packet 5 c.

Scarlet Runner Bean

Bryonopsis Laciniosa
A lovely rapid vine of the Gourd family; flowers small fruits green, with brown blotches; a fine climber. 5 cts.

BENINCASA Cerifera, robust vine, with large leaves and big showy yellow flowers four inches across, followed by attractive white fruits that are good for preserves and pickles.

BRYONIA Dioica, strong-climbing, large-leaved perennial herbaceous vine with tuberous roots; flowers small, greenish-white, succeeded by red berry-like fruits. 5 cts.

CALAMPELIS Scabra a climbing shrub, bearing scarlet, carmine or golden racemes of bloom the first year; an elegant vine for walls, pillars or trellises. Colors sep. or mixed.

CARDIOSPERMUM, pretty graceful vines 15ft. Flowers small; seed-vessels balloon-like; handsome.

Halicacabum, smooth stems, 5 cts. **Hirsutum**, hairy stems, 5 cts. All mixed, 5 cts. A lovely perennial, but usually grown as an annual.

CARDINAL Climber, 20ft, a hybrid Ipomoea similar to Cypress Vine. A good trellis vine. 5 cts.

CAJOPHORA lateritia, 5ft, a handsome annual; brick-red, ★ **COBAEA scandens**, 20ft, the beautiful "Cup and Saucer Vine"; flowers large purple cups; also white; attractive foliage; one of our best climbers. Separate or mixed, 5 cts.

COBAEA macrostemma, rapid growing vine with charming foliage; flowers green, violet tipped; new and interesting, 5 cts.

CONVOLVULUS, Morning Glory, Large-flowered; the old sort improved: flowers unsurpassed in beauty and profusion; should be at every home. White, White with rose, White striped rose, White striped violet. Flesh, Carmine, Rich Dark Red, Light Blue, Lilac, Black Blue; sep. or in fine mixture. Double-flowered and semi-double in splendid mixture. 5 cents.

Aureus superbus, the charming golden Morning Glory; new and beautiful; 5 cts.

CANARY Vine, 15ft, a lovely vine; flowers yellow, resembling a canary bird.

COMMELINA, pretty perennials, 2ft, **Coelestis** has tuberous roots and navy blue flowers; **Sellowiana** has large cobalt blue flowers; both are handsome. Separate or mixed, 5 cts.

CENTROSEMA grandiflora, Butterfly Pea, red flowers.

Morning Glory

CLITORIA ternatea, 5ft, beautiful royal blue flowers; rare. **COCCINEA indica**, 6ft, large white bell-flowers; red fruits. **DOLICHOS**, Hyacinth Bean, easily grown bean-like vines, useful for covering fences or small buildings; flowers deep purple and white; either color or mixed, 5 cts. **Giant Japan Dark Red**, Darkness; also **Giant White**, Daylight; **Texas Giant**, violet-red. Complete mixture of above sorts, 5 cts.

Gourds in variety

The Gourd family embraces a great variety of flowers with fruits that are wonderfully interesting. Some are prized for their foliage, some for their flowers, and others for their interesting fruits, which are of many sizes, colors and variegations, all ornamental, and some desirable for food. We urge our friends to get at least some mixed seeds of gourds and cucumbers. They will afford much satisfaction and pleasure.

LAGENARIA Vulgaris. This class includes the Dipper Gourd, Bottle Gourd and others. Vines 20 to 30 ft; flowers white, handsome and having the perfume of musk. We can supply **Siphon** or **Dipper**, large fruits with a long handle; used for drinking dippers, bird houses, etc. **Hercules Club**, long slim fruits, 5ft, showy, edible. **Bottle Gourd**, very large, bottle-shaped, with necks. **Powder Horn**, large, horn-shape, **Sugar Trough**, large, spherical, used for sugar troughs, lard cans, etc. **Corsican**, or **Dish**, large depressed fruits; fine for receptacles. **Enormis**, immense fruits, odd and useful. **Minima**, very small; used for pipes and toys; sep. or mixed, 5 cts. a pkt.

Cucurbita ovifera, the small, fancy, hard-shelled gourds used as children's toys; yellow bloom; 6ft, **Bicolor**, green and gold; charming. **Miniature**, round, dark green; gold-striped, **Orange**, resembling a citrus fruit, **Egg-shaped**, white, **Japan**, used for nest eggs, **Depressa**, flat; dark green striped yellow, **Apple Gourd**, early, pure white, pretty, **Pear Gourd**, yellow ringed green. **Pear striped**, green with longitudinal white bands. **Pear-shaped**, white, handsome. These small fancy gourds, separate or mixed, 5 cts. Nothing amuses children more than a collection of these fancy little gourds,

Cucurbita ficifolia, the beautiful Malabar Melon, prized for its foliage and large, globular showy fruits, green striped white.

Cucurbita Maxima, Giant Pumpkins, Very Large Tours, often 100 lbs, gray-green with deeper markings; edible. **Pot-iron Globe**, pale yellow, largest of Pumpkins; keeps well and is of good flavor. **Etampes**, large, slightly flattened; flesh thick, orange, sweet and of excellent quality; skin, bright orange-red, beautiful. **Gray Boulogne**, fruit gray, often 3ft, across; the flesh thick and good. **Mammoth White**,

large, pale or cream flesh, **King of Mammoths**, very large, productive. These Giant Pumpkins are all edible as well as showy and ornamental. Separate or mixed, 5 cts, a packet.

Cucurbita argyrosperma, the interesting Silver-seeded Gourd, **CUCUMIS flexuosus**, the Snake Cucumber, often 3ft, long, coiled to resemble a snake; A curious ground vine; **Dudaim** is another cucumber not unlike an orange in shape and color, and deliciously scented; grown for its perfume.

CYCLANTHERA, 10ft, vigorous, with handsome foliage; fast grower, **Explodens** has egg-like fruit that explodes when ripe, **Pedata** is similar; both have edible fruits; sep. or mixed.

The Gourd Family, continued

ECBALLIUM elaterium, Squirting Cucumber, a trailing perennial; flowers yellow, bell-shaped, an inch across; fruit 2 in. long, violently ejecting the seeds when ripe, 5 cts.

ECHINOCYSTIS lobata, Wild Cucumber; 30 ft. a graceful, rapid-growing vine with curious fruits; likes moist soil.

LUFFA, the Dish-rag Gourd, a handsome vine in foliage, flowers and fruit; vigorous and always admired; fruits used as dish rags, **Acutangula**, golden flowers, large fruits; beautiful; **Macrocarpa**, large smooth fruits; **Marylandica**, also **Cylindrica**, both handsome sorts; **Sooly Qua** has pretty small fruits. All these handsome Luffas, separate or mixed, 5 cts.

MOMORDICA, Balsam Apple, a pretty vine 6 ft. bearing showy red fruits the size of an egg, **Charantia**, Balsam Pear, pear-shaped, red; fruits of both are used for making a salve.

TRICHOSANTHES anguinea, Serpent Gourd, a climbing annual; flowers white, 2 in. across, showy; fruits slim, 5 ft. long, twisted, snake-like, edible; a handsome vine, **T. Colubrina**; known as Viper Gourd, is the same vine, 5 cts, a pkt.

HUMULUS Japonicus variegatis, a free-growing climber with light green leaves distinctly edged white; a grand vine for covering any unsightly objects, or for shade; easily grown,

IPOMOEAS

Ipomoeas are among the most desirable of vines. They start readily from seeds, grow rapidly, bloom throughout the summer, and are hardly surpassed for covering old walls, buildings or trellises. Give strong support early. We offer the following splendid kinds: **Bona Nox**, the Evening Glory, a vigorous vine with showy rosy violet flowers. **Coccinea**, a smooth, handsome vine of quick growth; flowers orange-scarlet, like Cypress Vine, lasting throughout the day; very beautiful, **Grandiflora alba**, Moonvine, rapid and free-blooming; large, white, fragrant flowers; a splendid vine, **Black seeded**, 5c, **White seeded**, 5c.

Hederacea, the handsome Ivy-leaved; beautiful sky-blue flowers.

Huberi, variegated leaves; mxd.

Imperialis, the Japanese Imperial Morning Glory; robust vines of easy culture; flowers like our Morning Glory but larger, more varied in color and variegation, and free-blooming. Our seeds are of fine new giant varieties, and are sure to please; mixed, 5 cts.

Leari, intensely dark blue; a splendid perennial which blooms the first season. **Limbata elegantissima**, blue, edged white, **Mexicana**, a tuberous-rooted vine with a profusion of lovely lilac bloom; cottony seeds.

Nil Grandiflora, a graceful vine with large bell-shaped blue flowers; pretty.

Quamoclit, Cypress Vine, a tall, rapid vine with fern-like foliage; flowers small, profuse, always open; Red, White, Rose, Separate or the colors mixed, 5 cts.

Rubro-coerulea grandiflora, the large early-flowering sort, bears a wealth of exquisite heavenly blue flowers, also White; either color or mixed, 5 cts.

Sanguinea, free growth, pretty foliage, deep scarlet flower.

Scarletina, a lovely vine; cinnabar red bloom.

Setosa, Brazilian Morning Glory, large, rose flowers.

Viola vera is same as **Rubro-coerulea**. Complete mixture of all Ipomoeas, 5 cts.

LATHYRUS Azureus, Lord Anson's

Pea, a strong-growing vine bearing bluish-purple flowers on long many-flowered stems.

Rotundiflorus, 10 ft. coppery red, large, borne upon long, many-flow'd stems.

Tingitanus, 6 ft. large purple standard, keel bright red. A handsome annual.

LOASA, see **Cajophora**, 5 cts.

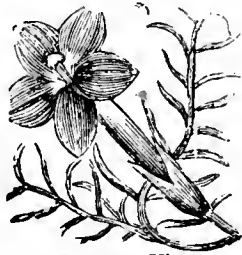

LOPHOSPERMUM Scandens, a lovely

New Frilled Giant Spencer Sweet Peas

Ipomoea

Cypress Vine

perennial vine with silvery foliage and large tubular rosy bells. Blooms first season, and useful for indoor or outdoor culture. See Engraving on opposite page. 5 cts.

MAURANDYA, a beautiful vine, the foliage abundant and graceful. The flowers numerous and charming; grows 6 feet high, and is admirable for a screen or trellis. Rose, Crimson, Purple and White, separate or mixed 5c.

MINA lobata, charming rapid climber, rich scarlet bloom, 5c.

NASTURTIUM, Giant Fragrant.

The old-fashioned Nasturtiums of our childhood have been greatly improved, but they still recall the hallowed associations of by-gone days. The vines are stronger, the flowers larger and fragrant, and the colors and markings more varied. The foliage, too, shows different graceful forms, and charming variegations. We offer the finest up-to-date sorts, that will be a revelation to persons acquainted only with common Nasturtiums. Mixture of all, 1 oz. 18c, half oz. 10c, pkt. 5c.

Asa Gray, creamy white.

Atropurpurea, dark red.

Battles, salmon, red spots.

Black Prince, dark purple.

Brilliant, bright scarlet.

Butterfly, yellow, salmon spots

Cardinal, dark scarlet.

Chameleon, variable colors.

Cloth of Gold, fire red, gold leaf

Fimbriatum, fringed, mixt cols

Firefly, bright yellow, with cardinal spots, calyx and spur red.

Gold Queen, sunflower yellow.

Gunther's Hybrids, mixed colors.

Ivy-leaved, beautiful, mixed colors.

Jupiter, pure orange, showy.

Kermesina, fine crimson.

Victoria Louise, cream, red spots.

Edw. Otto, bronze, silky lustre.

Ruby, blush rose, shaded; new.

Schillingi, yellow, red spots.

Twilight, chamois, rosy salmon tint.

Tom Pounce trailing, mixed hues.

Complete mixture, oz. 18c., half oz.

10c., pkt. 5c. Sep. same price.

SWEET PEAS

Special complete mixture of all sorts, oz. 12 cts. pkt. 60 to 75 seeds, 5 cts.

These are among the most beautiful and satisfactory of garden flowers, and of easy culture. The vines grow ten feet high in rich soil, and are literally covered with bright long-stemmed flowers, richly scented, and exquisite for garden, room and personal adornment. If you grow but a half dozen annuals let the improved Sweet Peas be one of them. Our collection embraces the

new, best varieties in all colors. Those starred were lately chosen by a committee of the National Sweet Pea Society of England as the best varieties in their color. Our Special Complete Mixture contains all our Spencer and Grandiflora varieties. Price 1-4 lb. 40cts., oz. 12 cts., pkt. 60 to 75 seeds, 5c.

★ The Best Giant Spencers

We offer the Best Giant Spencers, varieties chosen by the National Sweet Pea Society of England as the Best in their respective class. You make no mistake in getting these. They represent all the fine colors and variegations,

Blue Picotee, white edged blue

Charming, dazl'g cerise wavy

Com. Goodsall, violet blue, fine

Constance Hinton, giant white

Crimson King, richest crimson

Daisybud, deep apple-blossom.

Fair Maid, blush, shad'd salm'n

Hawlmork, lavender, clear.

Hawlmork, vivid scarlet, fine.

Hercules, giant fine pink,

Jean Ireland, cream, red edge.

The Giant Spencer Sweet Peas in complete special mixture, embracing all the above best sorts in careful proportion, 1/4 lb. 55cts.; oz. 15 cts.; pkt. 40 to 50 seeds, 5c. Separate varieties same price. The full collection, 22 pkts. only \$1.00.

Mary Pickford, pink and salm'n

Matchless rich cream, frilled.

Miss Calif., pink, salmon tinge

Mrs. Cutlib rose, white wings

Mrs. T. Jones, delphinium blue

Powerscourt, super' lavender.

Royal Purple, glorious purple.

Sunset, like a rich evn'g glow.

Tangerine, vivid dark orange.

Valentine, splendid shell pink.

Warrior, giant, rich maroon.

Please Note. We prepare but one blend of Giant Spencers, and that is the best that can be made. They will delight you. This blend is prepared by us with great care and is unexcelled.

Sweet Peas continued on next page.

Grandiflora, very large, exquisite Sweet Peas in all colors. We offer the finest of many choice varieties as follows:
America, red and white stripe. **Mrs. E. Kenyon**, fine primrose.
Aurora, white flaked orange. **Janet Scott**, deep pink.
Blanche Ferry, rose and white. **King Edward**, bright red.
Dorothy Eckford, large white. **Lady G. Hamilton**, lavender.
Emily Henderson, early white. **Lord Nelson**, deep navy blue.
Flora Norton, bright blue. **Miss Wilmot**, orange pink.
Helen Pierce, blue and white. **Prima Donna**, soft pink.

These splendid named, large-flowered Sweet Peas in carefully proportioned special mixture, or separate, per oz. 8 cts. pkt. of 75 seeds, 5 cts.

NEW GIANT CHRISTMAS SPENCER

These Sweet Peas bloom several weeks earlier than the Standard varieties, and are mostly grown in greenhouses to supply cut flowers for the early market. They are, however, as large and handsome as the other Spencers, and do well in the garden. Try them.

Aviator, dazzling, dark scarlet. **Giant Rose-pink**, like Hercules
Blue Bird, rich azure blue. **Madonna**, giant pure white,
Glitters, rich orange-scarlet. **Warbler**, rich mauve purple.
Harmony, clear lavender, fine. **Yarrowa**, rose, blush wings.

Separate, pkts. of 30 to 40 seeds, 5 cts. Complete mixture, carefully proportioned, oz. 30 cts.; packet 40 to 50 seeds, 5 cts.

Cupid Sweet Peas. We supply these in fine mixture at 8 cts. per oz.; 5 cts. a pkt of 75 seeds. They are dwarf, need no support, come in many colors and varieties, and are prized by some people. Our mixture is unsurpassed.

Note. Sow early in a trench running north and south, covering a fourth inch deep, and drawing the soil in as the plants grow. When the soil is level cover it with tobacco stems, and supply a chicken-wire trellis into which tobacco stems have been woven. This will effectually ward off an attack of plant lice, which recently have been troublesome in some sections. The tobacco stems act as a fertilizer. Many growers prepare the soil by spading two feet deep in autumn, stirring into the bed a liberal application of rotted stable litter. When thus prepared the plants grow vigorously, and the flowers and clusters are of the largest size.

THUNBERGIA ALATA

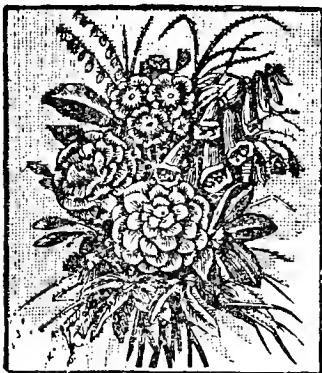

An Elegant Flowering Vine, Complete mixture 5 cts.

Thunbergia Alata

This vine is admirable for a trellis or summer house, or to cover any unsightly object. Its wealth of foliage and bloom elicits enthusiastic praise. Be sure to add **Thunbergia** to your order. Separate or mixed, 5 cts.

Vicia Gerardi, 4 ft. lovely climber, racemes of blue flowers. **Snowdrift**, 6 ft. a quick-growing beautiful climber; pretty foliage and superb white flowers in abundance. New. Elegant for a trellis screen or handsome low hedge.

Biennials and Perennials

IN THE following pages we offer and briefly describe the best hardy herbaceous perennials. These are often called the "Poor Man's Flowers", as when once established, most of them will last for years, withstanding the winter's cold, the summer's drought, and encroachments of grasses and weeds. Many of them are beautiful, and when blooming are the most attractive and admired flowers in the garden. They are not difficult to start from seeds, and are always a source of pleasure. Do not fail to start a fine bed of perennials this season. Of a few kinds, as *Dictamnus*, *Primula officinalis*, etc., the seeds will often lie dormant in the ground for a year; but most of them will germinate promptly, and the plants are easily transplanted. Mixture of perennials, 5 cents.

ACANTHUS Iusitanicus, (latifolius) 3 ft. broad glossy cut foliage; curious showy pale purple flowers in long spikes.
ACHILLEA Ageratum, 3 ft. heads of fragrant golden bloom.
Filipendulina, Parker's, 2 ft. robust; l'ge yolk-yellow heads.
Kelwayi, 3 ft. magenta red, showy, tenacious heads.
The Pearl, 2 ft. double white, fine; splendid for cutting.
ACONITUM Napellus, (Monkshood) 3 ft. dark blue; choice border plant like Larkspur; once started it retains its place; a fine perennial.
Lycototum, 3 ft. flowers yellow, erect spike-like racemes.
Fischeri, 4 ft. deep blue flowers, beautiful and attractive.
Uncinatum, 7 ft. deep blue, handsome native climbing sort.
Wilsonii, 8 ft. from China; tall, climbing; large blue flowers.
ADLUMIA, cirrhosa, vine, 20 ft. fine foliage, pink clusters.
ADONIS vernalis, 1 ft. large golden flowers in early spring.
AGROSTEMMA coronaria, 2 ft. showy phlox-like flowers: White, Violet, Blood-red and Bicolor, separate or mixed.
Floz Jovis, 1 ft. Jove's flower, rose clusters, charming.
Walkerii, 2 ft. a fine hybrid; brilliant rose-purple.
ALYSSUM argenteum, 2 ft. silvery foliage, golden bloom.
Rostratum, 1 ft. dwarf, compact, yellow, free flowering.
Saxatile compactum, 1 ft. Gold Dust, gold-flow'rd perennial.
ANCHUSA, 2 ft. rich blue, in short spikes, beautiful.
Dropmore, 5 ft. large pure Gentian blue; fine to cut.
Barrelieri, 3 ft. earliest, dwarf, dark blue; very handsome.
ANTHEMIS Nobilis, 1 ft. Chamomile, white, very handsome.
Kelwayi, 2 ft. flowers yellow and white, free-blooming.
Finctoria, 2 ft. Golden Marguerite; fine to cut.

ANTHERICUM liliastrum giganteum, 2 ft. flowers large, white, lily-like, free-blooming. A fine perennial; should be better known.
AETHIONEMA grandiflorum, 1 ft. rose flowers, long racemes.
ARABIS Alpina grandiflora, 1 ft. earliest of spring flowers; plants spreading and almost hidden with clusters of large, showy pure white cup-like bloom; very beautiful.
ARENARIA montana, 6 in. spreading, becoming a sheet of white bloom; long-blooming; a fine edging for dry soils.
ARMERIA formosa, 2 ft. Benary's fine hybrids, mixed colors.
Maritima rosea, 1 ft. cushions of lilac-rose in heads.
Splendens, 1 ft. bright rosy-magenta, beautiful and showy.
ARNICA montana, 1 ft. yellow flowers from tufted plants for border or rockery; rare and handsome.
ASCLEPIAS tuberosa, 1 ft. shades of orange and scarlet.
ASPERULA odorata, Sweet Woodruff, 1 ft. flowers snowy white in terminal corymbs. When dried, the branches impart a rich hay-like perfume to clothing and ward off insects.
ASPHODELUS luteus, 4 ft. yellow, fragrant flowers in long, dense, erect racemes at the summit of strong, leafy stems; the best sort; a desirable hardy perennial of the Lily family.
ASTILBE Davidii, 6 ft. bears long, graceful panicles of rosy-violet flowers; a rare, magnificent perennial.
AUBRIETIA, 6 in. spreading plants that form a sheet of early spring bloom; a beautiful hardy perennial. We have **Eyrü**, large blue, splendid. **Grandiflorus**, new large-flow'd **Graeca**, light blue, floriferous. **Purpurea**, violet hues; fine. The above in Complete Mixture, 5 cents.

AQUILEGIA, the Beautiful COLUMBINE

Aquilegia Coerulea

WE HAVE a splendid collection of these graceful, showy and beautiful perennials. All are hardy, easily grown, free-blooming, and greatly admired. Don't fail to start a bed of them this year. They delight in moist soil and partial shade. The Columbines are often called Honeysuckles, because their long spurs contain honey, and are frequently visited by humming birds and butterflies to obtain the treasured sweet. Some bear double flowers, but the long-spurred single kinds are really more graceful and beautiful. All are deserving of culture.

Alpina, 1ft. blue flowers 3 in. across, two or three on a stem; from Swiss Alps; likes shade; fine.

Superba, a new superb variety, deep blue and white in striking contrast; magnificent.

Baicalensis, 2ft. beautiful blue with snow-white corolla; a handsome and desirable Columbine.

Californica hybrida, 3ft. sepals and petals tinged orange, long, carmine-lake spurs; beautiful.

Canadensis, 1ft. old rose and golden yellow, nodding; very graceful; early spring; splendid.

Caryophylloides fl. pl. 2ft. beautiful striped varieties, the flower large and double, mixed, 5 c.

Chrysantha, 3ft. chrome yellow, long spurs, blooms all summer; one of our finest perennials.

Grandiflora alba, a sort with lovely large snow-white bloom; new and charming.

Double-flowered, a variety with large, double, golden yellow flowers; best of double Columbines.

Coerulea, 2ft. Rocky Mountain Columbine; sky blue with white corolla, one of our loveliest flowers.

Citrina, lemon yellow, long spurs. **Rose Queen**, rich rose, white corolla; **Double-flowered**, white, yellow and blue.

Erecta nana atrovioacea, 1ft. a choice double violet-blue sort.

Flabellata nana, 1ft. nodding pure white flowers; beds or pots.

Formosa, 2ft. large, double, blue flowers; nodding, graceful.

Glandulosa, 1ft. very large, nodding; lilac-blue, white tips.

Haylodgensis, 2ft. long-spurred hybrids, mixed colors.

Helenae, 2ft. large flowers, violet-blue with snowy corolla.

Hybrida monstrosa, 2ft. compact plant of fine double flowers.

Vernalis, 2ft. early; semi-double flowers, some long-spurred.

Jaetschaui, 3ft. large golden blooms with peach-red spurs.

Nivea grandiflora, 3ft. pure white, large, semi-double.

Olympica, 3ft. big blue flowers with lovely white corolla.

Scott Elliott's Long-spurred hybrids, mixed colors; splendid.

Siberica, 1ft. large, double; Blue, Rose, Red; sep. or mixed.

Skinnerii, 2ft. red spurs, yellowish corolla, free-blooming.

Stellata fl. pl. 3ft. double, erect flowers in abundance, mixed.

Truncata, 3ft. old rose with yellow; a very beautiful sort.

Vervaneana fl. pl. 3ft. rosy-lilac flowers, variegated foliage.

Vulgaris, 2ft. dbl. Alba, white; Rosea, rose; Striped; sep. mxd.

Our Special Mixture of Long-spurred Columbines, 5 cts.

Complete Special Mixture of all our choice Columbines, 5c.

ASTER alpinus, 1ft. beautiful, large, free-blooming, mixed.

Alpinus Goliath, 2ft. largest flowers, soft blue; handsome.

Amellus, 2ft. a fine large aster, mostly blue and rose shades.

Cassubicus grandiflorus, 2ft. large lavender-blue flowers.

Diplostephioides, sub-coeruleus, 1ft. large, light blue; very beautiful; does well in pots as well as beds; a fine variety.

Complete Mixture of all varieties, 5 cents.

ASTER Perennial, 3ft. large-flowered; splendid branching

plants that bloom the first season, and continue to make

a fine display every autumn for several years; mixed, 5c.

Snowflake, a hardy aster with large, pure white single flowers

Horizontalis, 3ft. large flowers upon horizontal branches.

BAPTISIA australis, 4ft. azure, pea-like flowers in racemes.

BOCCONIA cordata, 8ft. Plume Poppy, big panicles of chamois

flowers; very large, heart-shaped 7-lobed leaves; handsome.

Microcarpa, 9ft. amber buds, buff flowers; tall and showy.

Thunbergii, 7ft. flesh-colored buds, coffee-colored flowers,

red-veined foliage; one of the handsomest of Bocconias.

BUPHTHALMUM salicifolium, 2ft. composite, large yellow

heads, willow-like foliage; showy, hardy, ornamental perenn.

CATANANCHE coerulea, 3 ft. a fine perennial; flowers com-

posite, 2 inches across, borne on long stems; fine for cutting

and valuable as an everlasting; should be better known.

Bicolor, like Coerulea, but with pretty two-colored flowers.

CAMPANULA MEDIUM, Canterbury Bells

Complete Special Mixture of all Canterbury Bells, 5 cents.

The beauty of the Improved Canterbury Bell can hardly be excelled. The plants grow more than two feet high, are symmetrical, and become little pyramidal "trees" literally covered with the big exquisite bells, making a glorious display. The texture of the flowers is charming and the colors, white and blue and rose and purple, afford a display that surpasses many of the other garden beds. The plants are easily started and easily grown, and are always a source of extreme pleasure when in bloom. Do not forget them.

Canterbury Bell, Single-flowered, Pure White, Lilac, Deep Lilac, Rose, Rosy Carmine, Striped, and light Blue; separate or in well-proportioned mixture, 5 cents.

Canterbury Bell, Double-flowered, Blue, Pure White, Lilac, Deep Lilac, Rose, Rosy Carmine, Striated, Light Blue, Syringa Blue; separate or mixed, 5 cents.

Canterbury Bell, Cup and Saucer, (Calycanthemum) Blue, Pure White, Rose, Striped, Rosy Carmine, Lilacina and Deep Lilac; separate or mixed, 5 cents.

Praecox early flowering, 3ft. Blue, White, Rose, Striped; separate or mixed, 5 cts.

Complete Special Mixture of all Single, Double, Cup and Saucer and Early-flowering Campanulas, 5 cents.

PERENNIAL CAMPANULAS, the beautiful Bellflowers

Complete Special Mixture of Perennial Campanulas, 5 cents.

The Canterbury Bells are biennials, the plants developing the first year and blooming the second, then dying. Once

started, however, they will mostly renew the bed from self-sown seeds. But the following Campanulas or Bellflowers are

hardy perennials, and will retain their place in the garden for years. Many of these are particularly desirable perennials.

Alliariafolia, 2ft. white, rather broad bells with fringed edge.

Barbata, 1ft. tufted; azure, in loose racemes; rockery, June.

Carpatica, 1ft. large, open bells, vivid blue, long stems; fine.

Alba, like blue-flowered, but with pure white flowers. Both

Carpaticas are splendid plants for the rock garden; profuse.

Garganica, 6in. blue, open, drooping; fine for baskets; summer.

Grandis, 3ft. violet-blue, large, showy, broadly bell-shaped.

Latifolia alba, 2ft. large, funnel-shaped bells; free-bloom; beds

Maerantha, 3ft. blue, large flowers; fine for borders; also White.

Michauxioides, 5ft. azure, nodding flowers, showy in borders.

Mirabilis, 2ft. pyramidal; light blue, large bells; beautiful.

Persicifolia alba, 2ft. large, broad bells in racemes; splendid.

Coerulea grandiflora, 2ft. blue, very large, open bells; fine.

Fine Mixture of Persicifolia Campanulas, 5 cts.

Pyramidalis, Chimney Bell-flower, 5ft. charming lavender-

blue flowers, thickly set in a long erect raceme; fine for beds.

Alba, like the above but with white flowers; both splendid.

Compacta, 3ft. lovely blue; a splendid compact variety.

Alba, compact in habit like the blue; pure white flowers.

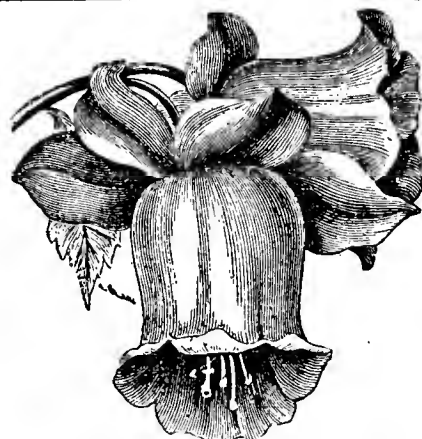

Fine Special Mixture of all the above Pyramidalis, 5 cts.

Rotundifolia, 1ft. deep blue bells, drooping; several to a stem.

Turbinata, 1ft. blue, open, large, showy; splendid for rockery.

Alba, a handsome white-flowered variety. Both splendid.

Campanula, Perennial sorts, mixed; Complete Mixture of all.

The beautiful Canterbury Bell Campanulas, 5 cents.

CARNATION, Hardy Garden

Complete Special Mixture of these fine Hardy Carnations, 5 cts.

THE HARDY CARNATIONS have been favorite flowers for centuries, and today they are as popular as ever. They have been greatly improved, the flowers now being mostly double, of large size and deliciously fragrant, being alike, desirable for garden or room decoration. The plants are easily grown from seeds, are hardy, and once established in a garden bed will last for several years. They show many fine colors.

CHABAUD, Perpetual Giant, the most desirable of Carnations, the flowers being of great size, fine form, rich and varied colors and deliciously fragrant. The seeds here offered are fine named varieties from a French specialist and are unsurpassed, the colors coming true from seeds, and giving 90 per cent of big double flowers. Pkt. 25 to 30 seeds, 5c.

Jeanne Dionis, pure snow white.

Reine Rose, cochineal carmine.

Marie Chabaud, sulphur yellow.

Magenta, vivid dark red.

La Perle, rosy mauve.

CHELONE Coccinea, 4 ft. allied to Pentstemon; very slender

scarlet tubular flowers in abundance; a fine perennial.

CIRSIIUM pulcherrimum, 3 ft. pretty thistle, large lilac fl's.

Velenowskyi, 3 ft. ornamental fl's; white changing to violet.

CLEMATIS corymbosa, 10 ft. flowers in corymbs; hardy peren'l.

Crispa, 4 ft. a slender vine; flowers nodding; pale lilac; rare.

Flammula, 20 ft. a slender, robust vine; panicles of pretty

Hardy Garden Carnations White, Dark Red, Rose, Scarlet, Violet, Pure Yellow, Yellow ground; separate or in splendid Special Mixture. This strain should not be confused with the Margaret Carnations offered by many seedsmen. There is nothing better.

HARDY BORDER Carnations and Picotees. A high-class strain saved by a French specialist; plants compact, free blooming, hardy; flowers full-double, richly scented and embracing the most brilliant and distinct hues and tints.

white, fragrant flowers freely borne from July till Oct.

Integrifolia, 2 ft., not a vine; flowers lavender blue, nodding.

Jackmanii, 10 ft. big purple fl's; profuse; hardy but "miffy".

Paniculata, 20 ft. white, fragrant fl's in great profusion; fine.

Recta, 5 ft. not a vine; sweet white fl's in dense corymbs.

Virginiana, 20 ft. flowers white, fragrant, panicle; pretty.

Vitalba, 20 ft. fl. white, almond scented; pretty robust vine.

Complete Special Mixture of Clematis, 5 cts.

CINERARIA Diamond, 1 ft. silvery foliage; yellow fl.; edging.

COLCHICUM autumnale, 1 ft. pretty rosy-lilac fl's. in autumn.

CONVOLVULUS altheoides, 5 ft. vine; fl. violet, 2 in. across, fine;

blooms continuously from June until October.

CORONILLA varia, 3 ft. fl's pink in dense umbels; support.

CRUCIANELLA stylosa, 1 ft. small pink tubular fl. in heads; fine

rock plant, blooms first season, but is a hardy lasting peren'l.

COREOPSIS grandiflora, 3 ft. a fine, everblooming perennial;

has long-stemmed golden flowers, showy in the garden,

and fine for cutting; rich and excellent for groups.

DELPHINIUM, the glorious Perennial Larkspur

Complete Special Mixture of Perennial Larkspurs, 5 cts.

These are among the finest of garden flowers. All are beautiful, free-blooming, and showy, the prevailing colors being exquisite rich shades of blue. They are, as a rule, easily grown, and last for years when once established. We offer the finest seeds obtainable. Separate or mixed, 5c.

Barlowii, 4 ft. large-flowered, navy blue.

Caucasicum, 5 ft. sky-blue, white center.

Elatum, large-fl. hybrids, 6 ft finest mixed.

Large-fl. hybrids, light blue shades, charming.

Dark blue shades in splendid mixture.

Nanum, 4 ft. Benary's new semi-dwarf varieties, mixed.

Staphysagria, 2 ft. dark blue, white eye,

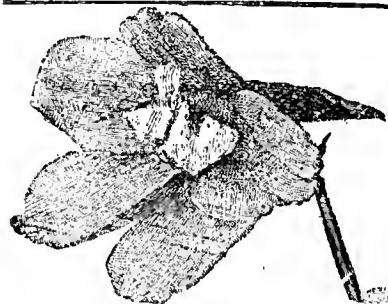

Truncatum, 5 ft. dark blue, showy flowers,

Zalil, 6 ft. fine yellow spikes; sow in fall,

Hybridum fl. pl. Benary's choice dbl. mix.

★ **Belladonna**, light and dark blue shades.

Fanny Stormouth, azure blue, large fls.

Flower of Delphinium

Formosum, 2 ft. dark blue, large, beautiful,

Sibericum, 2 ft. blue shades, large flowers,

★ **THE SHIRLEY**, considered the finest; 6 to 9 ft. tall, the stems thickly set with huge drooping

gloxinia-like flowers in all the colors ranging from white to deep rose; magnificent, 5 cts.

NOTE, Foxgloves are fine hardy biennials bearing showy and graceful bells of various colors and exquisite

variations. See engraving. The plants are easily grown from seeds, and are beautiful in beds or borders.

Often the display in the garden is kept up by voluntary seedlings. The new Shirley Foxglove developed by

Rev. Wilks is a great acquisition, the plants reaching the height of nine feet, under favorable conditions,

and displaying the lovely flowers in long, showy, erect racemes. Don't fail to try it.

The beautiful Foxgloves

HOLLYHOCK, Improved Double

Complete Special Mixture of Benary's and Vilmorin's choice Hollyhocks, 5 cts.

WE TAKE pleasure in offering the finest strain of Double Hollyhock, Chaters Improved. This fine strain, grown by Mr. Benary and called "Benary's Prize", is not surpassed, the flowers being very large, full-double, and richly fringed, while the colors are simply wonderful. We also have Vilmorin's Extra Fine Double Hollyhock, imported direct from the growers in Paris. Either of these splendid strains will please you. Get a mixed packet of each. Our mixtures are carefully prepared from our splendid varieties and will yield all the fine colors. Only 5 cts. a packet, separate or in well-proportioned mixture.

Uliginosum, 3ft. Ox-eye daisy; white and very floriferous.

LIGULARIA macrophylla, 4ft. yellow flowers in long, dense

spikes a large plant for sub-tropical gardening.

Kniphofia Plant

TWO RARE ORIENTAL POPPIES

I am pleased to offer two rare hardy Oriental Poppies, Album (Perry's White) and The Felt-ham Hybrids. The former is large white with a blotch at the base of each petal; the latter a new strain of large Poppies of various rich colors without spots. I have secured seeds of these from the most reliable growers, and offer packets of 100 new-crop seeds at 5 cts. I would say here, however, that Oriental Poppies do not all come true from seeds. The best we can do is to save seeds from true isolated plants, and trust to Providence for the results. These Poppies are splendid showy hardy Perennials, more showy than Tulips, and the foliage as attractive as that of Ferns. Directions for sowing are sent with each order.

GEO. W. PARK, Greenwood, S. C.

Bracteatum, 3 ft. glowing red, very large and showy.
Brilliant, 3 ft. vivid fiery red, very attractive.
Colosseum, 4 ft. giant, enormous flower, dazzling scarlet.
Apricot Queen, 3 ft. salmon or apricot color, charming.
Rembrandt, 3 ft. magnificent orange-scarlet, showy.
Princes Victoria Louise, 3 ft. magnificent salmon-pink.

LIATRIS spicata 2 ft. Blazing Star, purple fl's on long spikes.
LINARIA macedonica speciosa, 3 ft. large, snapdragon-like golden flowers in long spikes; sown early it blooms first year.
Cymbalaria, trailing; small, pretty foliage and flowers; fine to cover a bed in sun or shade a splendid basket or bracket-pot plant. Colors: Lilac, White; separate or mixed.
Cymb. globosa little globe-like plants covered with bloom; fine for pots and edgings, thrives in sun or shade; new.
LINDELPHIA spectabilis 2 ft. pretty blue fl's in terminal racemes, a handsome Boragewort of easy culture.
LINUM, Perennial Flax **Flavum**, bell-like transparent, golden fl's in branched heads. A very handsome Flax.
Lewisii, very beautiful corn-flower blue in racemes.
Narbonense, rich blue fl's in panicles; plant erect; showy.
Perenne, a mass of lovely fl's each day. **Blue White, Mixed**. Complete Mixture of Perennial Flax. 5 cts.

LUNARIA biennis, Honesty, 2 ft. very pretty fl's in panicles; phlox-like, appearing in spring; fl's succeeded by charming silvery seed vessels. We have all the varieties: Purple, White, Crimson, and Variegated-leaved; sep. or mixed, 5 cts.
Lunaria will bloom the first year if sown early.
LOBELIA cardinalis, 2 ft. the beautiful, native cardinal flower, one of our loveliest perennials; bright scarlet spikes; likes moist soil and partial shade; blooms throughout autumn.
Syphilitica, 2 ft. bushy; spikes of lovely blue flowers; likes moisture; blooms throughout autumn.

LUPINUS. The perennial Lupins are among the most showy and beautiful of perennials. The plants are tall, branch freely, and each branch shows a long spike of attractive flowers. The new hybrids are exceptionally handsome, and a bed of them should be in every garden. We offer

Arborea Aurea 5 ft. yellow; also White, sep. or mixed.
Golden Spire, 5 ft. new, long spikes; fl's rich golden yellow with purple; one of the most gorgeous and beautiful.

Douglasi superbus, violet-blue with white, fine spikes.
Excelsior, New Hybrids 3 ft. splendid, fine mixed colors.
Kelway's New Hybrids 3 ft. magnificent; splendid colors.
Elliot's Sweet-scented Hybrids, finest colors in mixture.

Polyphyllis varieties in special superb mixture, 5 cts.
 Complete Special Mixture of all perennial Lupins, 5 cts.

LYCHNIS chalcedonica, 3 ft. a beautiful perennial, blooming first season; deserves a place in every garden; flowers in heads like Sweet Wm., free-blooming, long-blooming, showy; rich scarlet; splendid for beds or groups in border.

Arckwrightii, 18 in. new, elegant hybrids in rich red colors; very fine in groups.

Haageana, 1 ft. large fl's; fine bright colors.
Viscaria splendens, 1 ft. German Catchfly, fine for beds; brilliant red, very showy;

Lychnis Flower blooms in May and June; easily grown.
 Complete Special Mixture of the above kinds of Lychnis, 5 cts.

LYTHRUM roseum superbum, 3 ft. long spikes of rosy bloom.

Salicaria, 3 ft. rich purple spikes; likes moist soil; fine
MALVA Alcea, 5 ft. a rare, handsome perennial, much like *M. Moschata*, but with large fl's; pretty rosy-purple color.

PAPAVER ORIENTALIS, Glorious Hybrids

Complete Special Mixture including Perry's New White Poppy, 5 cts.

AMONG THE most attractive of all Perennials are the Oriental Poppies. The flowers are larger and more showy than Darwin Tulips, show many rich colors from white to intense crimson as well as salmon and orange shades. Once started, a bed of them will last for years, and never fail to display their big brilliant waving flowers every summer. The foliage is almost as handsome as the coarser Ferns, and the many flower stems are strong, and hold their showy flowers three feet above the graceful foliage. The plants are easily started from seeds, and our seeds were saved by a skillful English florist. The rare varieties in rosy salmon and white are included in our special mixture. Be sure to add this glorious perennial to your order.

Mrs. Perry, 3 ft. orange-apricot, rare and handsome.

Queen Alexandra 3 ft. rosy-salmon with crimson spots.

Royal Scarlet, 3 ft. gigantic scarlet flowers

Benary's Finest German Mixed Hybrids, 5 cts.

Excelsior English Hybrids new from a choice collection.

Complete special mixture of fine English and German, 5c.

M. Moschata, 2 ft. branches and becomes a mass of large, cup-shaped flowers. Colors Pink, White, sep. or mixed, 5c.

MIMULUS cardinalis, 2 ft. large, gaping fl's, long stems, showy; cardinal scarlet fl's born freely the first season.

MARSH marigold, (*Caltha Palustris*), 6 in. a fine semi-aquatic; plants become globular mass of golden bloom in early spring.

MECONOPSIS cambrica, 1 ft. Welsh Poppy, a very showy and desirable peren'l for rock-work; large sulphur fl's.

MENYANTHES trifoliata, trails, Bog Bean, fl's purplish.

MONARDA hybrida, 8 ft. beautiful, easily grown, free-blooming plants; big heads of many hued flowers; splendid.

MORINA longifolia, 3 ft. pretty foliage; fl's pink tubes changing to lovely crimson, in whorls along leafy stems; showy.

MYOSOTIS palustris semperflorens, 1 ft. the charming Marsh Forget-me-not; fine big blue clusters all season.

OENOTHERA Fraseri, 2 ft. large, golden yellow; floriferous.

Odorata, 2 ft. large, yellow changing to red, sweet-scented; biennial, blooming freely in early spring.

OMPHALODES linifolia, 1 ft. a pretty biennial; fine racemes of white fl's. Sown in spring, it blooms in autumn.

ONOPORDON acanthium, 5 ft. Cotton Thistle, a bold, handsome plant with woolly branches, silvery foliage and purple fl's.

Tauricum, 7 ft. purple heads of bloom, foliage white, woolly.

OROBUS niger, 3 ft. Pea-like fl'r, purple on many-fl'd stems.

PAEONY, Chinese, finest d'ble from Prize collections, mixed. **Officinalis**, single, deep dark red, splendid.

PAPAVER pilosum, 2 ft. a showy perennial, bearing in summer large orange flowers, several on one stem, marked with a white spot at the base of each petal. Leaves serrated and both sides covered with white hairs.

PENTSTEMONS. On page 16 we offer the Gloxinia-flowered hybrids of *P. Hartwegii*, which bloom the first season, and are fine for bedding. On this page we offer the following beautiful kinds: **Cobea**, 18 inches, flowers white shaded purple, large and beautiful.

Gordoni splendens, 3 ft. The Gloxinia-flowered Pentstemon dark blue flowers on long erect spikes.

Hybridus graciella, 2 ft. small flowers in abundance; varied and handsome colors; one of the best peren'l Pentstemons.

Pulchellus hybridus, 2 ft. fls. bell-like in graceful spikes; colors pink purple, violet in many shades; excellent.

Southgate Gem, 18 in. a splendid bedding plant. When in Ireland we saw glorious borders of this crimson-scarlet Pentstemon in Phoenix Park, Dublin, and can vouch for its great beauty. We urge our friends to try it. 5c.

Complete special mixture of all our fine Pentstemons, 5c.

PHLOX, Perennial, **KELWAY'S New Hybrids**, 5 cts.

Note. We highly recommend Kelway's Improved Strain of Perennial Phlox. The flowers are large, of many splendid colors, borne in big panicles. These are splendid, showy perennials; fine for beds or borders. Plants increase into big clumps, and are from two to three feet high, blooming throughout the autumn. This Phlox is perfectly hardy and makes a magnificent display.

PRIMULA, Beautiful Hardy Kinds

Complete special mixture of hardy Primulas, 5 cts.

THE hardy Primroses are splendid perennials, mostly bloomig early in spring. The flowers are clustered, are charming in texture, varied and rich in color, and always make a fine display in the garden. They deserve to be better known. The plants are easily raised from seeds, but these are often tardy in germination, even when sown as soon as ripe. We urge our patrons to try hardy Primroses. They will afford a lot of pleasure, and be the talk of the neighborhood

Acaulis, grandiflora, 6 in. Blue, White, Mixed.
Auricula, 6 in. finest strain from prize flowers.
Beesiana, 1ft. glowing velvety purple with gold eye.
Briscoeii, 1 ft. a rare Primula.

ricolor; **Filamentosa**, silk grass; **Whipplei**; separate or mixed.

CHOICE SEEDS for the WINDOW GARDEN

We offer a fine collection of seeds for the Window Garden. It is hardly necessary to tell you that there is much pleasure as well as economy in growing your window plants from seeds. To watch and tend the little seedlings until they become blooming plants is always interesting, and they are more appreciated because of the personal care given them. So we urge our friends to sow liberally of these seeds in pots or protected beds. We especially recommend our seeds of Calceolaria, Cineraria, Carnation, Cyclamen, Geranium, Heliotrope, Lantana, Primrose, Solanum, Stock, Thunbergia, Verbena and Wallflower. These all do well in pots and bloom abundantly in a sunny window in summer or winter. All are easily raised from the dependable seeds we supply. We feel sure you will be delighted with the results obtained from our Window Garden seeds. Only 5 cts. a pkt.

ABRUS praecatorius, 15ft. Vine, Prayer Bean, as the seeds are used to make rosaries, being shining scarlet, very pretty; lovely foliage and handsome clusters of purple fls; also called weather plant, because its leaves indicate the future condition of the weather.

ABUTILON, Benary's Giant, 4ft. huge, bell-shaped fls in fine shades. Seedlings bloom within 6 months.

Hibiscus-flowered, large hibiscus-like fls of various shades; fine for pots; a splendid variety.

New Hybrids, from a fine collection of the best varieties.

Complete special mixture of all the above Abutilons, 5 cts.

Note. The Abutilons are elegant window-garden shrubs bearing graceful, bell-shaped, red, yellow and white fls. They grow 4 ft. high, branch freely and bloom abundantly and continuously. Easily grown.

ACACIA Arabica, 18ft. the source of Gum Arabic.

Dealbata, 5ft. Silver Wattle, fine foliage.

Decurrens, 5ft. Black Wattle, very floriferous.

Farnesiana, 8ft. blooms in early spring; yellow.

Julibrissin, 10ft. a hardy species of Albizzia.

Longifolia, 10ft. long-leaf Golden Wattle; golden flowers.

Lophanta speciosa, 5ft. an elegant pot plant.

Complete special mixture of Acacias, 5 cts.

AGAPANTHUS Umbellatus, 2 ft. an elegant large pot plant; bears fine blue bells in big clusters; likes partial shade; showy.

AGATHEA amelloides, 1ft. Paris Daisy, blue; for winter-bloom.

ANTIGONON leptopus, vine, 30ft. a splendid tuberous Southern vine, hardy with rotection north; fls rosy-carmine in big clusters, blooming all season.

ARISTOLOCHIA elegans, 8ft. a lovely vine, beautiful in both foliage and fls and easy to grow.

ASCLEPIAS curassavica, 2ft. fls red and gold; ever-blooming.

ASPARAGUS plumosus nanus, 2ft. a dwarf variety; fine for pots.

Plumosus robustus, 10ft. a window vine of great beauty.

Tenuissimus, 5ft. a rare and very beautiful pot plant.

Spinosus, 30ft. valuable for pillars and cut foliage.

Sprengeri, 6ft. Emerald Feather, a handsome window plant.

Verticillatus, 15ft. a pretty sort for out-door culture.

Special mixture of Asparagus, 5 cts.

BEGONIA gracilis, everblooming, 1ft. excellent for winter-blooming in the window; graceful, profuse-bloomer; mixed.

Luminosa, 1ft. bronze foliage, fiery scarlet fls; for beds, pots.

Gloire de Louveciennes, 1ft. white flushed rose; floriferous, late- and long-blooming; splendid for pot plant.

Semperflorens Bedding Queen, 1ft. giant-blooming, pink.

Compacta atropurpurea, 6in. purplish-carmine; fine bedder.

Flame of Love, 1ft. large, rich scarlet fls; green foliage.

Triumph, 1ft. lovely, large white fls, slightly flushed pink.

Vernon, 1ft. blood-red fls, bronze foliage; fine for beds.

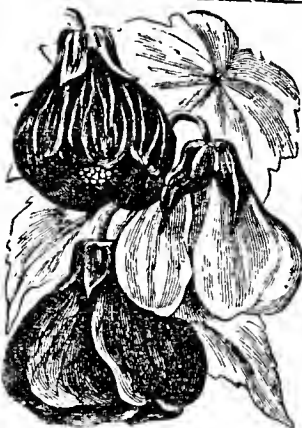

Erfordia grand. superba, 1ft. charming light rose; splendid.

Rosea, 1ft. charming rose, floriferous; good for beds.

Complete special mixture of Gracilis and Semperflorens.

Rex, finest of Begonias, from Benary's rich collection, 5 cts.

Note. All of the Fibrous-rooted Begonias we offer are especially handsome in plant and flower, and all are practically ever-blooming. All are easily grown from seeds, and the Gracilis varieties are particularly valuable for winter-blooming in the window. Cultural directions come with the seeds. Tuberous-rooted Begonias bloom in summer, and our seeds are the best obtainable, coming from Begonia specialists. Plants of both classes begin to bloom in autumn from spring sowing.

Graceful Abutilon blooms

BEGONIA, TUBEROUS-ROOTED

We have the best quality of Tuberous Begonia seeds that can be obtained. Kelway's of England make a specialty of these Begonias, and pride themselves in their collection. Their "Perfect Model" in both Single and Double, cannot be excelled, and their seeds are new and carefully saved. We cannot too highly recommend them.

Kelway's Perfect Model, Single, largest fls; best colors mixt.

Kelway's Perfect Model, Double, largest fls; best colors mixt.

Chrysanth. Single, yellow, lovely salmon-rose center.

Special mixture of Single and Double tuberous-rooted, 5 cts.

Calceolaria, Kelway's Perfect Model, without

exception the finest strain of Large-flowered Calceolarias in existence. The plants are of perfect habit, neither too tall nor too dwarf; the big flowers are well-rounded, of the most excellent colors and markings, and come in huge clusters. You'll marvel at the surpassing beauty of these glorious pot plants.

A window-full in bloom **Calceolaria Kelway's Perfect Model** will be a source of untold pleasure. Easily grown. Cultural directions come with the seeds. Finest mixture, 5 cts. Also **Grandiflora Tigrina**, 1ft. most beautiful, from Benary; mixed.

Pumila compacta, Benary's Dwarf, tigris and selfs.

Olympia, golden yellow, blotched brown; very showy.

Striata, new, striped; rare and beautiful.

Clihrani, Profusa, 2ft. small canary fls; very free-blooming.

Complete special mixture of Calceolarias, 5 cts.

CAMELLIA Japonica, double, Japanese Rose; charming shrub.

CENTROSEMA grandiflora, 6ft. pea-like vine, violet flowers.

Cineraria Grandiflora. The most showy and

beautiful of window plants; nothing in a plant window is so attractive, the flowers being large, exceedingly bright in color, and produced in elegant clusters, as indicated in the engraving.

Kelway's Perfect Model, the finest of all Cinerarias: just right in form for pot culture, and bearing in huge clusters, glorious flowers in size, color and striking variegations. Surpasses all other window plants in rich display. Easily grown; fine mixed.

Kelway's Pure White, also Kelway's Sky Blue.

Kelway's grand. Cineraria, Double, Perfect Model, mixed.

Stella, Kelway's Choicest Dwarf, fls cactus-shaped, and many showing a distinct white edge or center: a fine one.

Stellata, tall, fls star-shaped, rich colors. **Prose**: fine to see.

French Cinerarias. Vilmorins of Paris have developed an extraordinary strain of Cinerarias, and we are pleased to offer **Royal Blue**, **Antique Rose**, **Striped**, **White**, **Glowing Scarlet**, **Crimson**.

NOTE. Cinerarias are easily grown. The seeds start quickly, and the plants thrive in any good soil. It is necessary to sprinkle daily with tobacco stems or dust over the bed after sowing, to ward off **Aspid.**

CYCLAMEN Persicum Giganteum

Finest Known Strain, direct from France. Complete Special Mixture, 5 cts.

THE little engraving shows a plant of the beautiful, easily-grown CYCLAMEN Persicum, and I offer seeds of the finest known strain, grown by a French specialist. Seedling plants appear in a month after the seeds are sown, and begin to bloom in from 15 to 18 months, keeping up the display all winter. As a rule every seed will produce a fine plant, and a windowful of the different colors is a glorious sight. The leaves are often as beautifully blotched and veined as a choice foliage plant. I have all the fine colors, and offer them either separate or in complete mixture at 5 cts. a pkt. containing 8 seeds. Bright Rose, charming; Pure White, green leaved; White with carmine center; Salmon-rose, new, fine color; Carmine Red, very showy; Brilliant Rose with splendid red eye; Blood Red, beautiful. **Grandiflorum**, mixed colors; **Papilio**, fringed fls. mixed.

NOTE. Cyclamen Persicum is the finest of the many species. C. Persicum Giganteum bears the largest and finest flowers, and has the best marked foliage. Try this plant for your window.

Cyclamen Persicum Giganteum

BIGNONIA Tweediana, vine from Buenos Ayres, gold yellow.

CARNATION, for winter-blooming in pots in the widow; 1ft.

The plants stool out into clumps, and bear an abundance of large, very double, richly scented flowers of the most charming colors. White, Rose, Crimson, Scarlet, Yellow; sep. or mixed. Start the seeds in spring for winter-blooming.

Bimaculata, azure, white spots. Kennedy in splendid mixture.

LAVATERA arborea variegata, 5ft. an easily-grown pot plant. The older the plant the richer the

Coleus plant

Gloxinia in bloom

LANTANA, Improved Large-flowered

Complete Special Mixture of all colors, 5 cts.

Lantana for pots or beds

ONE of the good things for summer-blooming North and South is Lantana, especially in its improved varieties. The plants thrive in the hot sun, and bloom abundantly whether the weather is wet or dry. The flowers come in fine clusters, not unlike those of Verbena, and keep up a continuous display throughout the season, the colors being rich and distinct — white and yellow and rose and red in many shades. Each seed contains several germs, and will mostly produce more than one plant. The new Dwarf race is excellent for beds and also thrives in pots. Chip the seeds or soak them in warm water for 24 hours to promote prompt germination. We offer the best seeds or nutlets. Started early the plants bloom freely the first season, and are not difficult to keep over winter.

Choice New Hybrids, 30in. very fine colors mx. **Alba grandiflora**, large-fl'wd white, beautiful. **Roides Rouges**, deep red or scarlet; showy. **Nana Compacta**, 1ft. fine for pots and beds; mx Complete Special Mixture of all varieties of Lantana, 5 cts.

LISIANTHUS Russelianus, 2ft. large deep purple flowers.
LINARIA, Kenilworth Ivy, trailer; a hardy perennial, fine for baskets and rock-work; thrives in a dense shade and is of easy culture; flowers lilac. **Compacta alba**, white; **Globosa**, globular, 6in. See page 12.
MANDEVILLEA Suaveolens, a robust shrubby vine, almost hardy, bearing freely large, very fragrant fls; beautiful.
MEDEOLA Asparagoides, Smilax Vine, a near relative of Asparagus, with very handsome shining foliage; pretty on a pot trellis and fine to cut. A desirable house plant. See eng. Myrtitolia, "Baby" Smilax, small in leaf and vine.
MELIANTHUS major, 7ft. Honey Flower, pretty foliage.
MIMOSA pudica, 2ft. Sensitive Plant, lovely foliage and pink flowers; a good pot plant and fine winter-bloomer. See eng. Spigazzina, Tree Sensitive Plant; shrubby kind.
MIMULUS Tigrinus, 1ft. Queen's Prize, a very beautiful pot plant; likes moist, sandy soil and partial shade; exquisite large flowers of charming colors. See engraving.
Moschatus, 6in. Musk Plant, fls yellow dotted brown.
MUSA Ensete, 5ft. Banana Plant, showy tropical foliage.
NERIUM Oleander, 10ft. lovely flowering shrub; mixed colors.
PELARGONIUM, Fancy and Spotted, large flowers richly marked; called Pansy Geranium. Pkt. contains 3 seeds.
Odier Blotched, large, blotched, handsome. 3 seeds per pkt.
Grandiflorum, large flowered, mixed. 3 seeds per pkt.
Hederafolium, Single Ivy-leaved, mixed. 3 seeds per pkt.
Double Ivy-leaved, seeds scarce. 3 seeds per pkt.
Odoratissimum, Apple-scented, fine.
Zonale, Geranium, fino mixed. 15 seeds.
Extra Choice Mixed, seeds scarce. 8 seeds.
Double, newest large-flowered, finest mixed. 7 seeds.
Silver-leaf, scarlet, with white variegated leaves. 3 seeds.
Gold and Bronze-leaved, variegated. 3 seeds per pkt.
Note. We especially recommend our seeds of Zonale Geranium; they will produce fine plants and handsome clusters of bloom. The plants are easily started from seeds.

NICOTIANA glauca, 9ft. glaucous foliage, yellow flowers.
OXALIS floribunda, 9in. White; also Rose, sep. or mixed.
PASSIFLORA alba, vine, flowers large, magnificent.
Coerulea, exquisite blue, hardy South; very handsome.
Eduilis, blue and white; fruits edible; splendid.
Gracilis, neat graceful plant; flowers white striped blue.
Superb special mixture of all the above, 5 cts.

Mimulus, Queen's Prize

Mimosa pudica

Medeola, Smilax

PETUNIAS. These are among the most useful of flowers for pots or beds. They bloom freely all summer, defying all kinds of weather, and the flowers are charming in color, very showy, revel in any situation, and make the evening air redolent with perfume. If started in mid-summer the plants also brighten the sunny plant window the entire winter. We especially recommend the following choice dwarf Petunias for pots and beds:
Rose of Heaven, 1ft. fiery rose, fine for both pots and beds; one of the most beautiful and desirable of Petunias.
Snowball, 1ft. pure white, showing a wealth of lovely bloom.
Norma, 1ft. distinct rich blue with central white star.
Erfordia, 1ft. dense, profuse, lovely rose, white throat.
Inimitable, 1ft. a choice mixture of finest spotted sorts.
Complete Special Mixture of the above, 5 cts. See also p. 15.
PHYSIANTHUS albens, vine, white, red-tinged flowers.
PITTOSPORUM undulatum, 6ft. evergreen; white, fragrant flowers in clusters; defies a salt-spray.
POINSETTIA pulcherrima, 3ft. the beautiful popular scarlet Christmas flower. Seedlings started in Spring bloom the next Christmas.
POINCIANA Gillesii, 3ft. a glorious-blooming pot plant.
Pulcherrima, 3ft. flowers orange, (Flower Fence).

PRIMULA Obconica, Benary's Giant Strain

Complete Special Mixture, 5 cts.

PPRIMULA OBCONICA has been greatly improved since it was introduced from central China some years ago. The plants are now free-blooming, and the flowers so large and full and varied in color that they rival the best of the old Chinese varieties. A windowful of these Primroses in bloom is a glorious spectacle, and never fails to elicit enthusiastic admiration and praise. The plants are as easily grown and cared for as those of Primula Sinensis, and afford just as much pleasure and satisfaction. We offer a very superior strain of seeds, and send cultural directions with them, which will insure success. See eng.

GIGANTEA, 1ft. Lilac. **Apple Blossom**, pink. **Coerulea**, fine blue.
Kermesina, crimson. **Lilacina**, deep lilac. **Rosea**, superb rose.
Salmon Queen, new. **Sanguinea**, deep red. **Fire Queen**, fire red.
Pure White, fine. **Hamburgia**, deep rose. **Fringed Giant**, Mixed.

NOTE. When in Germany at Mr Benary's establishment I was being shown through the greenhouses when a door was opened into a long house of Primroses, each plant bearing many graceful clusters of exquisite big flowers of various fine colors, as large as those of the Chinese Primrose. I did not recognize Primula Obconica in this giant form, and when informed that the plants were of Benary's Improved Giant-flowered Obconica I was amazed and at once became enthusiastic over its beauty. I am pleased indeed to offer our friends seeds of these grand Primula Obconica direct from Mr. Benary, saved in his greenhouses from his splendid collection of improved varieties, and sunnily the seeds in the separate colors or in mixture. These Primroses cannot be too highly praised. They are more easily grown than Chinese Primroses, and will yield unbounded satisfaction. Be sure to order some of these fine Primroses. Geo. W. Park.

Primula Obconica in bloom

Park's Seeds Always Dependable

Park's Seeds are always fresh and dependable. You get no old or worthless seeds from Park. They're fully guaranteed, sure to grow, sure of best results. You're always pleased, for your pleasure is more to Park than your money. A trial will attest these facts. Read what patrons say:

Kniphofia. Dear Mr. Park: I have 18 fine plants from your Kniphofia seeds. Every seed in the packet grew. The Yuccas, Primroses and other seeds were good. Mrs. W. J. Huggins, Benton Co., Org. 1931.

Cineraria. Dear Mr. Park: My first planting was a third packet of Cineraria. I sowed the seeds over sifted soil placed on a brick, pressing them in with a knife-blade, then placed the brick in a pan of water. In four days I think every seed was up. Your seeds are certainly full of life. Mrs. A. Hardwick, Sarpy, Neb.

Pansies. Dear Mr. Park: The Roggli Pansies I bought of you were superb, some nearly 4 in. across. The colors were wonderful, such rich shades and variegations. Mrs. Alice Corbett, Wood Co., W. Va.

Fertile Seeds. Dear Mr. Park: The 50 packets of seeds reached me in good season, and every packet I have tried has proved to contain fertile seeds. Mrs. Ethel. M. True, Oxford Co., Me., Apr. 20, 1931.

Gloxinias. Dear Mr. Park: I have 42 Gloxinias from the packet of seeds received from you. The Cyclamen are beginning to appear. Mrs. M. C. Holden, Rutland Co., Vt., June 26, 1931.

From GEO. W. PARK, Greenwood, S. C., you get the best seeds, and at hard times, pre-war prices.

Listen!

IF everybody had "Live and Let-live" Prices for Goods and Labor there would be no "Hard Times".

Everybody would be busy, everybody contented, money plentiful, and happiness would prevail. It is selfish laws, profiteering greed that are causing distress to the masses.

But Park's Flower Book offers seed-relief. It offers the Best Seeds, all kinds, at "Live and Let-live" Prices. See its offers, its notes from pleased patrons, then order your seeds. All packets 5c. Tell your friends. GEO. W. PARK, Greenwood, S. C.

DOUBLE PETUNIA
Superbissima 5cts.

Names of Flower-Lovers

When sending in your seed order please fill the space below with names of friends who grow flowers and buy seeds. I will be pleased to send them copies of my Flower Book, etc. For this favor I will add two packets of flower seeds, my selection of choice and beautiful varieties such as will please you. Your order must come with this list if you wish the extra seeds.

GEO. W. PARK.

CHINESE PRIMROSE, Giant Fringed

Complete Special Mixture, 5 cts.

WE all agree that the Primroses are the most desirable of all plants for general window culture. They start readily from seeds, come into bloom in a few months, and are sure to bloom freely in the window in winter. Some window gardeners make them a specialty and have a glorious window display of them when all without is bleak and bare and frigid. The Chinese Primrose (see eng.), is simply indescribable in foliage and flowers, and we are delighted to offer seeds of the finest known strain. They are positively unexcelled in quality, and will yield for you the very best results. Full cultural directions are sent with the seeds.

Lady Randolph Churchill, pure white. **Marquis of Lorne**, rose, charming. **Blue**, lovely flowers, green foliage. **Pale Pink**, an exquisite color. **Crimson**, a rich color of Vilmorin's. **Glittering Red**, rich and beautiful. **Emperor**, splendid copper color. **Soleil d'Empoi**, pure white, gold eye. **Reddish Magenta**, new, fine. **Superb special mixture of all colors.**

NOTE. I do not know where nor how to get better seeds of Chinese Primrose than what we offer above. Our seeds were all saved by a French Primrose Specialist from his best giant-flowered plants, and from the finest brightest colors. They cannot but delight those who grow them. We challenge comparison with any other strain, as we think we have absolutely the best Primroses that can be produced. Only 5 cents for a packet of 15 seeds. The seeds germinate in about three weeks. Geo. W. Park.

Fringed Chinese Primrose

Other Choice Fringed Chinese Primroses

Complete Special Mixture, 5 cents.

Filicifolia, Fern-leaved, **White**, **Crimson**, and **Lilac with white margin**; separate or in mixture, 5 cents. **Macrophylla** (Fernleaved) **Gigantea**, the magnificent large-flowered class, in all fine colors mixed. Unsurpassed strain. **Alba Magnifica**, very large white flowers, yellow eye. **Coerulea**, magnificent light blue. **Duchess Hybrids**, various rich colors with dark center. **Striata**, white striped carmine-mauve. **Morgenrote**, beautiful flesh color; rare. **Sedina**, brilliant dazzling red; fine. **Defiance**, carmine red with brown eye. **Coccinea**, rich scarlet, handsomely fringed. **The Duchess**, white with big bright carmine center. **Above Choice Chinese Primroses mixed**, 5 cents.

Finest Star Chinese Primroses

Complete Special Mixture, 5 cents.

These are splendid winter-blooming Primroses of easier

PRIMULA Floribunda grandiflora, 1 ft. an improved variety bearing beautiful yellow flowers, an excellent winter-bloomer, rare, showy, and keeping in bloom for a long period. Easily grown from seeds. 5 cents. **Forbesi**, 1 ft. Baby Primrose, a lovely little Primrose, blooming in three months after sowing; free-blooming, graceful, beautiful; lilac flowers in abundant clusters. **Kewensis**, 1 ft. a new hybrid; splendid foliage and large golden yellow flowers; a choice winter-bloomer. **Malacoides**, 1 ft. an enlarged Forbesi, blooms in four months; lilac flowers in large clusters; blooms in summer and winter. **RELMANNIA angulata**, 2 ft. large, free-blooming; rose shades with rich yellow throat spotted purple; half-hardy perennial. **RHODOCHITON volubile**, vine, purple-rose flowers with dark crimson corolla; free-blooming, showy. **RHYNCHOSPERMUM Jasminoides**, variegated foliage. **RIVINA humilis**, 2 ft. white flowers and showy scarlet berries. **ROCHEA falcata**, fine succulent; beautiful scarlet flowers. **SAINTPAULIA ionantha grandiflora**, 4 in. Usambara Violet; deep blue, long-blooming; seeds very small. **SANTOLINA tomentosa**, 1 ft. silvery foliage; yellow flowers. **SALVIA patens**, 3 ft. exquisite navy-blue flowers. **SAXIFRAGA sarmentosa**, 1 ft. very fine for baskets. **SOLANUM capsicastrum**, 2 ft. small red fruits; for pots. **Pseudocapsicum**, 3 ft. Jerusalem Cherry; for pots. **Sealorthianum**, a lovely blooming vine; blue clusters. **STATICE macrophylla**, 2 ft. dark blue; fine for pots. **STEPHANOPHYSUM longifolium**, 2 ft. scarlet; long-blooming. **STREPTOSOLEN Jamesoni**, 4 ft. orange flowers in clusters. **STEPHANOTIS floribunda**, vine, large, white, sweet flowers. **STREPTOCARPUS**, Cape Primrose, 1 ft. various hybrids mixed. **SUTHERLANDIA frutescens**, 3 ft. scarlet flowers in racemes. **SWAINSONIA**, 3 ft. Pea-like racemes, profuse; mixed sorts. **TACSONIA Exoniensis**, a lovely vine; red flowers. **TACOMA Smithii**, 6 in. yellow, free- and winter-blooming. **TETRANEMA**, Mexican Foxglove, 1 ft. pot plant; blue bells. **THEA Sinensis**, 6 ft. Tea bearing; white, fragrant.

culture than the Fringed varieties. The flowers are plain, of many fine colors, and borne in handsome umbels. If you have never grown Primroses from seeds these are recommended. Some people prefer them to the highly developed kinds. **Snow Star**, snow white. **Carnation-flaked**, striped. **White Queen**, large, fine. **Pink Star**, very pretty. **Light Blue**, lovely. **Giant Carmine**, bronze leaf. **Dark Blue**, splendid. **Lord Roberts Star**, fiery red. **Duchess Star**, white, red eye. **Ruby Star**, blood red. These fine varieties separate 5 cts. or all mixed 5 cts.

Double Chinese Primroses

Complete Special Mixture, 5 cents.

The Double Chinese Primroses are showy and beautiful pot plants for the window in winter, and we offer choice seeds saved by Kelway that can be depended upon for splendid flowers. We have the following colors: **Pure White**, **Striped**, **Pale Pink**, **Bright Red**; and **Kelways Mixed**. Separate or mixed, 5 cents per packet of 15 seeds.

TROPAEOLUM Speciosum, vine, scarlet, splendid. **Minus**, 1 ft. small orange flowers tinged red; for pots. **Coccineus**, small scarlet flowers; pretty pot plant. **TYDAEA Grandiflora**, Gesneraceae, from a splendid collection. **VERBENA Citriodora**, Lemon Verbena, very sweet foliage. **Veronica**, lovely fls of various colors in terminal spikes.

The Best Wallflowers

Wallflowers are beautiful plants suitable for the garden in a mild climate, or for pots at the severe north. The flowers are large, rich in color and delightfully fragrant, borne in big upright racemes, and very showy. Easily grown from seeds. We offer the finest varieties as follows:

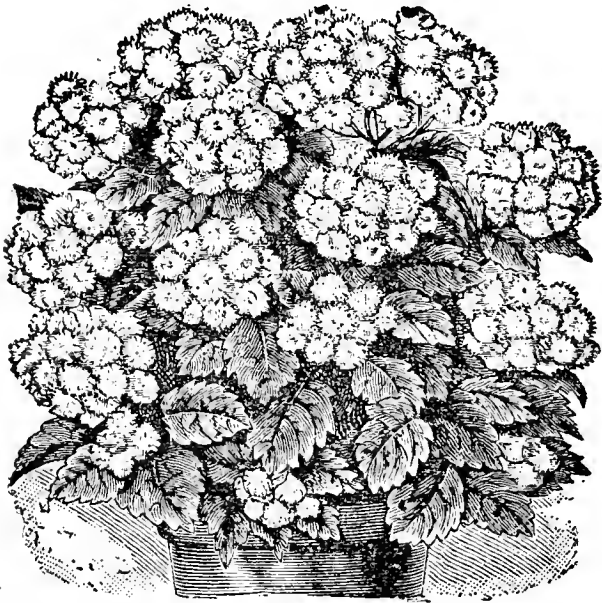

Eastern Queen, clear chamois. **Primrose Monarch**, fine. **Feltham Early**, red-brown. **Vulcan**, velvety crimson. **Golden Monarch**, large, golden. **White Dame**, creamy white. Complete Special Mixture of all these fine Wallflowers, 5 cts.

We also offer the following **Window Garden Seeds**: **Achimenes**, finest mixed. **Isoloma multiflorum**, mixed. **Agave Americana**, Century pl. **Lapageria rosea**, vine, waxy fl. **Ferns mixed** for the window. **Mackaya bella**, lilac bell fls. **Genista monosperma**, white. **Palms**: **Brahea filamentosa**, **Canariensis**, yellow, profuse. **Pritchardia filamentosa**, **Gloxinia Imperialis**, Sinningia; **tania Borbonica**, **Chamærops elegant large-fl Emperor mx.** **excelsa**, **Phoenix canariensis**, **Indigofera tinctoria**, fls pink. **Washingtonia**, sep. or mixed.

A PAGE OF GOOD THINGS.

An Everblooming Bedding Plant.

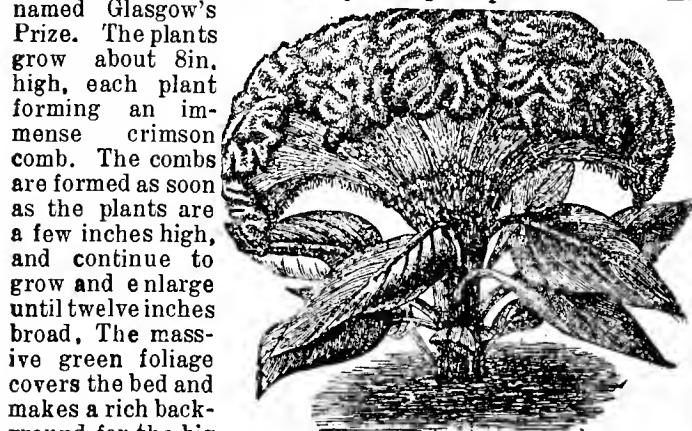

One of the good plants of easy culture that blooms freely from early summer till cold weather is Ageratum, and the improved compact form of Ageratum Imperialis is all that could be desired for a handsome showy bed, or for a border to a bed of taller plants. It grows six to eight inches high bearing a mass of big blue clusters, thus forming a sheet of exquisite color throughout the season. There is a white-flowered variety that is excellent for borders. Both are easily grown from seeds which can be started in a box or hotbed for early plants, or in the garden for later blooming. Per packet of about 300 seeds either color, 5 cts.

A Beautiful Aster.

A beautiful big Single-flowered Aster that has become very popular in England for a large showy bed and also for cutting for house decoration is Southcote Beauty. The flowers are like an immense Ostrich-feather Aster, the petals long and fluffy, and the golden center small. They come in many different bright colors, and for a big showy autumn bed they can hardly be surpassed. The most attractive of the varieties is Scarlet, and this color I can supply in packets of 200 seeds at 5 cts. The plants grow two feet high, branch freely, and bear the flowers on long stems in great profusion. Set 8 in. apart. They remain a long time in bloom, and a bed of them makes a glorious display. The bed can be edged with the New Mauve Beauty, the loveliest color of which the Aster is capable. Scarlet also Mauve or all colors mixed 5 cts.

For a Showy Constant Bed

If you want a showy bed that will keep bright from early summer till destroyed by frost get a packet of Coxcomb

named Glasgow's Prize. The plants grow about 8 in. high, each plant forming an immense crimson comb. The combs are formed as soon as the plants are a few inches high, and continue to grow and enlarge until twelve inches broad. The massive green foliage covers the bed and makes a rich background for the big crimson combs. The bed can be bordered with Sweet Alyssum, which is constantly in bloom. Packets of 60 seeds 5 cts.

Dr. Badgers Hybrid Schizanthus

Among the many good things offered without description in this Flower Book is Dr. Badgers Large-flowered Schizanthus. I am pleased to offer this splendid strain of Schizanthus. It was developed by Dr. Badger from the already improved hybrids of *S. grandiflorus maximus*, and is extraordinary, being a foot high, of compact pyramidal habit, and bearing a profusion of large flowers in many bright, varied and beautiful colors. Grown in masses the plants make a fine display in beds, and in pots they rival the more delicate *Wisetonensis*. Their surpassing beauty and the ease with which they may be grown recommends this Schizanthus to all who want a chaste, handsome and easily managed annual either for beds or pots. 100 seeds 5 cts.

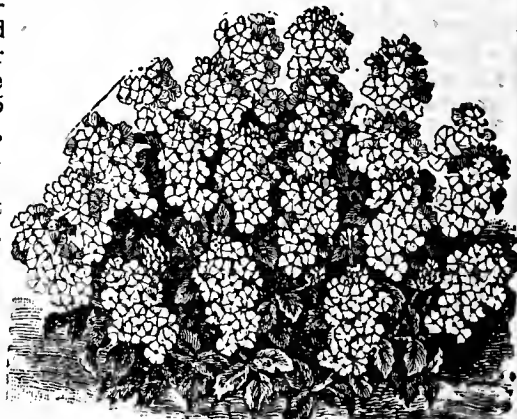

★ Right here I would call your attention to New Dwarf Hybrids of *Schizanthus grandiflorus*, dwarf and compact, showing lovely red shades; charming in an out-door bed. Price 5 cts. Also I can supply seeds of Benary's improved strain of *S. Wisetonensis*—superb long and profuse-blooming hybrids in many splendid shades, excellent pot and market plants, the seeds gathered from carefully selected pot-grown plants. 5 cts.

A Glorious Orange Flower.

Cheiranthus Allioni is perhaps the most attractive of orange-colored flowers for beds or groups. Plants are readily grown from seeds, and if started early will bloom freely throughout summer and autumn, making a blaze of rich orange

color that cannot be equalled by any other flower.

The plants grow 15 inches high, branching and covering the bed when set 5 inches apart. If sown in September in protected beds and transplanted in early Spring the plants will make a fine display throughout the season. The flowers come in fine clusters at tips of the branches, and can be used for cutting if desired. A lovely companion for this is *Cheiranthus linifolius*, which bears lilac-mauve flowers, grows a foot high, and can be used as a border. It is treated the same way. 40 seeds of either, 5 cts. I particularly recommend these flowers. They are rare, and have a striking appearance when grouped together.

The Roggli Race of Improved Swiss Pansies here offered is the "last word" in mammoth Pansies. The spots and stripes and blotches and edgings in rare combinations of bronze and scarlet and salmon and gold have not heretofore been approached in any other strain, and when the superior beauty of these Pansies is known they will become immensely popular. The plants start readily from seeds, are dense and leafy, and the big flowers are amply borne well above and are the more showy and beautiful because of the rich green back-ground. You'll miss a good thing if you fail to add this Pansy to your order.

The New Swiss Race of Giant Pansies has produced a sensation among Pansy enthusiasts because of their enormous size, full and pleasing form, exquisite, rare tints, striking variegations, and free, continuous blooming. I offer this grand novelty with entire confidence that it will more than please all of my friends who try it. The seeds are priced practically at cost in order to encourage orders. Don't miss this big bargain in a glorious Pansy Novelty. A bed of blooming plants of this grand Pansy will be a revelation to yourself as well as to your friends who see it, and will be the talk of the entire neighborhood. It is simply unapproachable.

ROGGLI'S IMPROVED SWISS GIANT PANSIES

I HAVE the great pleasure of offering to my thousands of friends choice seeds of Roggli's Improved Swiss Giant Pansies, the latest and by far the best strain of Pansies thus far known. The plants are of vigorous compact growth, clothed with rich green foliage, above which the enormous shape-ly flowers borne on long stems appear. The flowers are particularly striking because of their circular form, and the broad undulating petals, which overlap and give the flowers a duplex or double appearance. The colors and variegations are unusually varied, and a bed of blooming plants is wonderfully showy and surpassingly beautiful. The seeds I offer were grown by a European specialist who saved them only from carefully selected plants, and can be depended upon for the highest quality and vitality. If you want something especially good in Pansies get seeds of this glorious new strain. The results will surprise you. Packet of 30 seeds only 5cts.

Tardy Germination. As a rule the seeds of annuals usually germinate promptly. Sweet Alyssum, Asters, Zinnias and Balsams show plants in from 3 to 8 days after they are planted, and some of the perennials and even of Shrubs and Trees germinate in 2 or 3 weeks, while others require 2 or 3 months, and some 2 or 3 years. Perennial Phlox is usually dormant till Spring, as also Delphinium Zalil, Echinocystis Lobata, Gentiana, Clematis Jackmanii, Paeony Sinensis, Polygonum Orientale, etc.

Mammoth Queen Verbenas

VERBENAS have been given special attention by growers recently, and the old-fashioned kinds have been greatly out-stripped by the newer ones now being introduced. The clusters are not only larger, the flowers of monstrous size, the colors richer and more varied, but the habit and free-blooming qualities of the plants have been improved, so that a bed of Verbenas of the newer sorts is a source of wonder and admiration. Perhaps the finest of these are the new Queen varieties, which embrace the leading colors and variegations. They are worthy of special favor.

Snow Queen, a grand variety, the giant snow white flowers freely produced in big clusters. 5c.

Rose Queen, lovely soft rose flowers of great size borne in magnificent heads, 5c.

Scarlet Queen, huge vivid scarlet flowers with large white eye; fine for beds, 5c.

Salmon Queen, large trusses of bright salmon-rose flowers with white eye, 5c.

Aurieula Queen, immense flowers and clusters of various colors with large distinct eyes, 5cts.

Superb mixture of all the above sorts 5cts.

The seeds of Verbenas usually germinate in less than two weeks, and the plants begin to bloom when quite young. Set 18in. apart they soon cover the bed, and make a fine display until winter. They like a sunny situation and good soil.

Some Fine Pot Plants. The choice large-flowered hybrids of Calceolaria and Cineraria are splendid winter-

blooming window plants, and easily grown from seeds. See page 28. Our seeds are of Kelways Perfect Model, and none are better. We have also Benary's Fine German Strain of Calceolarias, and Vilmorin's French Strain. We handle only the best. There is nothing cheap about any of our seeds but the price. We would also call special attention to our Giant Cyclamen, page 29, grown by the famous French firm of Vilmorin, and also Giant Fringed Primrose grown by the same firm, pages 29 and 31. All our seeds are fresh and can be depended upon for vitality as well as quality. Only 5 cents a packet.

Sweet Williams. These are old-fashioned flowers greatly improved, and among the most beautiful of perennials. The flowers are large, well-formed, superbly colored, and are produced in big clusters not unlike the one shown in the little engraving. They are among the most satisfactory of hardy plants for beds and borders, and anyone can grow them. See page 27. We prefer the exquisite single-flowered kinds, but can also supply the double ones. When ordering don't forget the Sweet Williams, of which we have extra-quality seeds.

Sweet Peas. Our Spencers are unexcelled. See page 21. The varieties offered were lately selected by a committee of the National Sweet Pea Society of England as the finest Spencer Sweet Peas of their color. You cannot err in getting them.

Calceolaria Cineraria

Sweet William

Bedding Plants. For beds and borders it is desirable to have plants that grow about the same height and bloom freely and continuously for weeks. If you want a spring display you must use hardy annuals that can be sown in autumn, say during August or September, before winter. Among the best for this purpose are the following: Cheiranthus Allioni, Caliopis Crimson King, Beauty and Grandiflora, Candytuft umbellata white and Coronaria Hyacinth flowered, Double Clarkia, Eschscholtzia (in a mild climate), Erysimum compactum, Dwarf Larkspur, Myosotis victoria, Nemophila, Papaver Umbrosum and Shirley, Saponaria multiflora, Double Silene pendula, etc. Most of these grow from nine inches to a foot or more

high, and are generally satisfactory in masses. Avoid crowding, as this often causes the plants to damp off in wet weather, and when close they do not have room to develop. For Summer and Autumn Beds you can start seeds in a bed or box and transplant. Use Bedding Antirrhinum, Alyssum, Asters, Balsams, Annual Chrysanthemum, Celosia, Cosmea, Butterfly Delphinium, Chinese Dianthus, Godetia, Gaillardia, Lobelia, Lavatera, Marigolds, Nemesis, Nicotiana, Dwarf Nasturtiums, Pansies, Petunias, Phlox, Pentstemon, Portulaca, Salpiglossis, Salvia, Vinca, Ten Weeks Stock, Scabiosa, Verbena and Zinnia.

Drooping Flowers. For Hanging Baskets and Window Boxes use Sweet Alyssum, Lobelia, Linaria Cymbalaria, Balcony Petunias, Schizanthus, Cardiospermum, Maurandya, Thunbergia alata, Smilax, and Asparagus Sprengeri.

★★**Please Notice**, that where a star appears it indicates something that we consider of special merit worth trying.

LILIES. Mr. Park: Years ago I took your dear little Floral Magazine and always enjoyed your interesting letters as well as those of contributors. I began in 1891 and preserved the copies, and when I have plant trouble I usually find a remedy in my Floral Magazine. Although 81 years old I am still growing flowers. I have Regal Lilies now in bloom, the plants of which I raised from seeds sown last year. I have hundreds of seedlings of this Lily now. I make a specialty of Lilies and Paeonies which I sell and use all the money for religious and charitable purposes. I shall be glad to hand copies of your Flower Book to my flower-loving friends if you will send me a few.

CARNATIONS. Mr. Park: My Carnations from your seeds are a surprise to everybody. I have them in a hanging basket, and the branches are now 3ft. long and still nice--just covered with lovely, fragrant double flowers of all shades from white to crimson. Mrs. Viola M. Simpson, Bates Co., Mo., Oct. 20.

PRIMROSES. Mr. Park: I surely enjoyed the flowers I raised from your seeds. I have a dozen Primroses now coming into bloom after giving as many away. W. A. London, Columbiana, Ohio, Dec. 3.

ZINNIAS. Mr. Park: I want to tell you that the Zinnias grown from your seeds won First Prize at our Pitt County Fair. They were Wonderful Zinnias. Mrs. Oscar Tucker, Pitt Co., N. C., Nov. 20.

PETUNIAS. Mr. Park: I wish to tell you about my beautiful Petunias raised from your seeds. The Kelway Giant Petunias were wonderful and people would say "Where did you get the seeds? My Petunias are nice but nothing like these". My plants bloomed all summer and I put some in pots in autumn and they are now blooming in the house. Miss Zada E. Scott, Appanoose County, Iowa, Oct. 29.

DOUBLE PETUNIAS. Mr. Park: My Double Petunias were grand, but bloomed to death. Mrs. Simpson, Bates Co., Mo.

FLOWERS OF PARK'S PRIZE CAMELLIA-FLOWERED BALSAM

Double Balsams—Best of Annuals for Beds and Pots

The Improved Camellia-flowered Balsam is one of the most beautiful, showy and satisfactory of annuals either for beds or pots. The plants are readily started, begin blooming early and continue for months. They thrive in sun or shade, and if young plants are started in September and potted they will bloom freely in the window during the winter. The flowers are large, exquisite in form, of a pleasing wax-like texture and show many shades of color from white to rich crimson, as well as striped and spotted. If you grow but a half dozen annuals one should be the Double Balsam. It is indispensable. Packet containing 30 seeds 5cts.

The New Flowering Bush Balsam

This is a Double Balsam being introduced from Italy. It is recommended by the introducers as dwarf-habit, free-flowering, of loose growth and blooming abundantly the entire summer. The plants are easily propagated from seeds, not difficult to care for, and as the flowers are not hidden by the foliage they are well suited for beds. Also desirable for pots in the window. The seeds I offer are from France. Colors: White, Lilac-rose, Red, sep. or mixed. Try this Balsam novelty and report to me on its merits

MISCELLANEOUS THINGS

CATERPILLARS, *Scorpiurus*, grown as curiosities, The various seed-pods resemble Caterpillars, and are sometimes put in salad as a harmless joke. They are not palatable. We have **Large, Small, Striped and Hairy**, separate or mixed, 5 cents.

MEDICAGO *scutellata*, 1ft, yellow fls, snail-like pods, 5 cts.

GYMNOTHRIX *latifolia*, 10ft, noble perennial grass, forms big clumps; nodding spikes; very ornamental, 5 cents.

CENTAUREA *Babylonica*, 6ft, golden yellow bloom, 5 cents.

CYPERUS, Umbrella plant, semi-aquatic; beautiful, 5 cents.

PALM, *Sabal Palmetto*, the hardy Florida Palm, beautiful, 5 c.

NELUMBIUM *speciosum*, large Egyptian Water Lily, mxd, 5 c.

NYMPHAEA, Water Lily, large, fragrant, mixed 5 cents,

Additional Annuals, New and Choice Kinds

ALTHEA Mammoth Alleghany, a. grand. Hollyhock, semi-double elegantly fringed; mixed.

ALYSSUM Primrose Queen, a yellow flowered sort, the flowers in lovely fragrant clusters.

ANTIRRHINUM English Compact, 1 ft., bushy Snapdragons specially adapted for beds.

Kelway's Up-to-date, Kelway's Mixture of choicest semi-dwarf sorts; very superior.

Kelway's Choicest, Kelway's Mixture of choicest Giant-flowered Snapdragons; none better.

Brilliant Rose, self, a very attractive and beautiful Snapdragon, fine for beds or pots.

Majestic, a magnificent strain of the most beautiful new varieties; superb mixture.

ANCHUSA Myosotiflora, 1 ft., flrs. rich blue with eye, not unlike Forget-Me-Nots.

Blue Bird, 15 in. A beautiful compact plant of easy culture; flrs. vivid indigo blue; fine.

Grandiflora Lisadell, 6 ft. Beautiful new sort; dense plants a mass of Gentian blue flrs.

ASTER Canary Bird, giant comet double flowers, chrome yellow; grown by Benary.

Salmon Queen, 2 ft., a giant Comet double Aster, grown by Bodger, who says it is the finest salmon-colored Aster known; showy in a bed.

Heart of France, 30 in., a Branching Aster of intense ox-blood crimson; very beautiful.

Cardinal, similar to Heart of France; showy.

Everlasting, 2 ft., a late Helichrysum-like Aster, retaining its color when dried.

Glare of the Garden, 1 ft. Kelway's showy single Aster; vivid red, dense plants.

South cote Beauty, 30 in. Benary's fine new race of Giant single-flowered Ostrich-Plume Aster, has long graceful petals, flrs. held aloft on long stiff stems; unrivalled for beds and for cutting or house decorations. Colors: white, pink, mauve, dark blue, mixed.

CALENDULA Campfire, 1 ft. Undoubtedly the finest Calendula; plants sturdy, profuse, easily grown; flrs. of largest size, double to the center and of the richest orange color; gloriously effective either in beds or pots.

Rivierl, French improvement on Orange King.

CHEIRANTHUS Semperflorens, 1 ft. Mette's ever-blooming variety; plants free and long-blooming; flowers in fine clusters deliciously scented; color rich golden yellow with brown buds; for garden or house.

CLEOME Pungens, 3 ft. A handsome Spider plant; flowers rose, in big terminal clusters.

Cockscomb, Dwarf Crimson

Dianthus Nobilis fl. pl.

COCKSCOMB, Dwarf Crimson Exhibition, 1 ft., saved from prize flrs. and enormous combs.

COSMEA Fairy Queen, 30 in. Compact; blooms from July onwards; flrs. carmine-rose.

COSMEA Kelway's Crested, 2 ft., free and early-blooming; flrs. of great size and beauty, the crest and guard being of different colors.

CYNOGLOSSUM Furcatum, 2 ft. The beautiful Forget-Me-Not Cynoglossum; rich blue.

Blue Perfection, 2 ft., rich Cambridge blue.

DAHLIA Coltness Hybrids, 1 ft. Branching dwarf plants bearing many single flrs.; mixed.

DIANTHUS Alwoodii, 1 ft. A hybrid of Pink and Carnation; double, fragrant, fine mixed colors; 4 seeds in a packet.

Nobilis fl. pl., 1 ft. The beautiful Royal Pink; hardy; large, double, fringed flowers of great beauty; last well; many colors, mixed.

DIMORPHOTHECA Ringens, 1 ft. New, pure white with lovely blue zone; easily grown.

Eklonsis, 1 ft., large white flrs. with blue disc.

DOLICHOS Japonicus, 2 ft., large terminal panicles

of purple flowers; good for beds.

Princess Helene, 2 ft. Pure white flowers in terminal panicles; showy in beds.

ERYSIMUM Linifolium, 1 ft. Very floriferous; lovely lilac clusters; perennial but blooms first season; for beds or rockery.

GAILLARDIA Grandiflora, Dazzler, 2 ft. Large golden flrs. with rich maroon-red center.

Kelway's Exhibition, 3 ft. A very superior strain with huge flowers of various rich colors and variegations; splendid mixed.

GILIA. Handsome hardy annuals of easy culture; Gilia Tricolor is one of the prettiest of garden flrs., and other kinds are also beautiful. I supply G. Tricolor mixed; Liniflora, white; Archileafolia, purplish-blue; Laciniata, dwarf purple; Nivalis, snowwhite; Tall mixed, Dwarf mixed.

GODETIA Azaleiflora Cornelia, 15 in. New, very double, pink, beautiful for pots or beds.

HELIANTHUS Sanguineus, 10 ft. New Giant Sunflower with blood-red flrs.; beautiful.

IBERIS, Queen of Italy, a rare, handsome Candy-tuft grown as annual or biennial; plants dwarf, compact, hardy, showy, very free-blooming; flrs. white in clusters, fine for cutting.

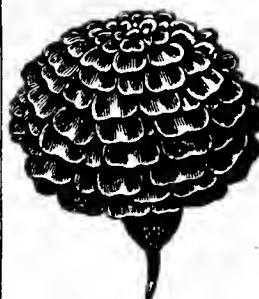

IMPATIENS Noli-me-tangere, 1 ft. Large flrs., yellow spotted red, handsome; rare; hardy.

LINARIA Celmson and Gold, 9 in. Thrives in garden beds; very showy; bears large heads of crimson and gold flrs., the contrast very effective; not unlike miniature Snapdragons.

Pancel, 1 ft., free-blooming plants with lovely foliage; flrs. large, canary yellow, attractive.

LOBELIA Mrs. Clibran, an extra fine Lobelia, dwarf, compact, smothered with bloom; flrs. rich blue with white eye; for pots or beds.

Compacta Duplex, 6 in., flrs. semi-double, blue.

Marigold Fire Cross

Nicotiana Crimson Bedder

MARIGOLD Fire Cross, 8 in. Undoubtedly the brightest and best edging plant offered; the wealth of flrs. are rich golden with a large crimson-maroon blotch on each petal; decidedly one of the best new annuals of recent years.

MARIGOLD New Climbing, grows 15 ft. high under favorable conditions and bears a wealth of big double flrs. of various colors; grown in pots it blooms well in winter; a novelty of real merit. Its growth is promoted by liquid fertilizer and good cultivation; needs support.

MYOSOTIS Oblongata Perfecta, 1 ft., splendid perennial blooming first season; flrs. rich true blue, large and fine; best of the handsome Oblongata group; blooms in winter.

Sutton's Royal Blue, 1 ft. Plants become a mass of rich blue, white eyed flrs. in clusters.

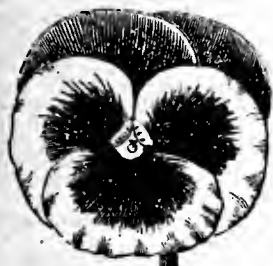

Isolde Krotz, 6 in. An improvement on Ruth Fisher; largest-flowered, longest-blooming and most valuable pot Forget-Me-Not.

NICOTIANA Crimson Bedder, 15 in. A fine new bedding plant, dwarf, compact very free-blooming, and the flowers rich crimson, a mass of bloom throughout the season; far surpasses Crimson King in brilliant effect, and is delightfully fragrant; thrives in any sunny bed and is easily grown. A good thing.

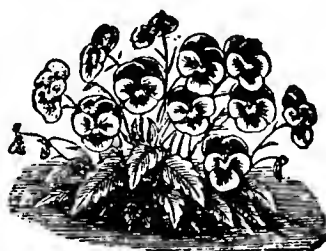

Suaveolens, 18 in. A rare Australian species bearing loose panicles of small white tubular delightfully fragrant flrs.; fine; free-blooming.

PETUNIA Grandiflora Theodosha, 2 ft., extra large fringed; brilliant rose with distinct golden throat. Took first prize at the Boston Flower Show. An American introduction.

PANSY Kelway's Blue Boy, ultramarine blue; the finest Pansy of the color.
Vis Brothers All Giants, choicest mixed.
Vis Brothers Market Strain; very fine.
Lake of Thun, blue with dark blue blotches.
Alpenglow, Cardinal shades; flowers of Roggill Giant size; new; very handsome.
Apricot Queen, a new Pansy for beds; compact, free-blooming; flrs. of medium size, pretty, apricot color shaded yellow, darker center.
Apricot, self-color; plants compact.

Pansy Alpenglow

Viola Cyclops

PETUNIA California Giants, large, free-blooming; many colors; seeds from California.

POPPY Nudicaule, Coonaria Pinks, very large, handsome Perennial Poppies; many fine colors. These Poppies rarely do well in the south, but are fine in northern gardens.

Tulipa, the Tulip Poppy, 2 ft. Does well North or South; vivid scarlet, not unlike a Tulip; makes a fine bed when fall-sown.

PYRETHRUM Mette's Carpet of Gold, 6 in. A superb edging of easy culture; plants compact; foliage golden yellow; excellent.

SALVIA Extra Early Primus, 1 ft., said to be the earliest-blooming variety; plants dwarf, free and long-blooming, splendid for beds.

Lilacina, rich reddish lilac, free-blooming.
Splendens Maroon Prince, 2 ft., deep violet flrs.
SCHIZANTHUS Chislehurst Giants, 18 in., beautiful large-flowered hybrids of many colors.
SCUTELLARIA Baicalensis Coelestina, 1 ft., fine racemes of lovely blue flrs.; hardy, free and long-blooming; for beds and cutting.
TAGETES Patula Nana Aurora, 1 ft., large double flrs., cream yellow stained red, new, odd.
Brilliant, 1 ft., rich glowing reddish-scarlet, with primrose blendings; new, striking.
TITHONIA Speciosa, 10 ft. Big branching plants, everblooming, the flowers large, rich orange-scarlet, not unlike a fine single Dahlia; a splendid new annual from Mexico.
VERBENA Colossea, new; very large umbels of flrs. over an inch across, appearing in many rose and pink shades, some with bright eyes.
Grandiflora, Etna, huge trusses of geranium-red with gold eye; rare and handsome.
VIOLA Cornuta Blue Gem. Very valuable for beds, being of dense habit and bearing rich violet-blue flowers in profusion continuously for a long period; plants hardy and resist drought better than other varieties.
VIOLA Cyclops, 6 in. Deep purplish violet with large white eye; compact, free-blooming.
Gracilis, trailing; new race from Greece, beautiful intense violet blue, fine rock plant.
Johnny-Jump-up, the old-fashioned violet found in old gardens; hardy, tenacious, trailing.
WALLFLOWER Langportian, 2 ft. The largest trusses of giant single flrs. two and a half inches across; splendid deep brown-red.
New Double Annual Early Wonder; blooms 5 months from seed; flrs. double, fragrant, of many colors, long-blooming; started in mid-summer will bloom well in window or green-house. Award of Merit, Royal Hort. Society.

Additional Perennials, New and Choice Kinds

ACONITUM Tauricum, 4 ft., beautiful deep blue flrs. in dense upright racemes, June.

ADENOPHORA Potanini, 18 in., a hardy Bellflower; flowers light blue, large drooping bells; an interesting perennial.

ALLIUM Moly, 1 ft., a pretty hardy perennial for beds, roots bulbous and should be close; flowers yellow in umbels; showy in masses.

ALSTROEMERIA Chilensis, 2 ft., tuberous plants from Chili, of Amaryllis family; flowers lily-like, in many fine colors.

ANEMONE Japonica, 3 ft., mixed colors; fall-blooming, handsome singl flrs. on long stems.

ANEMONE Pulsatilla, Pasque Flower, 1 ft., pretty silky tufts throwing up large beautiful flrs. in spring; likes dry, limy soil.

ANTHEMIS Macedonica, 6 in., a hardy free-blooming plant for edgings or the rockery; fine white aster-like flrs., very pretty.

ARISTOLOCHIA Siphon, Duchman's Pipe, a grand foliage vine; big dense semi-tropical leaves; purple pipe-like flrs. early in spring; a splendid vine for a summer house.

ARMERIA Cephalotes Gigantea, 2 ft., the beautiful Giant Thrift, a splendid border plant; rose and white; likes sandy loam.

BETONICA Grandiflora, 2 ft., a good hardy border plant; flowers reddish-purple in large heads; an easily-grown mint.

CALLIOPSIS Mayfield Giant, 2 ft., grand new Australian perennial; has very large, undivided, lustrous yellow blooms on long, strong stems; fine for lasting beds and cutting.

CAMPANULA Longistyla, 6 in., a hardy biennial for border or rockery; large blue drooping bells on branching spikes.

Persicifolia, Telham Beauty, 2 ft., new, largest bells, soft lavender; glorious Bellflower.

CANARINA Campanula, 3 ft., handsome for suspended baskets; large drooping bellflowers, orange with red nerves and crimson border.

CARNATION Enfant de Nice, 1 ft. A greatly improved Race of the Chabaud type, the flowers much larger, embracing a larger range of col-

ors, deliciously scented, hardy, free and perpetual-blooming; blooms in five months from seed; easily grown. Its the last word in Carnations, and should be in every collection. Colors: Pure White, Striped, Rose, Red, Salmon and Dark Yellow suffused with red, rose and violet. Separate or mixed 5 cts.

CARNATION, Giant French Everblooming, 18 in. Sown in February these Carnations will bloom freely from July till checked by frost. They are truly everblooming and about 90 per cent of the plants will yield fine large double flrs., exquisite and varied in color and borne on long, strong stems. My seeds of these splendid Carnations are direct from Vilmorin, Paris, and can be depended upon for vitality and quality. The plants are allke valuable for either pots or beds. Liberal packets only 5 cts.

CEBATHA Carolina, 20 ft. A graceful native vine with heart-shaped foliage and dense axillary panicles of small white flrs., followed by lovely showy rich scarlet drupes; hardy and tenaceous; a fine trellis vine.

CENTAUREA Babylonica, 8 ft., a fine silvery plant for borders and margins of shrubberies; golden flowers; showy.

Ruthenica, 4 ft., a bold hardy perennial with pinnate foliage and large showy yellow heads.

CIMICIFUGA Cordifolia, 3 ft., a hardy plant with heart-shaped leaves and panicked whitish racemes; likes shade.

CODONOPSIS Ovata, 1 ft., a very pretty hardy perennial; half-twinling; flowers bell-shaped, light-blue, handsome.

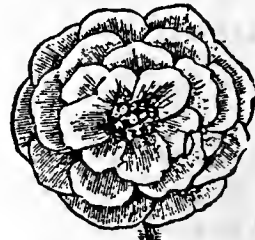

CYCLAMEN Neapolitanum, 6 in., hardy, blooming freely in Autumn from a large tuber; flowers white with violet spots; beautiful.

DELPHINIUM Sulphureum, Zall, a new species with long spikes of golden flowers; sow early in spring or in autumn.

Kelway's Gold Medal, 5 ft., saved from Kelway's unrivaled collection; Single and Double, many fine shades in superb mixture.

Barr's Gentian Blue, a handsome variety.

- DIANTHUS Highland Hybrids**, 1 ft. Perpetual-flowering hardy pink, unequalled for beds and rockeries; flowers of many rich shades from white to glittering scarlet.
- Highland Queen**, 1 ft. The most brilliant of all pinks, blooms freely all season; vigorous, compact, hardy as a Dock, and ideal for beds or the rockery; color fiery scarlet-vermilion.
- DIANTHUS, Sweet William, Henderson's Perfection**, 1 ft., splendid single and double, rich colors edged white; mixed.
- DIGITALIS Isabellina**, 4 ft. New; the most beautiful of yellow Foxgloves; true Gloxinia-shaped flrs. in long upright racemes.
- DICLYTRA Spectabilis, Bleeding Heart**, 1 ft., splendid hardy perennial; long graceful racemes of drooping pink flowers; handsome.
- DOLICHOS Tuberosa**, 12 ft., handsome climbing perennial; flrs. bean-like, violet, in clusters; hardy out, requires protection.
- DORONICUM Caucasicum**, 1 ft., hardy spring-blooming, golden-flowered perennial; handsome.
- ERIGERON Aurantiacus Hybridus**, 1 ft., lovely hybrids of the "Orange Daisy"; flowers of many rich fine colors.
- ERODIUM Manescavi**, 1 ft., not unlike a Pelargonium; flowers in clusters, large bright rosy purple; long in bloom; rare and choice.
- ERYNGIUM Alpinum**, 2 ft., Sea Holly; plants hardy, branching, handsome; blue flrs.
- EUPATORIUM Scrobinum**, 6 ft. A handsome branching late Autumn native perennial; likes moist soil; forms immense dense plants that become a mass of small white bloom, the branches exquisite to use for harmonizing effect with large flrs. in bouquets and designs.
- FRANCOA Ramosa Rosea**, 18 in., a new half-hardy perennial; needs winter protection; lovely rose clusters, very handsome.
- GALEGA Nana rosea fl. pl.**, 2 ft., new double dwarf compact, fine for borders; pink flrs.
- GALIUM Aureum**, trailing perennial; flrs. yellow, fragrant, numerous; fine for bouquets.
- GARDENIA Florida**, 6 ft., hardy shrub south, but tub-plant north; flrs. large, white, deliciously fragrant, produced throughout summer; used also for greenhouse-blooming.
- GENISTA Andreana, Crimson and Gold**, 5 ft., a magnificent hardy plant bearing rich crimson and gold pea-like flowers in abundance.
- GILIA Coronopifolia**, 3 ft., half-hardy; rich red flowers; sown early will bloom in fall.
- HELENIUM Riverton Gem**, 3 ft. Flowers yellow, bronze and crimson shades combined; handsome hardy perennial; fine for borders.
- HELIOPSIS, Lemoines Double**, 3 ft., an improved strain; double flrs., twice the size of the older sort, and of a brilliant golden yellow; hardy perennial but blooms first season.
- HESPERIS Nivea**, 18 in., a new Dames Violet, handsome but very rare; pure white, freely produced; deserves popularity.
- INCARVILLEA Delavayi**, 18 in. Large Gloxinia-like rosy purple flrs.; hardy perennial south, but needs protection at the north.
- INULA Grandiflora Gold Marguerite**, 2 ft., very useful hardy perennial; flowers bright golden yellow, borne in profusion.
- IPOMOPSIS Elegans**, 3 ft. Standing Cypress; elegant spikes of rich-colored, Cypress-like flrs. during summer; once grown the plants reproduce from self-sown seeds.
- IRIS Pseudo-acorus**, 2 ft., handsome species for bogs and ponds; showy; does well in moist soil.
- California, mixed colors; new.**
- KITAIBELIA Vitifolia**, 7 ft. A robust easily grown hardy perennial, beautiful large rosy white flowers, very showy.
- LATHYRUS Pubescens**, a beautiful hardy perennial climber from Argentina; flowers pale blue; prefers to grow by a wall.
- LAVATERA Cashmeriana**, 6 ft., a hardy showy border plant; pink Hollyhock-like flowers.
- LEUCANTHEMUM Maximum, The Prince**, 2 ft. Plants hardy, free-blooming; flrs. white, 5 in. across, showy in gardens; fine for cutting.
- LEUCANTHEMUM Praecox, White Lady**, 2 ft., Mette's New White Early Double, exceedingly free-blooming; fine for cutting.
- LILIUM Regale**, new, hardy, tenacious; flrs. large, white with pink shading, richly scented.
- Auratum; also Giganteum and Martagon.**
- LILY OF THE VALLEY, Large-flowered**, 9 in., a fine hardy perennial for shade; sweet, white flrs. in fine racemes in spring.
- LUPINUS, Perennial, Downer's New Beautiful Hybrids**, 3 ft., hardy, early-blooming, splendid new art shades; very fine.
- LUPINUS Sunshine**, 3 ft. Hardy perennial, bears elegant sprays of canary-yellow flrs.
- Polyphyllus Hybridus, Vis Brothers Prize**; superb varieties in splendid mixture.
- MECONOPSIS Baileyi**, 2 ft., new sort from China; has glorious sky-blue poppy-like flrs. with golden anthers; beautiful garden flower.
- MONARDA Didyma, Cambridge Scarlet**, 3 ft., a grand hardy perennial; richly scented foliage, continuous big showy vivid scarlet flower heads; likes sun or shade; splendid.
- OENOTHERA Trichocalyx**, 2 ft. Biennial with large pure white flrs., Award of Merit.
- Clutei**, 4 ft. Biennial with large soft yellow flowers, an effective border plant.
- ONOPORDON Salteri**, 11 ft., a bold plant, the stems, white, silvery foliage, and the big showy flrs., blue; attractive.
- PARDANTHUS Sinensis**, 18 in. Hardy tuberous-rooted perennial; flrs. 2 in. across, yellow with red spots followed by black-berry-like seeds, and often called Blackberry Lily.
- PENTSTEMON Isophyllus Hybridus**, 2 ft., very free, long-blooming; long-stalked; flowers bell-shaped; fine rich colors.
- PHASEOLUS Caracalla, Climbing Snail Flower**; a tender perennial with purple flowers and curious seed-pods; attractive.
- PINKS, Vilmorin's Finest**, 1 ft., seeds saved from best named sorts, double, perpetual-blooming, richly scented; mixed colors.

Picotee Giant Everblooming

Potentilla Multiflora Semi-plena

- POTENTILLA Nana Multiflora Semi-plena**, 1 ft., very showy, easily-grown little plants becoming a mass of semi-double flrs.
- POTENTILLA Warrenii**, 2 ft., a hybrid of rare beauty, hardy, bearing rich golden yellow cups 2 in. across. Should be in every garden.
- PRIMULA Anisodora**, 18 in., new large flrs. in whorls; rich maroon-crimson with yellow zone.
- Floridae**, 4 ft. Plant vigorous; flrs. numerous, bright yellow, fragrant, handsome.
- Elatior, Munstead Strain**, 1 ft. Magnificent strain developed to highest perfection by Miss Jekyll; largest flrs. in the richest colors.
- Helodoxa**, 3 ft., one of the finest new Primroses; 10 to 12 whorls of beautiful golden flrs.
- PRUNELLA Grandiflora Rosea**, 1 ft., a pretty, free and long-blooming plant; fine for borders; flrs. large; bright rose, showy.
- PYRETHRUM James Kelway**, 3 ft. Bright Vermillion red with golden center; very showy.
- PYRETHRUM Roseum, Vis Brothers superior Holland Strain**; large single flowers in a fine range of rich, varied colors.
- Double-flowered, Vis Brothers superior Holland Strain**; splendid double flrs; rich colors.
- RANUNCULUS Aconitifolius**, 3 ft., branching plants with pretty white cup-like flrs.
- ROMNEYI Coulteri**, 4 ft., a grand herbaceous perennial; flrs. composed of six long, broad pure white petals surrounding a mass of lovely stamens; from California, very attractive.
- SCABIOSA Caucasica, New Diamond**, 3 ft., the finest sort; large perfect flowers of a rich deep blue shade; splendid.

SALVIA Dichroa, 5 ft., a rare perennial forming an elegant bush covered with large spikes of blue and white flowers. Award of merit Royal Horticultural Society.

Tenorei, 2 ft., a rare, beautiful hardy Salvia, flowers rich deep blue on 18 in. spikes.

SAXIFRAGA Decipiens Grandiflora Hybrida, 1 ft., charming; flrs. white to crimson.

SEDUM Spectabile Brilliant, 18 in., a splendid Sedum; large heads of carmine red; superb for a border or for the rockery.

SEMPERVIVUM, Hardy kinds in mixture; plants fleshy rosettes, handsome, easily grown; often called Hen and Chickens; rock plant.

Solidago, Golden-rod, 6 ft. Hardy native perennial with big golden plumes during autumn.

SWEET WILLIAM, Johnson's **Diadem**, 1 ft. Plants thrifty, bearing big terminal clusters of glowing dark scarlet fragrant flrs. with large white eye; new, distinct and beautiful.

TRADESCANTIA Virginica, 1 ft. A beautiful hardy perennial; rich blue, long-blooming; likes shade, but does well in sun.

VERATRUM Nigrum, 5-ft., striking plants; showy foliage, long panicles of purple flrs.

VERBASCUM Giganteum, 10 ft., a fine bold sort; silvery foliage and lovely golden flrs.

Weidmanianum, 3 ft., a very pretty species; spikes of rich deep violet flrs; handsome.

VERBENA Officinalis, 2 ft. Vervain, Juno's Tears; hardy branching perennial; flowers lilac in dense terminal spikes.

VERNONIA Novaboracensis, 6 ft. A fine native autumn-blooming perennial; flrs. brush-like, reddish purple, in big corymbose heads.

VERONICA Incana, 2 ft., a fine bedding or border plant; Ageratum blue flowers; pretty silvery foliage; excellent.

Virginica, 4 ft., metallic foliage in whorls; cup-like white flrs., with golden anthers; fine.

Additional Window Garden Seeds, New and Choice Kinds

ADANSONIA Digitata, 40 ft., the African Baobab Tree; leaves 3 to 5 fingered; flowers 6 in. across, white with purple anthers.

AGATHAEA Coelestis Monstroso, 14 in., new vigorous, winter-blooming pot plant; flowers double in size, beautiful blue; charming.

ARALIA Moseri, a beautiful pot plant; dark green foliage, semi-tropical in appearance.

Sieboldii, 2 ft., a large-leaved pot plant.

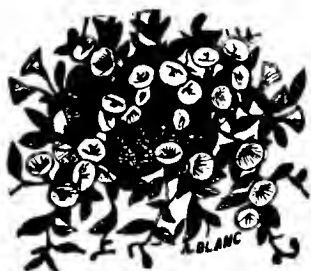

BASELLA Tuberosa Alba, 1 ft., a pretty basket plant with white flowers; very handsome when in full bloom; of easy culture.

BOSEA Yervamora, dense trusses of red berries.

BOUSSINGAULTIA Baselloides, red-tinged stems, very twining, quick-growing; flowers white, very sweet; shining foliage.

BROWALLIA Viscosa, 1 ft., new; a beautiful free-blooming pot plant for the window; flowers bright violet blue in clusters.

BROWALLIA Viscosa Sapphire, 10 in., very compact and bushy plants for pots or borders; flrs. dark blue with white eye freely and continuously produced; admirable for the window.

Calceolaria Dwarf Compact

Convolvulus Altheoides Floribunda

CALCEOLARIA, New Dwarf Compact, Vilmorin's unequalled strain; lovely clusters of many colors, selfs and spotted; beautiful.

CALCEOLARIA Racemosa Hybrida, 2 ft., free-branching; flowers canary yellow and intense red with many shades; new, showy.

CASUARINA Equisetifolia, 15 ft., from Australia; an ornamental evergreen pot plant.

CEDRONELLA Canariensis, 2 ft., charming lemon-scented foliage and light rose flowers; a handsome Mint, of easy culture.

CELSIA Arcturus, 4 ft., a lovely half hardy plant for pots; produces long spikes of golden yellow flrs., July till September.

CINERARIA Benary's Berlin Market, 1 ft. New; each plant becomes a bouquet of medium flrs. in richest colors; for house or market.

CINERARIA, Nana Multiflora, 1 ft. Benary's splendid new variety; remarkable for its compact habit and glorious mass of bloom, small flrs. in a rich variety of colors; easily grown.

CINERARIA Polyantha Radiata, 1 ft., a fine window-plant; small starry flowers in great profusion; mixed colors; decorative.

COLEUS Sluis Rainbow Mixture, saved from a good collection of choice varieties; mixed.

COLEUS Thyrsoides, 2 ft., pretty foliage and panicles of lovely azure flowers; a rare winter-

blooming plant. Award of merit.

COLUMNNEA Splendens, a superb Gesneraceous plant of easy growth; flrs. Gloxinia-like, 3 in. long, burning orange-scarlet, wonderfully attractive. Seeds now offered for the first time. A grand pot plant for partial shade.

CONVOLVULUS Altheoides Floribunda; a pretty creeping perennial vine; delicate pink flowers 2 in. across; silvery foliage.

CORDYLINE, Dracaena Indivisa, 2 ft., a handsome foliage pot plant for the window.

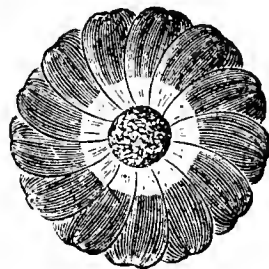

DIOCLEA Glycinoides, a beautiful climbing pot plant; large racemes of scarlet flrs.

EXACUM Affine, 6 in., compact free-flowering plant of the Gentian family; flowers blue with golden stamens; agreeably scented.

FREESIA Ragioneri, 1 ft. Beautiful hybrids; flowers large, in many colors; will bloom in autumn from spring-sown seeds.

Gloxinia Benary's Giant

Cineraria Berlin Market

GLOXINIA, Benary's Giant, largest and handsomest of all Gloxinias; flrs. of enormous size and of the richest colors and variegations.

HEBECLINIUM Macrophyllum, 4 ft., large branching plant from Tropical America; lilac flrs. in big corymbs; very profuse.

HYPERICUM Canariensis, 18 in., a handsome plant for pots; flrs. golden yellow; admirable.

LAVENDULA Pinnata, 15 in. A valued pot plant; bushy; graceful pinnate foliage, fragrant; rich blue flowers; hardy.

LOTUS Tetragonolobus, 1 ft., Asparagus Winged Pea; trailing annual; pea-like scarlet flrs.

Jacobaeus, 2 ft., from Cape Vied Islands; attractive flowers pea-shaped, dark purple.

MESEMBRIANTHEMUM Spectabilis, 1 ft., crowded leaves; pretty red flrs., 2 in. across.

METROSIDEROS Tomentosa, a fine pot plant; red flrs. in terminal crowded racemes.

MIKANIA Scandens, vigorous trellis climber; flrs. yellowish-white in large heads.

PASSIFLORA Incarnata, a pretty Passion Vine; flrs. flesh-colored, sweet-scented; beautiful.

PHALANGIUM Lineare fol. Variegates, 2 ft., a beautiful striped grass-like plant from Africa; bears white Lily-like flrs.

PHORMIUM Veltchii, 2 ft., an elegant variegated-leaved pot plant of easy culture.

PRIMULA Obconica Gigantea, Mohnsteins Red; enormous rich red flowers in large clusters.

Malacoides Fraicheur, Vilmorin's new lilac-colored, flrs. large and plants of good habit.

PRIMULA Malacoides fl. pl., Snow Flake. This is a very superior type, more showy than the single-flowered, and more desirable for window culture; plants vigorous, throw up many stems and are exceedingly graceful as well as attractive. A splendid pot plant of easy culture, and blooms throughout the winter.

Malacoides Superba Rosea, a splendid variety of this fashionable and beautiful window Primrose; plants develop many stems of lovely flrs. in graceful whorls; a Vilmorin introduction.

Malacoides, Vilmorin's New Double Dazzling Red, 1 ft. A magnificent pot plant, blooming in four months; free-blooming; starts readily from seeds; richest color; a fine novelty.

Obconica, Vilmorin's New Crimson, giant-flowered,

the darkest of Obconicas; a magnificent pot plant; flrs. the richest colored being of the largest size and freely produced.

THAGODIA Nutans, "Australian RedBerry," grayish-green foliage; used for hanging baskets; valued for its pretty fruits.

RIVINA Humilis Aurantiaca, 2 ft., an easily grown pot plant with racemes of white flowers, followed by golden yellow berries.

SKIMMIA Japonica, 3 ft., beautiful evergreen pot plant, white sweet flrs.; scarlet berries.

SOLANUM Arboreum, 2 ft., a rare plant with violet-scented flrs. and beautiful red fruits.

STEVIA Serrata Alba, 2 ft., a composite with lovely clusters of sweet-scented white flowers; continuously; fine for bouquets.

Rock Garden Seeds, New and Choice Kinds

ABRONIA Umbellata, a rapidly growing, trailing, Verbena-like plant; very fragrant; umbels of rosy bloom; likes sun and sand.

ACONITUM Fisheri, an attractive perennial bearing showy spikes of large dark blue flrs.

ADONIS Vernalis, large golden flrs. in spring.

ALYSSUM Minimum, an effective edging and rockery plant; lies close to the ground; ever-blooming; white clusters of sweet flowers.

Saxatile Compactum, fine gold-flowered perennial; blooms in early spring; hardy; profuse.

Silver Queen, like Saxatile Compactum, but has sulphur-yellow flowers; perfectly hardy.

ANDROSACE Coronopifolia, pretty rosettes of white flrs. in summer; charming annual.

ANEMONE St. Bridgid, 1 ft., large flowers of various rich colors; easily grown; mixed.

Pulsatilla, 8 in., bears violet flrs. in April; plant covered with silky hairs; likes dry soil.

ANTIRRHINUM Rock Hybrids, 8 in., high. A Glutinosum crossed with A. Majus; fine new plants for the rockery.

AQUILEGIA Alpina, 1 ft., large beautiful blue-flrs; splendid rock plant; hardy perennial.

Coerulea, 1 ft., splendid big blue and white flowers with long spurs during June; hardy.

ARABIS Alpina, a splendid early-blooming white perennial; fine for beds and rockeries.

Alpina Rosea, very handsome rose-colored sort.

ARENARIA Lariifolia, 6 in., a pretty white-flowered rock plant from Switzerland.

ARMERIA Maritima Rosea, 1 ft., tufts of lovely rosy heads in June; hardy perennial.

ARNICA Montana, 8 in., golden flowers 2 in. across; fine for the rockery; hardy perennial.

ASTER Sub-Coerulea, 15 in., a hardy perennial from India; flrs. blue, gold center, 3 in. across.

AUBRIETIA, hardy perennial blooming in early spring; spreading pretty and showy.

AURICULA, Kelway's Perfect Model, 1 ft., very beautiful hardy spring blooming perennial.

BELLIS Double Daisy, Monstrosa mixed, extra large flowers in splendid variety; a hardy perennial; free and long-blooming.

CALANDRINIA Umbellata, a trailing hardy perennial producing pretty vivid crimson flowers, likes sun; blooms first season.

CAMPANULA Carpatia, 1 ft., very free-blooming perennial; flowers bell-shaped, graceful, beautiful; blue, white, mixed.

Garganica, trailing; a gem for the rockery.

Rotundifolia Superba, the Giant Harebell of Scotland; rich blue flowers throughout summer.

Sarmatica, 1 ft., sprays of graceful blue drooping flrs. from June till August; fine rock plant.

Barbata, 1 ft., Queen of the Alpine Meadows; grayish-blue bells; excellent for the rockery.

CANDYTUFT Sempervirens, spreading; white racemes in spring and summer; hardy perennial.

CARNATION Early Dwarf Vienna, a lovely free-flowering Pink for rock-work; flowers very double; white, rose violet or mixed.

CERASTIUM Biebersteini, a low perennial with grayish foliage and masses of white flrs.

Tomentosum, a valuable creeping plant with attractive silvery white foliage and showy white star-shaped flrs. covering the plant.

CHEIRANTHUS Allioni, an early-flowering perennial with gorgeous orange flowers.

Linifolius, 9 in., compact perennial covered with

clear mauve flowers during May and June.

CINERARIA Diamond, 1 ft., very handsome silvery foliage plant of easy culture; flowers yellow, showy; foliage almost white.

CORYDALIS Chellanthifolia, 8 in., a hardy perennial; foliage dense, fern-like, decorated with abundant spikes of clear yellow flowers.

CRUCIANELLA Stylosa, 6 in., a pretty hardy perennial; trailing; rose-colored flowers in handsome clusters; free-blooming.

DELPHINIUM, Tom Thumb, 1 ft., very free-flowering, compact plants; ultra-marine blue.

DIANTHUS Deltoides, 8 in., Maiden Rock Pink; a mass of bright flrs. of rich shades.

Caesius, 8 in., Cheddar Pink, a superior rock plant; bright rose flrs. in great profusion.

Plumarius, 9 in., Garden Pink; double and semi-double flrs., richly scented; various colors.

Rock Species of Pinks in splendid mixture.

ERINUS Alpina, 6 in., hardy violet flrs. in profusion; seeds small and need care in sowing.

ERPETION Reniforme, 4 in., Australian violet; pretty violet flowers; charming for suspended baskets, beds or the rockery.

GENTIANA Acaulis, 4 in., a hardy perennial for edgings and rock-work; rich ultramarine blue with gold spots; trumpet-shaped flowers.

Septemfida, 6 in., easily-grown Alpine with trumpet-like blue flrs.; June till August.

GERANIUM Traversi, 1 ft., a beautiful hardy perennial with woolly, silvery-grey foliage; bright pink flowers from New Zealand.

GYPSOPHILA Muralis, 9 in., tuft-like plants covered with small rose-colored flrs.

Repens, trailer; an everblooming hardy perennial; flrs. pinkish white in great abundance.

HESPERIS Matronalis Nana, 1 ft., a hardy perennial with clusters of sweet-scented Phlox-like flowers; very handsome.

HEUCHERA Sanguinea, 2 ft., graceful spikes of bright crimson flrs; long-stem clusters.

HIERACIUM Villosum, 1 ft., hardy perennial; foliage covered with dense down; golden flrs.

HYPERICUM Polyphyllum, a pretty trailing hardy perennial; silvery foliage; golden flrs.

Orientele, 9 in., hardy perennial; large golden yellow flrs., showy and handsome; free-blooming.

Reptans, prostrate hardy perennial; silvery foliage and numerous bright golden flowers.

JONOPSIDIUM Acaule, 2 in., Violet Cress, a lovely little carpet annual; flowers pale mauve, exceedingly pretty; self-sows.

LEPTOSIPHON Rosea, 6 in., hardy annual; beautiful rose-colored flrs. in profusion.

Aureus, like Rosea, but has bright golden flrs.

LINARIA Cymballaria, a hardy perennial trailing plant with light green foliage and small lilac-blue flowers; very attractive.

Alpina, a hardy trailer; foliage silver-green; flrs. small Snapdragon-like; orange and purple.

LYCHNIS Alpina, 6 in., hardy perennial; flrs. brilliant rose, in clusters, coming in spring.

LYCHNIS Lagascae, 3 in., a fine rock-plant; forms tufts issuing numerous showy flowers; bright rose, white eye; evergreen habit.

MIMULUS Moschatus, 6 in., a hardy perennial with little golden bells, very fragrant.

Prince Bismarck, 1 ft., a free-blooming showy annual with coppery scarlet-red flowers; likes sandy soil and partial shade.

MATRICARIA Golden Ball, 1 ft., a beautiful hardy plant covered during summer and fall with golden double flrs.; very attractive.

MESEMBRIANTHEMUM Tricolor, 6 in., very pretty, showy annual; flrs. crimson and white with dark eye; likes sand and sun.

MYOSOTIS Palustris Semperflorens, 9 in., the true Water Forget-Me-Not; blue clusters produced freely from spring till late fall.

Ruth Fischer, compact little plants bearing a wealth of large azure flowers in fine clusters.

Star of Love, dense little plants smothered with clusters of rich blue flrs.; fine for the rockery also for pots or the conservatory.

NEPETA Mussini Superba, 1 ft., a new large-flowered sort, thrifty in growth; deep blue.

Dwarf Sweet William

Oenothera Drummondii Nana

OENOTHERA Macrocarpa, 8 in., prostrate plant bearing large golden flowers; very showy.

Drummondii Nana, 1 ft., hardy annual of dwarf habit; large pale yellow flrs.; handsome.

Taraxacifolia, forms rosettes like Dandelions; flrs. large, white and yellow; attractive.

OXALIS, Cloth of Gold, 6 in., masses of golden clusters in summer; a bulbous perennial.

Tropaeoloides, 4 in., a pretty, easily grown annual; flrs. yellow, foliage brownish-purple.

PARNASSIA Palustris, 6 in., an elegant hardy perennial for moist or boggy soil; charming white flowers, blooming in masses.

POLEMONIUM Prima Donna, 1 ft., a new variety, hardy, long sprays of azure blue flrs.

POTENTILLA Gibsoni, 1 ft., an Improved Scarlet hardy perennial developed by Mr. Gibson; a lovely scarlet-flowered creeper.

Miss Willmott, 1 ft., an exceedingly free-flowering creeper; glossy magenta rose; hardy.

Mixed Potentillas, 1 ft., double and semi-double; various colors; hardy perennials.

PRIMULA Auricula, 6 in., handsome free-blooming perennial; masses of varied bloom in spring.

Cashmeriana, 1 ft., bears heads of lilac flowers very early in spring, hardy perennial.

Froncosa, 1 ft., hardy plant with silvery foliage, producing lovely rosy-lilac flrs. in spring.

Rosea Grandiflora, 4 in., flrs. bright rosy car-

mine with golden eye; nearly 1 in. across.

Velitchii, 9 in., from China; like *Cortusoides* but larger and handsomer; rich rose.

Vulgaris, the early yellow Primrose; hardy very showy and beautiful; seeds tardy in starting.

RAMONDIA Pyrenaica, 4 in., hairy rosettes above which rise the rich violet-purple flowers with bright orange anthers; handsome.

RANUNCULUS Gramineus, 9 in., an easily grown hardy perennial with long narrow, silvery foliage and large golden buttercup flrs.

ROCK CISTUS, Hellanthemum, 1 ft., charming hardy perennial of creeping habit; various bright-colored flowers; likes sandy soil.

SANVITALIA Procumbens fl. pl., a trailing annual bearing golden button-like flrs.

SAPONARIA Ocyroides Splendens, an elegant trailing perennial with rose colored flrs.

SAXIFRAGA, Encrusted Sorts, 8 in., a fine mixture of these handsome rock plants.

Mossy Sorts, 8 in., lovely varieties with mossy foliage and numerous pretty flrs.; excellent.

SEDUM Coeruleum, 3 in., a charming half-hardy annual; pale blue flrs., freely produced.

Acre, 3 in., Stone-crop; low spreading hardy perennial; golden flrs. in three-parted racemes.

Middendorffii, 6 inches, an excellent rock plant; fleshy brown foliage and golden flrs. in summer; thrives under the most adverse conditions.

SILENE Alpestris, 6 in., a hardy perennial of easy culture; shining white flowers in large panicles; May to July; likes shade.

SWEET William, Dwarf, 1 ft., compact habit; large heads of sweet flrs. of many colors.

TUNICA Saxifraga, 6 in., hardy perennial covered with starry pink flrs.; easily grown.

UROSPERMUM Delechampi, a magnificent rock plant with double golden flrs.; easily grown.

VERBENA Venosa, 1 ft., a handsome hardy perennial producing purple flrs. in abundance.

VERONICA Reptans, 2 in., hardy perennial, the plants compact mats of green, studded in spring with pretty azure flowers.

Prostrata, prostrate perennial, compact, becoming a sheet of lovely blue flrs. in summer.

Teucrium, Royal Blue, 1 ft., hardy perennial, the flrs. clear blue in long spikes; handsome.

VIOLA Cornuta, 6 in., beautiful hardy violets of many fine colors and variegations; splendid.

VIOLA Haslemere, 6 in., new, handsome hybrid; lovely lilac-pink, continuous; fine rock plant.

NOTE: When ordering seeds for the Rock Garden ask for the folder describing a rockery and suggesting the treatment of Rockery plants. It will be mailed with the seeds.

Rock Garden Flowers separate or in mixture, 5c.

Valuable Trees and Flowering Shrubs

ACER, Sugar Maple, 4 ft., pretty foliage, showy golden flrs; sap used for sugar and syrup.

AZALEA Indica, 2 ft., flowering shrub, mixed.

BERBERIS Vulgaris, well-known Barberry.

Aquifolia, 4 ft., golden bloom and black fruit.

CALYCANTHUS Praecox, 6 ft., handsome winter-blooming shrub, a variety of *C. Floridus*.

CELASTRUS Scandens, 30 ft., a pretty native shrubby vine with beautiful orange fruits.

CLETHRA Alnifolia, 4 ft., a deliciously scented little shrub; blooms in summer.

CYDONIA Manlei Superba, 6 ft. Plants compact, free-blooming, flrs. bright red, like apple bloom, in clusters, followed by fragrant golden fruit good for preserves.

CYTISUS Laburnum, 20 ft. Golden Chain; flrs. beautiful golden yellow in pendulous racemes; a hardy shrub of great beauty.

DAUBENTONIA, 6 ft. A beautiful Florida shrub, lovely foliage, and dazzling scarlet Wisteria-like clusters.

ERYTHROXYLON Coca, 5 ft. A half-hardy shrub with small axillary flrs.; greenish foliage chewed as a stimulant by South Americans, also as an article of commerce.

EUONYMUS Fimbriatus, 12 ft. Half-hardy shrub from Japan; flowers white, sub-umbellate on long slender stems; pretty.

LONICERA Caprifolia, a deciduous hardy vine flrs. yellow with a bluish tube 2 in. long; very

fragrant; fruit tawny orange.

MAGNOLIA Soulangiana, 15 ft. Bears large purple Tulip-like flrs. early in spring; hardy.

RHODODENDRON Arboreum, 6 ft., Tree-like Rose Bay; finest mixed.

RHUS Cotinus, 10 ft., Smoke Tree; so called because of its smoky appearance as the seeds ripen; flowers flesh in loose paicles.

RIBES, Gooseberry, excellent garden fruit.

ROBINIA Bessoniana, 40 ft. A thornless variety of the Black Locust; lovely white fragrant racemes; good for honey and shade.

Pseud-Acacia, 40 ft., Black Locust, racemes of white fragrant, honey-bearing flowers.

Viscosa, 20 ft. A species with lovely pink racemes; blooms when small; beautiful.

SAMBUCUS Canadensis, Elderberry, 8 ft., beautiful white clusters in summer, followed by dark red berries; fine for pies and jelly.

SYMPHORICARPUS Vulgaris, 5 ft. A native shrub, clusters of red flrs. succeeded by small dark red berries; Indian Currant.

TILIA Argentea Pendula, 40 ft. A beautiful tree with drooping branches; flrs. numerous, honey-bearing, handsome; seeds resemble pills; used by children when playing "doctor."

VITIS Cognatina, a beautiful Japanese grape vine; in autumn the leaves turn to rich scarlet, and suggest the name "Crimson Glory Vine," vigorous; ornamental.

XANTHOCERUS *Sorbifolius*, 30 ft. The Hyacinth Tree; bears upright racemes of white Hyacinth-like flrs., hardy and showy.

NOTE: Many Shrub and Tree seeds are tardy in germination, often lying dormant from 1 to 4

years after planting, even when the seeds are fresh. You should, therefore sow in a bed that will remain undisturbed for several years. My seeds are all of the new crop, and are as reliable as any that can be obtained.

Novelties of Special Merit

ADONIS *Aleplea*, 18 in. Syrian Flos Adonis; feathery foliage and big shining blood-red flowers; seeds very slow in starting.

AGERATUM *Blue Cap*, 5 in., finest blue edging and small pot plant to date; plants become a globe of exquisite fluffy blue clusters; hiding the foliage, richer in color than Blue Star and even better than Blue Ball.

AMARANTHUS *Henderi*, 5 ft., big showy plant; leaves intense rosy carmine varying with orange-buff, golden yellow and olive green.

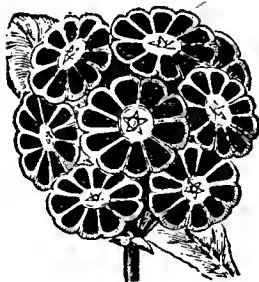

ANTIRRHINUM *Majestic Avalanche*, pure white flrs. in showy masses; fine for cutting.

Majestic Rose Beauty, the large flowers a brilliant rose-pink the bushy plants in bloom are glorious; a splendid new color.

Nanum Grandiflorum *Rosabell*, 18 in. A highly attractive Snapdragon, the plants bushy and compact, the flowers large, rich carmine-rose in splendid spikes; fine for beds and pots.

Eschscholtzia Carmine Queen fl. pl.

Auricula Alpine Triumph

AURICULA *Alpine Triumph*, a giant-flowered strain, the flowers nearly 2 in. across, of many bright colors and freely borne on long strong stems; blooms early in spring.

BELLIS *Monstrosa Tubulosa* fl. pl. *Monterosa*; 6 in., produces immense double quilled flrs., rich rose; new; likes loamy soil.

Stricta fl. pl., 6 in. of upright column or growth, robust and hardy; lovely double pure white flowers in profusion; extra choice.

BELLIS *Tubulosa* fl. pl., *Kelway's Quilled*. A new race; flrs. large, double, and in color Blood Red, Carmine, Yellow, shades of pink, mixed; hardy; fine for beds and edgings.

CALCEOLARIA *Albert Kent Hybrids*, 1 ft. Dwarf; becomes immense trusses of graceful flrs. in many colors from May throughout the summer; does well in pots or beds; new.

CAMPANULA *Rotundifolia Olympleum*, 8 in. Award of Merit Royal Horticultural Society 1931. Very large lovely blue drooping bells from June till September; hardy perennial.

CLARKIA *Elegans Illumination*, 18 in. The brightest of all garden flrs.; large double flrs. in long racemes, color glowing orange enriched by rose and terra-cotta, amazingly brilliant, in sunlight sparkling with almost unnatural fire and life. An outstanding flr.

COREOPSIS *Grandiflora*, *New Auriculata Superba*, 3 ft., hardy perennial blooming first year; the long, strong-stemmed flrs. are large golden yellow with a distinct red band encircling the eye; splendid for beds or cutting.

Kelway's Improved Double, very double flowers of large size, rich golden yellow freely borne on long strong stems; blooms first season.

DELPHINIUM *Elatum*, *Iceburg*, the new white Perennial Larkspur; vigorous plants 4 ft. high, producing big spikes of exquisite white flowers; the first true white Delphinium *Elatum*. A great acquisition.

Monarch Strain, 4 ft. Absolutely the finest strain of Perennial Larkspur that can be obtained from seed; enormous trusses of large flrs.,

mostly double; of the colors.

ESCHSCHOLTZIA, *Carmine Queen*, fl. pl., 1 ft. Vivid deep crimson-carmine, double.

Ramona, 1 ft. Flowers glittering coppery gold with pink shadings, the margin so deeply frilled that it appears double; beautiful.

GERANIUM *Anemonaefolium*, 2 ft., a free-branching plant with large twin flowers in abundance, showy red-purple; half hardy.

GODETIA *Pelargonium*, 18 in., plants bushy, beset with large, bluish pink distinctly blotched carmine rose, giving the exquisite appearance of a charming Show Pelargonium; new.

HELIOPHILA *Linearifolia*, 1 ft., Cape Stock, from South Africa; rare; flrs. bright blue with white eye, in handsome racemes.

HOLLYHOCK *Exquisite*, 5 ft., a new race bearing large double fringed flowers with white margin and blotches of various colors.

ISOLEPIS *Gracilis*, drooping slender foliage hiding the pot; a water or bog plant.

LARKSPUR *Exquisite*, 30 in. Upright habit, very double, exquisite pink spikes.

LATHYRUS *Grandiflorus*, annual climber; pretty foliage and very large rose flowers.

LOBELIA *Illumination*, 2 ft., a grand new perennial sort; large rich glossy scarlet flrs. on a monstrous single scape. Packet of 100 seeds 5 cts. Start with care.

LOBELIA, *Kelway's New Opal*, 6 in. A dense, free-blooming Lobelia with a wealth of exquisite heavenly blue flrs. and a large distinct center, giving a bi-color effect; entirely new and very beautiful in pots or borders.

MALCOLMIA *Littorea*, 8 in. A charming annual producing large pink-purple flowers.

MORICANDIA *Hesperidiflora*, 3 ft., a cruciferous biennial; big showy rosy panicles of deliciously scented phlox-like flrs; new.

MYOSOTIDEUM *Nobile*, 18 in. New Zealand Forget-Me-Not; flowers large, deep blue, edged white. Sow in heat; set in shady bed. New seeds ready in March.

PERESIA *Multiflora*, 3 ft. Biennial with star-shaped Aster-like, porcelain-blue flrs.

PETUNIA *Cockatoo*, 8 in. Benary's New Petunia; dwarf, compact, producing a mass of small flrs.; rich purple distinctly marked with pure white; fine for beds or pots; attractive.

RANUNCULUS *Claremont Hybrids*, 2 ft. First offer of seeds of the new Claremont Hybrids, the finest Ranunculus known; start readily from seeds; the big 5 in. double flowers showing a glorious riot of color, and so numerous as to literally hide the plant.

RANUNCULUS *Giant Florentine*, 2 ft. Large flrs. of the most varied colors held on long stems; a great improvement on the type.

SCABIOSA *House's Hybrids*, 3 ft.; large, showy double flowers in many colors.

Mette's Giant, 3 ft., vigorous in growth; flrs. double, 3 in. across, in all the fine colors.

STATICE *Dumosa*, 2 ft., new and beautiful; dense globes of lavender bloom, fine either fresh or dry; the best Statice; very valuable.

VERBENA, *New Royal Bouquet*, 18 in., compact, profuse-blooming bouquets of large flrs in clusters 10 in. across; splendid; mixed.

VISCARIA *Oculata Blue Bouquet*, 1 ft., plants erect and branching, each branch covered with exquisite large blue flrs., forming a bouquet, in dictating the name; for pots or beds.

Oculata Dwarf Crimson Glow, 8 in. The richest of Viscarias, Vilmorin's worthy companion to Blue Bouquet; dwarf, compact, very free-blooming and attractive.

ZINNIA *New Scabious-flowered*, 3 ft. A new branching Zinnia, free and continuous blooming, flrs. of medium size double, crested, reminding one somewhat of a large Scabiosa; many rich colors; endures sun, and is fine in beds.

The Best VEGETABLES for General Use

Artichoke, French Green Globe, perennial; edible heads. 5c.
Asparagus, Mary Washington, new rust-proof, best of all. 5c
Bean, Early Mazagan English Bean, upright, Lima flavor. 5c.

Bountiful Bean

Bean, Bountiful. Earliest, best snap bean, bears nearly all season. Entirely stringless. Better than Stringless Green Pod. Finest flavored, most tender, surpassingly productive. Pkt. 5cts. 1-2 lb. 20 cts., 1 lb. 35 cts.
Improved Golden wax, best, most productive wax bean. Pkt. 5 cts., 1-2 lb. 20 cts., 1 lb. 35 cts.
Kentucky Wonder, best, most popular climber; green pods 8 in. long, stringless when young, clustered, very productive. Pkt. 5cts., 1-2 lb. 20 cts., 1 lb. 35c.
Striped Creaseback, flowers rich red; pods 9 in. long, green, round, full, productive; best corn-field. 5c. 1-2 lb. 20c. 1 lb. 35c
Lima bean, Fordhook Bush, 18 in., most grown of Limas; fine flavor, very productive. 5cts. 1-2 lb. 20cts. 1 lb. 35cts.
Carpenteria, best vine Lima; finest quality, productive. 5cts.
Beet, Early Wonder, ideal in form, color, flavor; early. 5c. oz. 10
Detroit Dark Red, Early, shapely, sweet, tender; excels. 5c. oz 10
Broccoli, Michaelmas, like Cauliflower; easier grown, finer flavored, more tender than Cabbage. Pkt. 5cts.

Brussels Sprouts, Improved Half Dwarf; small, solid Cabbage-like heads upon an erect stem; tender, delicious. 5c.
Cabbage, Early Jersey Wakefield, earliest, solidest, best of earliest; sure to head. Pkt. 5cts. 1-2 oz 20
Late Flat Dutch, unexcelled for full crop, sure to head, large, solid, finest quality; amazingly productive, even in bad seasons, keeps well. Pkt. 5 ts. 1-2 oz. 20cts.
All Seasons, heads round, weighs 12 lbs. rich quality; sure to head. 5cts. 1-2 oz. 20c
Red Dutch, deep red, fine for pickling. 5cts.
Perfection Drumhead Savoy, of easiest culture, fine, large, crinkly heads, sweet, rivals Cauliflower. 5c. 1-2 oz. 20c.
Cardoon, Large Smooth, best sort, fleshy. 5cts. 1-2 oz. 15cts.
Carrot, Danvers Improved, fine orange-red, 5c. oz. 20cts.
Cauliflower, Snowball, early, sure to head, fine quality. 5c s.
Danish Giant, a Dry Weather Cauliflower, easily grown as cabbage, large, solid white heads, a week later than Snowball, heads when other's fail, quality equal to Snowball. 5c.

Late Flat Dutch

Celery, Golden Self-blanching, early, disease-resistant, handsome, rich-flavored, keeps well; a splendid celery. 5c. 1-2 oz. 20
Giant Pascal, Winter King, late, large, solid, thick, stringless, heart golden yellow, very fine. Pkt. 5c. 1-2 oz. 20c.
Collards, True Georgia, stands out, use as needed, 5c, 1-2 oz. 10c.
Georgia White, heads like Cabbage; never winter-kills; leave heads in bed till needed; tender, fine flavored; good for the South. 5c 1-2 oz. 10c.

Chives, onion-like; without bulbs; tops used. 5c. 1-2 oz. 20c.
Chicory, Large-rooted, dry and use as coffee. 5c. 1-2 oz. 10c.
Corn, Early Mayflower, earliest; bears 2 large ears. 5c. 1-2 lb 20
Golden Bantam, second early, sweet, prolific, 5c. 1-2 lb. 20c.
Country Gentleman, next in order, sweetest, 5c 1-2 lb, 20cts.
Kendell's Early Giant, the best all-round Sweet
Corn, North and South, second early, large ears. 5c. 1-2 lb 20
Stowell's Evergreen, very sweet and prolific; late. 5c. 1-2 lb 20
Golden Pop Corn, large ears and grains; pops well. 5c. 1-2 lb 20
Corn Salad, used as a salad in Winter and Spring. 5c. 1-2 oz. 10
Cress, Fine Curled, cut-leaved, for salad. 5c. 1-2 oz 10c.
Cucumber, E. White Spine, best of the Earlies; 5c. 1 2 oz 10cts
Jersey Pickling, fine quality, hardy cucumber. 5cts, oz 10cts
Woodruff's Hybrid, an improved Davis Perfect. 5cts, ½ oz 10c
Endive, Large Green Curled, blanches cream. 5cts, 1-2 oz 10c
Egg Plant, Black Beauty, earliest, prolific, best. 5cts, oz 20cts.
Herbs: Dwarf Basil, Fennel, Sweet Marjorum, mixed 5cts.
Dandelion, showy golden bloom, fine spring salad. 5c, 1-2 oz 25

Kendell's Giant

Kale, Dwarf Scotch, showy; hardy, for winter greens. 5 cts.
Kohlrabi, E. White Vienna, tender, prolific; 5cts. 1-2 oz. 10c.
Leek, American Flag, easily grown, popular sort. 5c, 1-2 oz 15
Lettuce, Curled Simpson, finest leaf Lettuce; rich, tender. 5cts, 1-2 oz 10 cts.
Big Boston, extra, summer or fall; 5c ½ oz 10
Iceberg, heads, finest quality; 5cts.
Hot Weather, the best all-round Lettuce. Heads large, firm, well blanched, sweet, buttery, of finest flavor, stands hot weather best, and is also best for winter, enduring cold that would destroy others. It's a "seek-no-farther". 5cts, 1-2 oz 10cts.

Hot Weather Lettuce

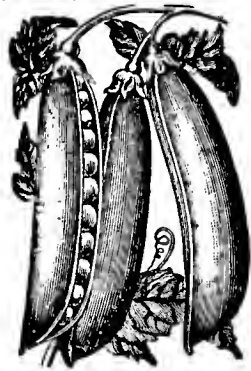

New York, huge heads, fine quality, easy grown; 5c, 1-2 oz 10c
Paris White Cos., a delicious sort, none better; 5c, 1-2 oz 20c
Muskmelon, Emerald Gem, early, sweet, fine; 5c 1-2 oz 10c.
Rocky Ford, most popular of all, sweet, rich; 5c 1-2 oz 10c.
Market King, huge in size, fleshy, very sweet; 5c 1-2 oz 10c
Water Melon, Kleckley Sweet, the sweetest, most sure, most prolific of all; get Kleckley for one melon; 5c, 1-2 oz 10 cts.
Coles Early, earliest, very sweet and productive; 5c, oz 10c.
Irish Gray, very large, sugary; best shipper; 5cts. oz 10cts.
Mustard, Giant Plume, huge, plummy, beautiful; 5c. oz 10cts.

Ailsa Craig

Onion, Danvers Yellow Globe, fine, productive, sown early matures first season; 5c, ½ oz 15
Australian Brown, early, mild, fine; 5c, ½ oz 15
Southport Globe, large, mild, keeps; 5c, 1-4 oz 15
Ailsa Craig, largest of Onions, globular, fine grained, mild, sweet, best keeper. Start early and transplant, very productive, fine for exhibition, cultivate well. 5cts, 1-2 oz 10cts.
White Portugal, best, silver-skin, fine for pickles; 5c, ½ oz 10c
Okra, Brunswick, new, very productive, pods long, tender, of excellent flavor, the best variety; 5cts. oz 10cts.
White Velvet, distinct, large, tender; 5cts. oz. 10cts.

Parsnip, Hollow Crown, smooth, long, prolific; 5c, 1-2 oz 10c.
Parsley, New Crested Gem, finest Parsley; see pg. 16. 5c, ½ oz 10c
Pea, Model Extra Early, yields an enormous crop 50 days after planting, pods enclosing eight big peas, tender, sweet; plants 18 in. high, need no support, yields two or three crops, bears in summer when others fail; best extra early Pea; 5c, 1-2 lb 30c.
Laxtonian, medium early, unsupported vines 18 in., a mass of huge pods bearing big, sweet luscious peas, none better, none more productive; a great Pea; 5cts. 1-2 lb 25cts.
Cheftain, new, best of all Peas for quantity and quality; 2 ft., loaded with a wealth of giant pods swelled with huge sugary Peas, ripens after Laxtonian, finest for table, market or exhibition. 5c. 1-2 lb 25
Other Peas: Alaska, Little Marvel, Telephone, Potlach, Giant Melting Sugar, White Marrowfat; 5cts. 1-2 lb 25cts.

Laxtonian

Pepper, Neapolitan, Red Chili, Chinese Giant; each 5cts.
Pumpkin, Conn. Field, large, productive, for stock; 5c, oz 10c
Large Cheese, fine quality to cook, keeps well; 5cts, oz 10cts
Radish, We supply French Breakfast, Early Long Scarlet, White Icicle, Chinese Winter; 5cts. pkt. 1-2 oz 10cts.
Salsify, Giant L. Island, Veg. Oyster for soup; 5c, 1-2 oz 15c.
Spinach, King of Denmark, long, standing, best; 5c, 1-2 oz 10c
New Zealand, can be used all summer; Pkt 5c, 1-2 oz 10c.
Squash, Boston Marrow, Hubbard, Giant Summer Crookneck, Fordhook, Swiss Chard Lucullus; each, per pkt 5c, 1-2 oz 10c
Tomato, Spark's Earliana, 3 in. across, solid, tasty, prolific, smooth, disease-free, ripens evenly, no core; 5c. 1-2 oz 20
Ponderosa, largest, solidest, best to slice. 5cts, 1-8 oz 15cts.
Golden Queen, large, rich, golden yellow; 5cts, 1-8 oz 15cts.
Turnip, Early White Milan, earliest, tender, fine; 5c, oz 10c.
Purple-top White Globe, large, best main crop; 5cts, oz 10c.
American Purple-top Rutabaga, the best Swede; 5c, oz 10.
Snowball, extra early, and best, also for late crop and winter greens; delicious, very productive; pkt 5 cts, oz 10cts.

We offer the best select Vegetables, and our seeds are of the best quality. You will not err in giving us your order. You are sure of getting the best in both quality and vitality.

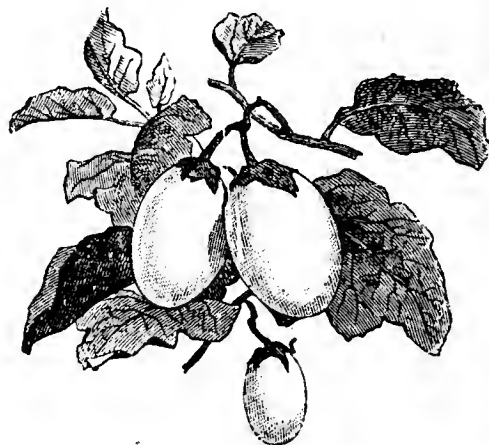

ABSOLUTELY FREE!

Two Grand Novelties! Best of the Season. Entirely New.

The CYPHOMANDRA Fragrans

Here is a wonderful novelty, a splendid, easily-grown Flowering Plant and a beautiful, nutritious and delectable vegetable. Started in spring the plants will grow five feet high covered with massive sub-tropical foliage and producing in autumn big racemes of pink deliciously-scented flowers. Removed to a frost-proof room when frosts threaten, the branches will drop their leaves and remain dormant till spring, when it will be covered with a mass of lovely purple young leaves, and later with the glorious wealth of scented bloom, followed by great clusters of fruits the size and shape of a duck-egg. These fruits soon turn to scarlet, giving the little tree a showy and charming aspect, eliciting the admiration and praise of all beholders, and when cooked having the flavor and delectable taste of that favorite, the Tomato, which it resembles in appearance and taste.

Now I wish every patron could add this "Tomato Tree" to their list. I regret that the seeds are too scarce for me to offer it for sale. But I will add a packet to everyone who sends me a \$1.00 order. It is intended as an absolute Free Gift. If you do not want 22 packets get a friend or two to club with you and swell your order to \$1.00. It is a novelty well worth seeing, and will be "The Talk of the Town."

Bodgers' Fragrant Double Nasturtium

"GOLDEN GLEAM"

For many years a seed-bearing Double Nasturtium was sought, but at last it was found by the enterprising Bodgers of California down in Mexico. It is offered by the world's seedsmen, the price being from 25 to 35 cents a packet. It is really a great acquisition, the leading novelty of the season, and will doubtless become popular. Everybody will want it.

Plants are readily grown from seeds, bloom early and continuously until frost, and are double, deliciously scented, a glowing orange in color, borne on long, strong stems, and desirable for cutting as well as for garden decoration.

Like the Cyphomandra, I wish every patron could have a packet of the seeds, but they are too scarce to offer for sale in my list. I will, however, as long as my supply lasts, add a packet to every order amounting to two dollars. If you do not want 50 packets, get some neighbors to club with you. By soliciting at 5cts. a packet you will have 10 pkts. and the Double Nasturtium for your trouble. Why not get up a club?

Still more! To those who order three dollars worth before July, 1932, I will add absolutely free three packets, Tree Tomato, Double Nasturtium and Tree Muskmelon. The latter, too, is an elegant decorative plant with many white sweet flowers and delicious muskmelon-like fruits. Address all orders to Geo. W. Park, Greenwood, S. C.

AMELANCHIER Canadensis, Dwarf June Berry, 6 ft. Plants a mass of lovely white bloom early in spring, followed by delicious purple berries; fine either raw or cooked.

CARICA Papaya, 10 ft. Pawpaw; a tropical fruit not unlike Casaba Melon and taste; flrs. small, waxy white, fragrant, in clusters; foliage deeply cut; a handsome pot plant; blooms first year, started early; easily grown; hardy in Florida;

CASSIA Corymbosa, 10 ft. A beautiful pot plant of easy culture; flrs. golden, in numerous corymbs showy and handsome; bedded out in a warm, sheltered spot in summer it thrives and blooms

well, but must be repotted and cut back and kept frost-proof in winter.

GUAVA, 6 ft. A delicious fruiting shrub; hardy south, but must be grown in a tub and set in a frost-proof room in winter at the north; fine for preserves or eating raw as a table desert with cream and sugar.

POMEGRANITE, 10 ft. A small, attractive tree, foliage dense and graceful; decorated in spring with rich scarlet flrs. and in autumn with golden red-checked edible fruits, fine for jelly; hardy in the south, but in a severe climate should be well protected.
